

Gallery page in Content Hubs

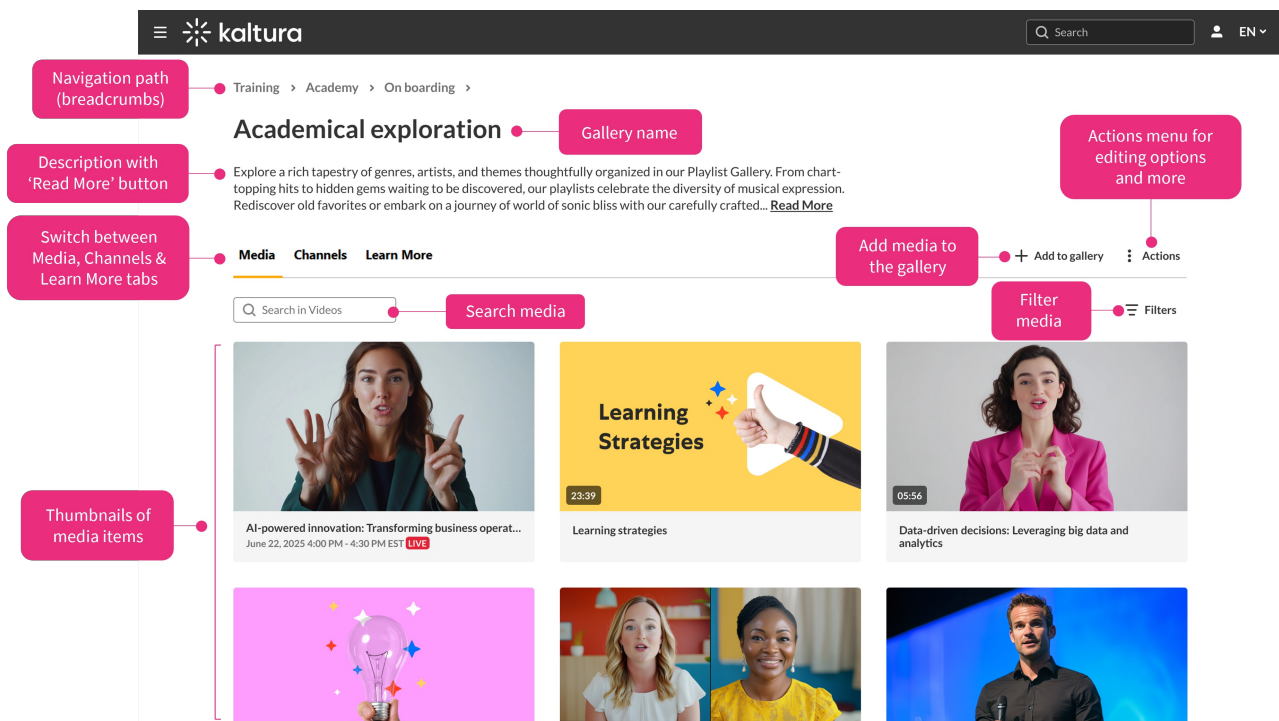

Last Modified on 04/18/2026 3:35 pm IDT

 This article is designated for all users.

About

The gallery page offers a clean, flexible layout for showcasing and managing media in your Content Hub.

Key features

- **Navigation path** - This breadcrumb path appears when viewing sub-galleries and helps you navigate back through the gallery hierarchy. Learn more in our article [Create a sub-gallery](#).
- **Gallery title** - The gallery name is displayed at the top of the page. To change the title, edit the gallery settings. For more information, see [Edit a gallery](#) for information.
- **Description** - This area displays the gallery description. Long descriptions are trimmed by default, and a **Read More** link appears when the **Learn More** tab is enabled in the gallery settings. Selecting 'Read More' opens the full description. To add or edit the description, see [Edit a gallery](#).
- **Tabs** - Tabs let you switch between different sections of the gallery. Depending on

how the gallery is configured, you may see:

- **Media** - shows all media from the gallery and its sub-galleries
- **Channels** - shows related channels you're allowed to access
- **Learn More** - displays the full gallery description

If only one tab is enabled, the tab bar is hidden to keep the layout clean. Learn how to set up your tabs in the [edit gallery page](#).

- **'Add to gallery'** - Users with the appropriate permissions, such as contributors, moderators, or managers, can add media to the current gallery. Selecting 'Add to gallery' opens a window where you can:
 - select existing media from your [My Media](#) library
 - upload new media from your deviceLearn more in [Add media to a gallery](#) article.
- **'Actions' menu** - This menu gives you quick access to the following management tools:
 - **Configure** - Edit gallery settings like name, description, and privacy options. See [Edit a gallery](#) for more information.
 - **Create sub-gallery** - Create a new sub-gallery under the current one. See our article [Create a sub-gallery](#) for more information.
 - **Analytics** - View engagement and performance data for the gallery. See [Gallery analytics](#) for more information.

The **Actions** menu is only visible to users with the appropriate permissions.

- **Search bar** - Use this to search for media or channels within the current gallery. Results are filtered in real time based on your search term and any additional filters you've applied. Learn more in [Search in galleries](#).
- **Filters** - Narrow down the content shown in the gallery by applying filters such as entry type, date, ownership, or membership. Learn more in [Search in galleries](#).
- **Thumbnails** - Each media item appears as a thumbnail with a title and duration. Click a thumbnail to open and play the media.
