

## Interactions tab - Survey

Last Modified on 02/01/2026 3:32 pm IST

 This article is designated for moderators

Create, edit, and publish a survey from the Interactions tab of the Chat and Collaboration widget

### **Create a survey -**

1. Click Survey to begin creating a survey.

< **Building Connections** |>

**+ Add question**

Set an answer timeout

Show notification for **1** **min**

 **Intro screen**  
Please take a moment to take a quick survey

**GET STARTED**

 **Multiple choice**

 **Icon choice**

 **Rating scale**

 **Open question**

**Done** ...

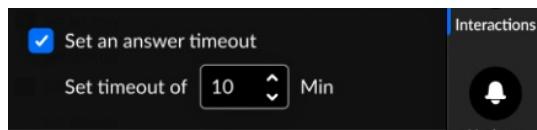

-  **Assistant**
-  **Interactions**
-  **Updates**
-  **Live stage**
-  **Private chat**

2. The survey name is the session name by default; however, you can edit the name.

Simply hover over and click on the current name, then type as desired. (max 150 char)

3. You may set an answer timeout (a response window for users) that controls how long the survey stays active. If enabled, an additional configuration displays, "Set timeout of". Use the up and down arrows to set the number of minutes the survey will be available for users to answer.

- Default response window is 5 minutes
- Minimum is 1 minute and maximum is 120 minutes

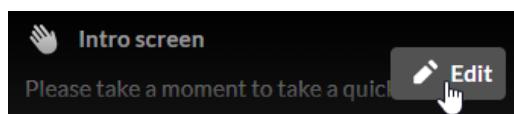

During this time, participants see a countdown indicator. When the timer runs out, the survey automatically concludes.

4. You may specify how long the survey notification will be visible to users. Use the up and down arrows to set the number of minutes or seconds the survey notification will be shown.

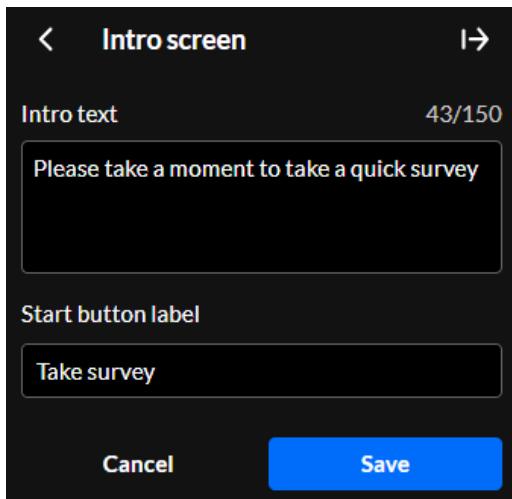

- When set to *seconds*, minimum is 5 seconds and maximum is 60 seconds
- When set to *minutes*, minimum is 1 minute and maximum is 10 minutes

5. The survey intro text is by default "Please take a moment to take a quick survey" and the survey start button is by default "Take survey"; however, you can edit them both. Simply hover over the intro text and click **Edit**.

The Edit Intro screen displays.

Type your intro text and a label for the survey start button, then click **Save**.

6. Click to select a question type you would like to add to your survey - Multiple choice, Icon choice, Rating scale, or Open question. The creation page for the selected question type displays.

- **Multiple choice -**

1. Click in the "Write your question here" field, then type as desired.
2. Click in the Answer 1 field and type one answer.
3. Click in the Answer 2 field and type another answer.
4. Click **+ Add answer choice** to add more answers (up to 8 total).
5. If you want to remove an answer, hover over the answer and click the Delete "trashcan" icon.
6. Choose whether you would like to enable multiple answers.
7. Choose whether you would like to make this multiple choice question mandatory.
8. Click **Save** to save the multiple choice question to your survey. You may also click **Cancel** to cancel the action and return to the main Survey screen.

Multiple choice

What do you think is the primary goal of this event?

To discuss the latest industry trends

To foster networking and relationship-building among participants

To showcase new products and technologies

+ Add answer choice

Enable multiple answers

Set question as mandatory

Cancel Save

- Icon choice -

1. The call to action is "Start voting now" by default; however, you can edit the call to action. Simply hover over and click on the current call to action, then type as desired.
2. Choose which icons you would like to use.
3. Choose whether you would like to make this icon choice question mandatory.
4. Click **Save** to save the icon choice to your survey. You may also click **Cancel** to cancel the action and return to the main Survey screen.

Icon choice

How are you feeling about this session?

:( :| :)

👍👎 ✅ ✖

:( :| :)

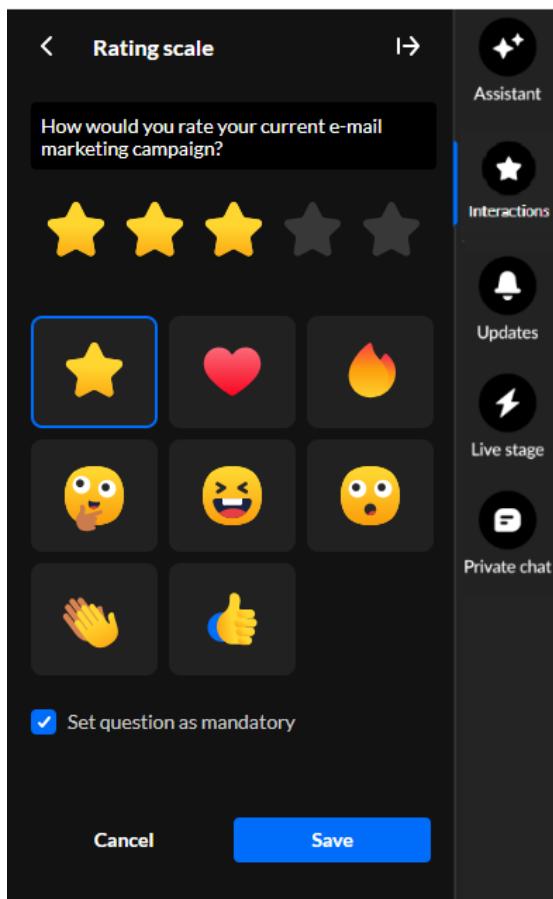

Set as mandatory

Cancel Save

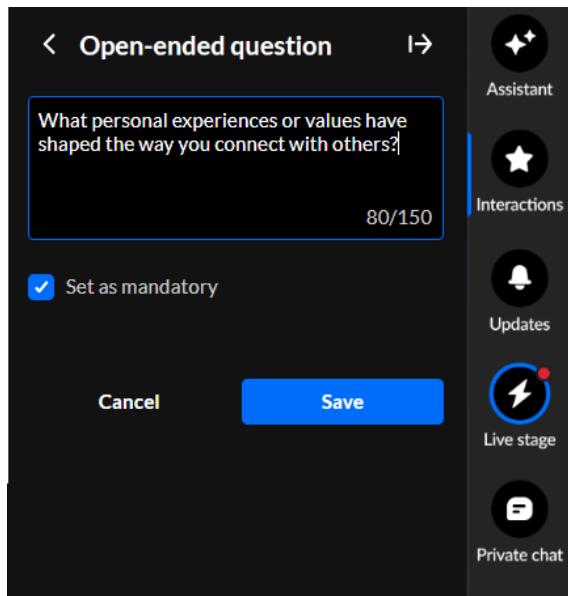

- Rating scale -

1. The call to action is "Start rating now" by default; however, you can edit the call to action. Simply hover over and click on the current call to action, then type as desired.
2. Choose your rating scale emoji.
3. Choose whether you would like to make this rating scale question mandatory.
4. Click **Save** to save the rating scale to your survey. You may also click **Cancel** to cancel the action and return to the main Survey screen.

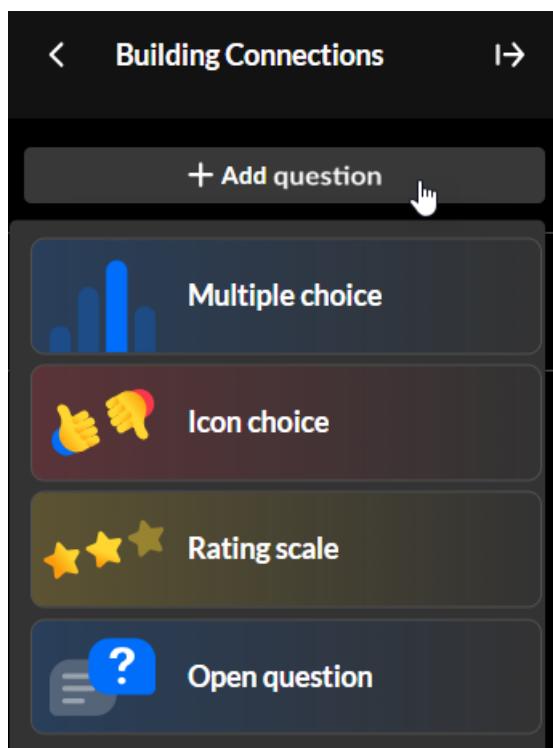

- **Open-ended question** -

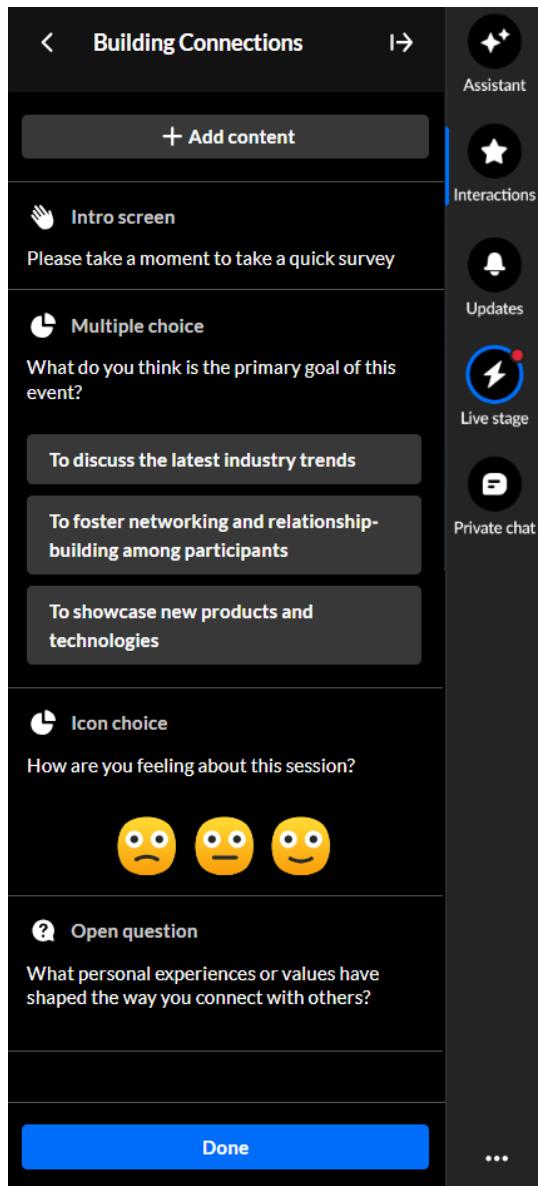

1. Type your question in the "Write your question here" field.
2. Choose whether you would like to make this open-ended question mandatory.
3. Click **Save** to save the open-ended question to your survey. You may also click **Cancel** to cancel the action and return to the main Survey screen.

7. Once you've added one question to your survey, simply click the **+ Add question** button and select another question to add.

You may add up to 10 questions to your survey.

The screenshot shows the Kaltura Building Connections interface. On the left, a dark sidebar lists interaction types: Assistant, Interactions (selected), Updates, Live stage, and Private chat. The main content area shows a survey creation process:

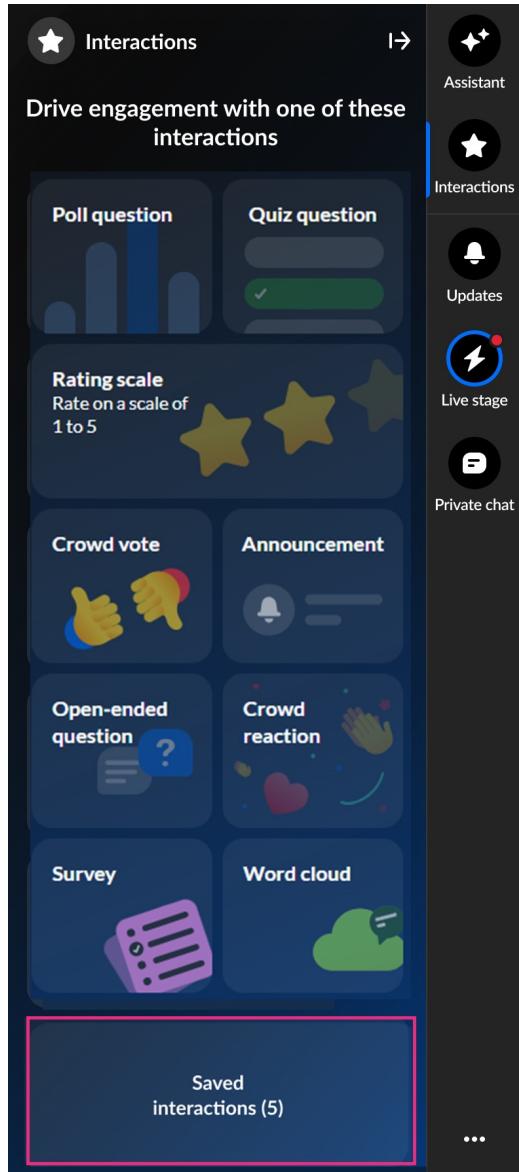

- Intro screen:** "Please take a moment to take a quick survey".
- Multiple choice:** "What do you think is the primary goal of this event?" with three options:
  - To discuss the latest industry trends**
  - To foster networking and relationship-building among participants**
  - To showcase new products and technologies**
- Icon choice:** "How are you feeling about this session?" with three emoji options: sad, neutral, and happy.
- Open question:** "What personal experiences or values have shaped the way you connect with others?"

At the bottom are "Done" and "..." buttons.

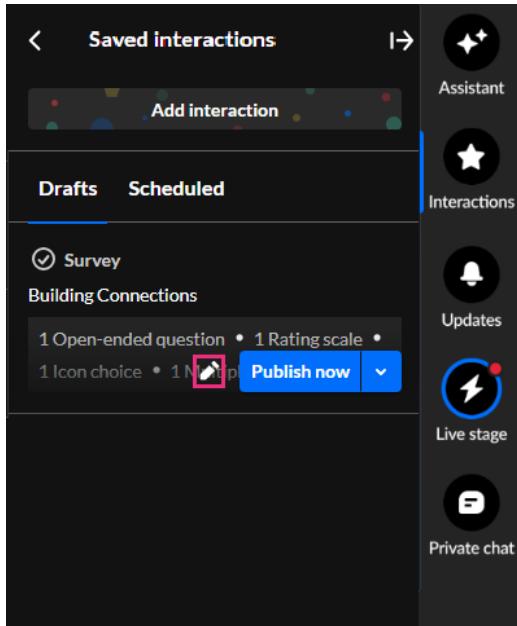

8. Once you're finished creating your survey, click **Done**. The survey is saved in the Saved interactions.

### Edit a survey -

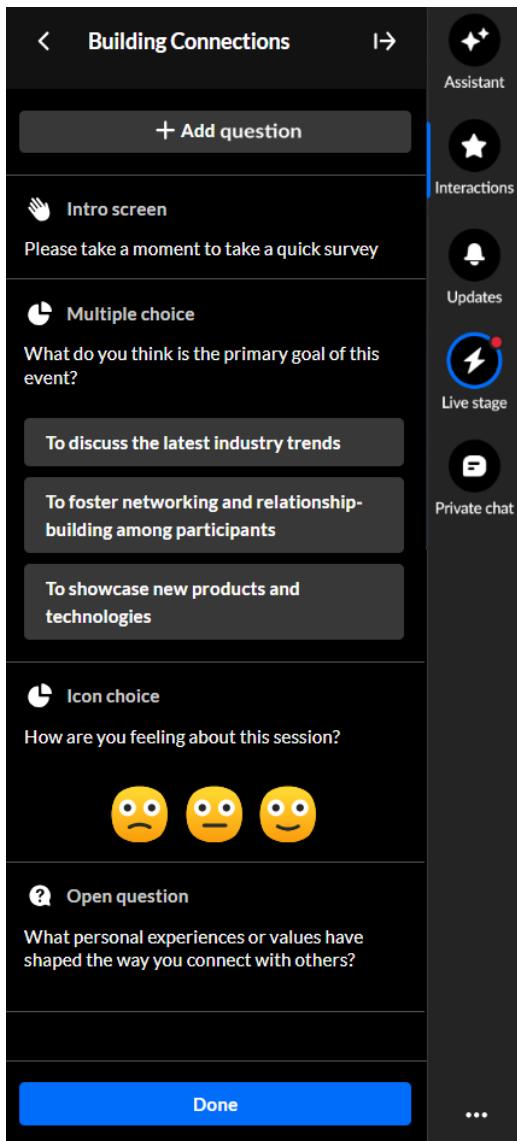

1. If you aren't already in the Saved interactions, click the **Saved interactions** button on the Interactions tab.

2. Hover over the desired survey and click the **Edit** (pencil icon) button.

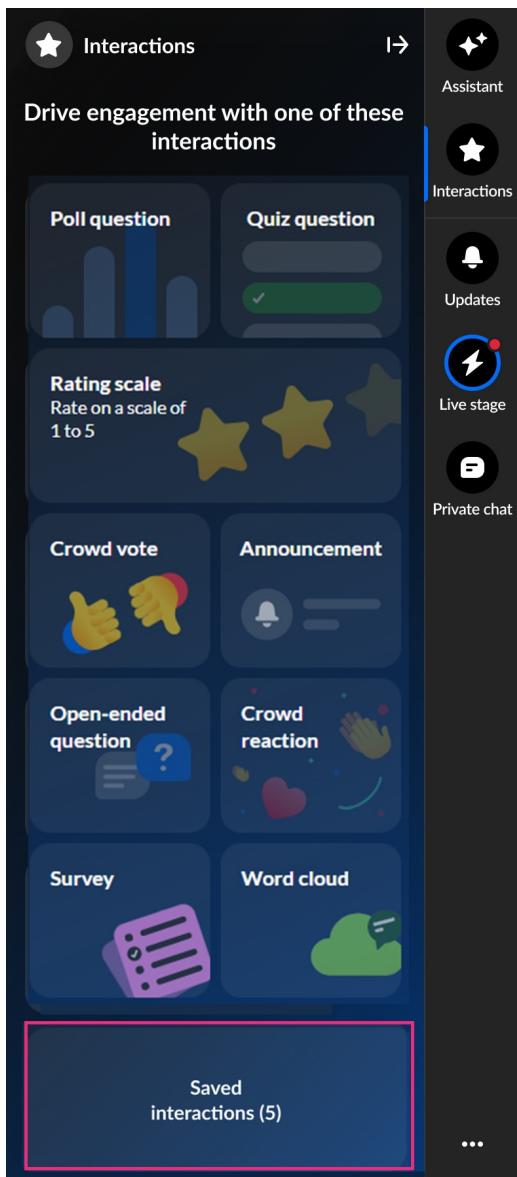

3. The draft survey edit screen displays.

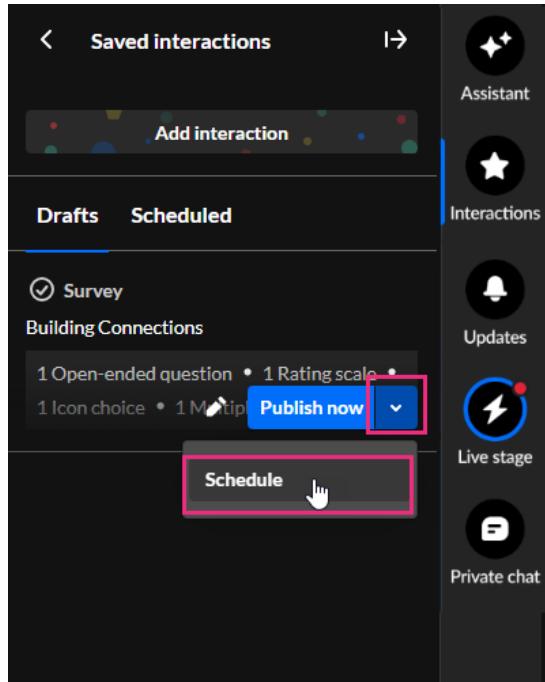

4. Make appropriate changes and click **Done**. The survey is saved in the Interactions drafts.

### Schedule a survey -

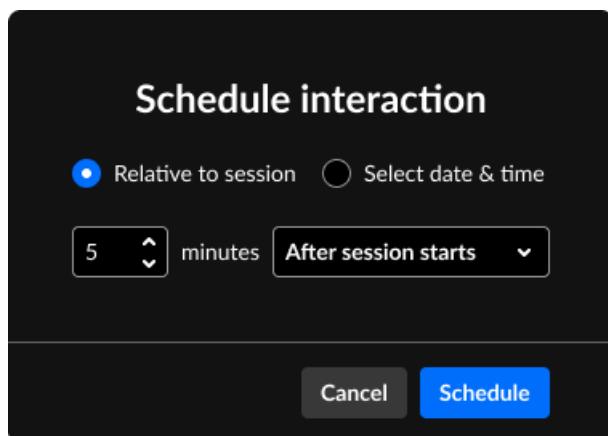

1. If you aren't already in the Saved interactions, click the **Saved interactions** button on the Interactions tab.

2. Hover over the desired survey, click the arrow to the right of Publish now, and select **Schedule**.

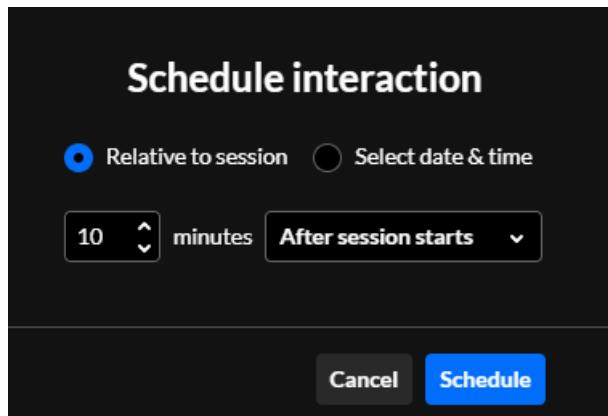

The Schedule interaction screen displays.

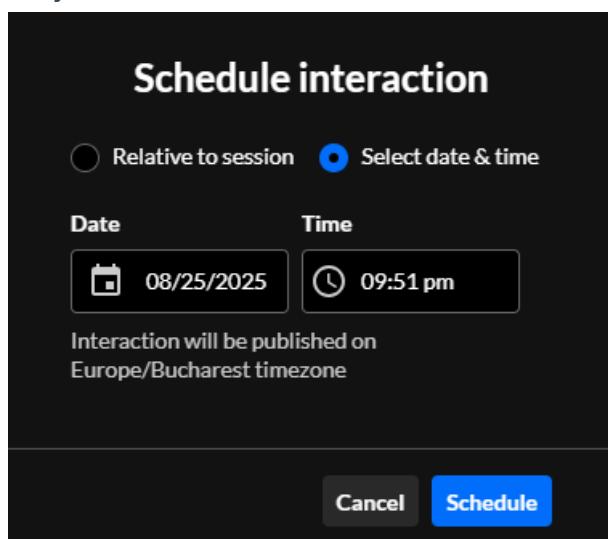

3. Choose whether to schedule the interaction relative to the session or at a specific date and time.

If you want to schedule the interaction relative to the session, choose *Relative to session*. Use the up and down arrows to set the number of minutes and choose Before session starts or After session starts. For instance, if you want the interaction to launch 10 minutes after the session starts, set the number of minutes to 10 and choose "After session starts".

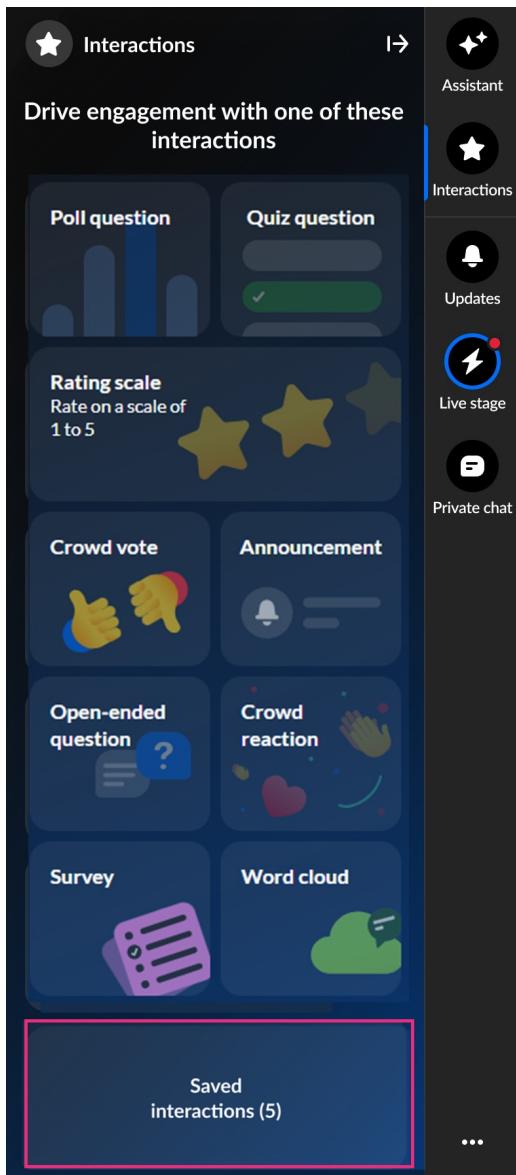

If you want to schedule the interaction at a specific date and time, choose *Select date & time*. Set the date and time using the date and time pickers. Interactions can only be scheduled for future dates/times.

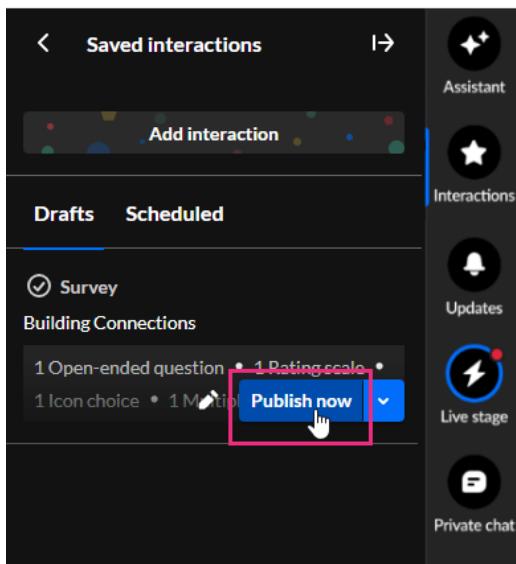

4. Click **Schedule**.

#### **Publish a survey -**

1. If you aren't already in the Saved interactions, click the **Saved interactions** button on the Interactions tab.

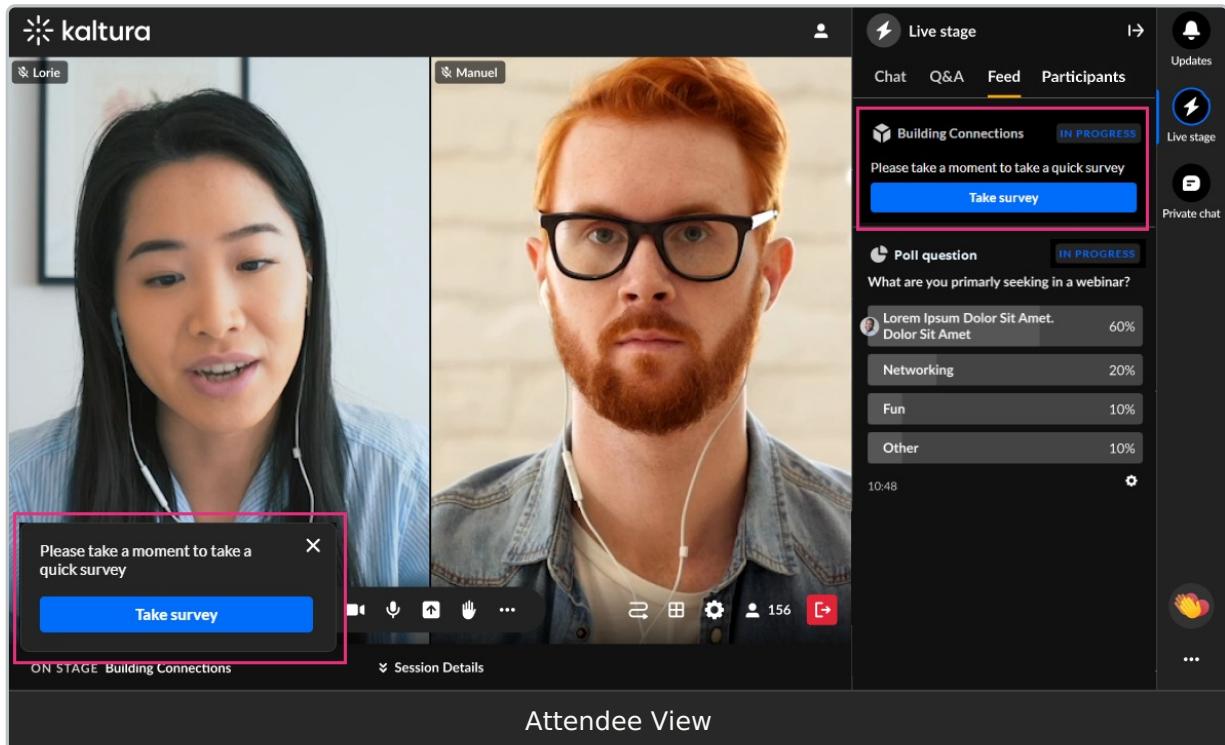

2. Hover over the desired survey and click **Publish now**.

The survey is published to your attendees immediately, initially displaying as a

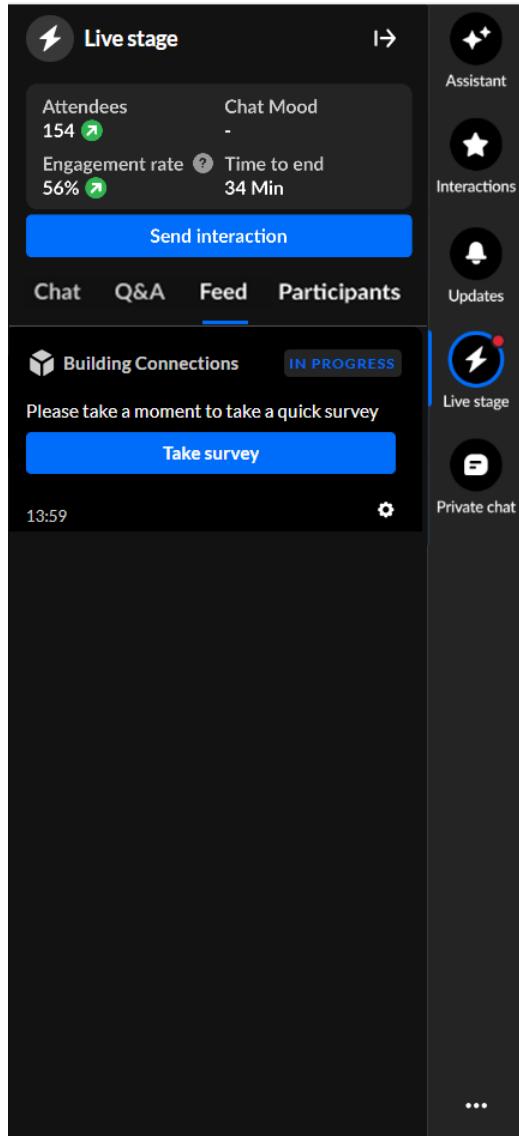

small toast popup in the lower left corner of the screen, then in the Feed sub-tab of the Live stage tab.

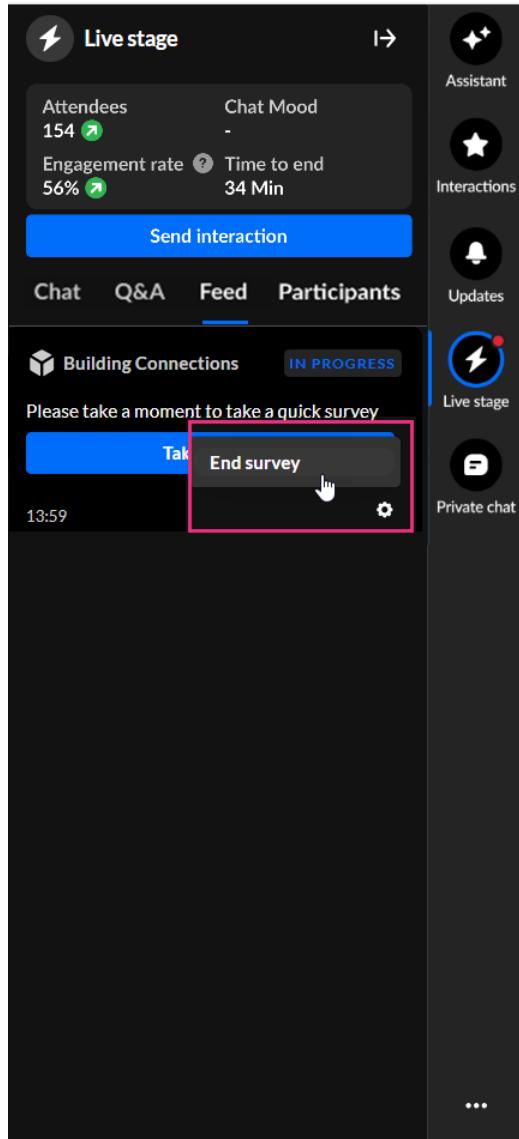

The toast popup includes a **Take survey** button for them to start the survey. The notification in the Feed includes the survey title (set by the moderator), a brief description (if provided), and a **Take survey** button. The toast will remain active until the survey has ended but the attendee may dismiss it at any time by clicking the "X" button. If dismissed, the user may still access the survey via the Feed tab. The user simply clicks the **Start survey** button, answers the questions (some may be mandatory), and clicks **Submit** to submit the survey.

### End a survey from the Live stage tab > Feed sub-tab

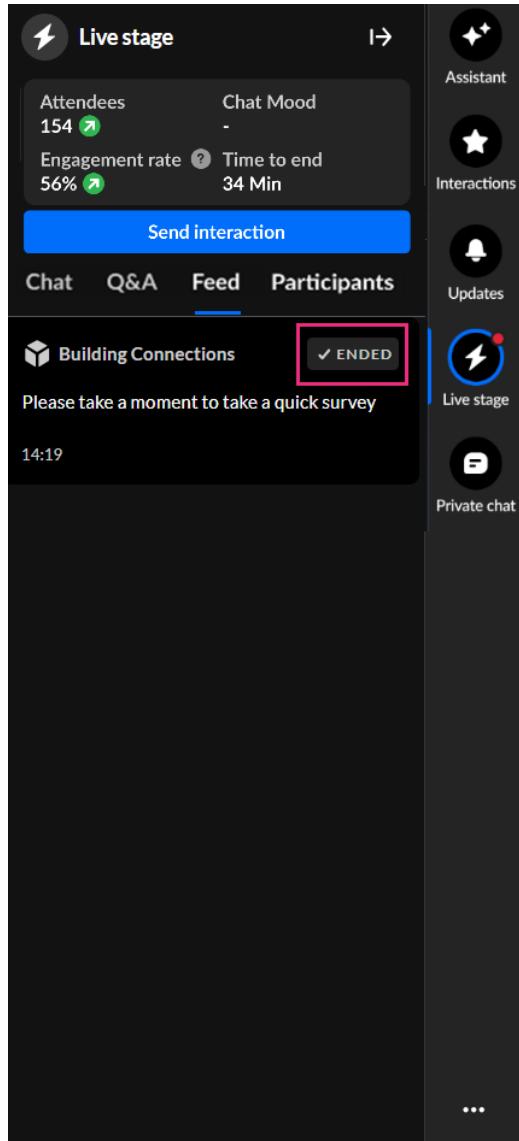

1. Click the Live stage tab, then click the Feed sub-tab.

2. Under the **Take survey** button, click on the settings (gear icon) and select **End survey**.

The survey is ended and marked as Ended in the Live stage tab > Feed sub-tab.

The screenshot shows the Kaltura Live stage interface. On the left, a summary card displays the following information: "Live stage", "Attendees 154", "Chat Mood -", "Engagement rate 56%", and "Time to end 34 Min". Below this are tabs for "Chat", "Q&A", "Feed" (which is selected and underlined in blue), and "Participants". A message box says "Building Connections" and "ENDED". It also prompts the user to "Please take a moment to take a quick survey". The time "14:19" is shown at the bottom. On the right, a sidebar lists "Assistant", "Interactions", "Updates", "Live stage" (which is selected and highlighted with a blue border), and "Private chat". A "..." button is at the bottom of the sidebar.
