(a) This article is designated for moderators

Create and publish a Word cloud from the Interactions tab of the Chat and Collaboration widget

1. Click **Word cloud** to begin creating a Word cloud.

2. Type your question in the Question to audience field (up to 80 char), decide whether to save as a draft or publish now.

< Word cloud		ı→	*
Question to audience		0/80	Assistant
What word describes ye	our mood today?		Interactions
Save as draft	Publish nov	~ /	Q Updates
			Live stage
			- Private chat

3. If you choose to *save the Word cloud as a draft*, you may access it through the **Interactions drafts** button on the Interactions tab, hover over the draft and delete it, edit it or publish it.

If you choose to *publish now*, it will be published to your attendees immediately, initially displaying to all as an overlay on the left of the screen, then displaying in the Feed sub-tab of the Live stage tab.

You can end or unpublish the Word cloud any time by going to the Feed sub-tab of the Live stage tab, clicking the gear icon, and choosing the appropriate option.

Before all results are in, attendees can click **Show results** to see the current results in a toast popup.

Once the Word cloud has been ended by the moderator, the results are displayed to all as an overlay on the left of the screen and in the Feed sub-tab of the Live stage tab.
