 This article is designated for moderators

Create and publish a crowd vote poll from the Interactions tab of the Chat and Collaboration widget

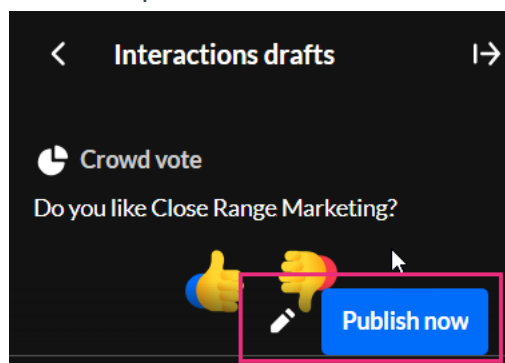

1. Click **Crowd vote** to begin creating a crowd vote.

2. Type your question/statement, choose your crowd vote emoji, decide whether to share results with attendees, save as a draft, or publish now.

If you choose to *save the crowd vote as a draft*, you may access it through the **Interactions drafts** button on the Interactions tab, hover over the draft and edit it or publish it now.

If you choose to *publish now*, it will be published to your attendees immediately, initially displaying as a small toast popup in the lower left corner of the screen, then displaying in the Feed sub-tab of the Live stage tab.
