

Interactions tab - Rating scale

Last Modified on 07/08/2025 4:42 pm IDT

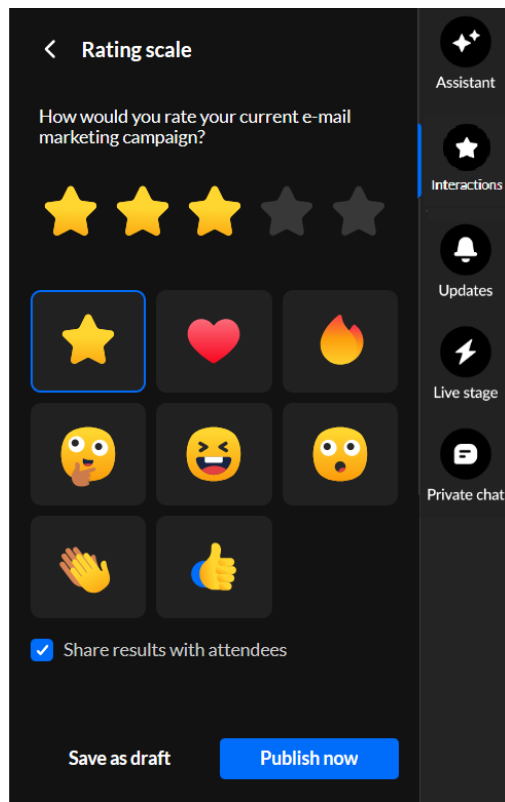

Create and publish a rating scale poll from the Interactions tab of the Chat and Collaboration widget

1. Click **Rating scale** to begin creating a rating scale.

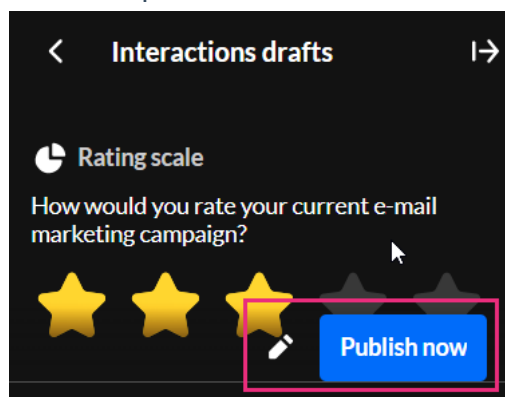

The screenshot shows the 'Rating scale' creation interface. At the top, there's a back arrow and the title 'Rating scale'. Below it is a text input field with the placeholder 'Start rating now'. Underneath the input field is a row of five stars; the first three are yellow and the last two are grey. Below the stars is a grid of emoji options: a yellow star, a red heart, a fire emoji, a thinking face emoji, a grinning face with big eyes emoji, a surprised face emoji, a clapping hands emoji, and a thumbs up emoji. The yellow star emoji is selected and highlighted with a blue border. To the right of the emoji grid is a vertical sidebar with icons and labels: 'Assistant' (star icon), 'Interactions' (star icon, highlighted with a blue bar), 'Updates' (bell icon), 'Live stage' (lightning bolt icon), and 'Private chat' (speech bubble icon). At the bottom of the main area, there is a checkbox labeled 'Share results with attendees' which is checked. At the very bottom are two buttons: 'Save as draft' and 'Publish now'.

2. Type your question/statement, choose your rating scale emoji, decide whether to share results with attendees, save as a draft, or publish now.

If you choose to *save the rating scale as a draft*, you may access it through the **Interactions drafts** button on the Interactions tab, hover over the draft and edit it or publish it now.

If you choose to *publish now*, it will be published to your attendees immediately, initially displaying as a small toast popup in the lower left corner of the screen, then displaying in the Feed sub-tab of the Live stage tab.
