 This article is designated for all users.

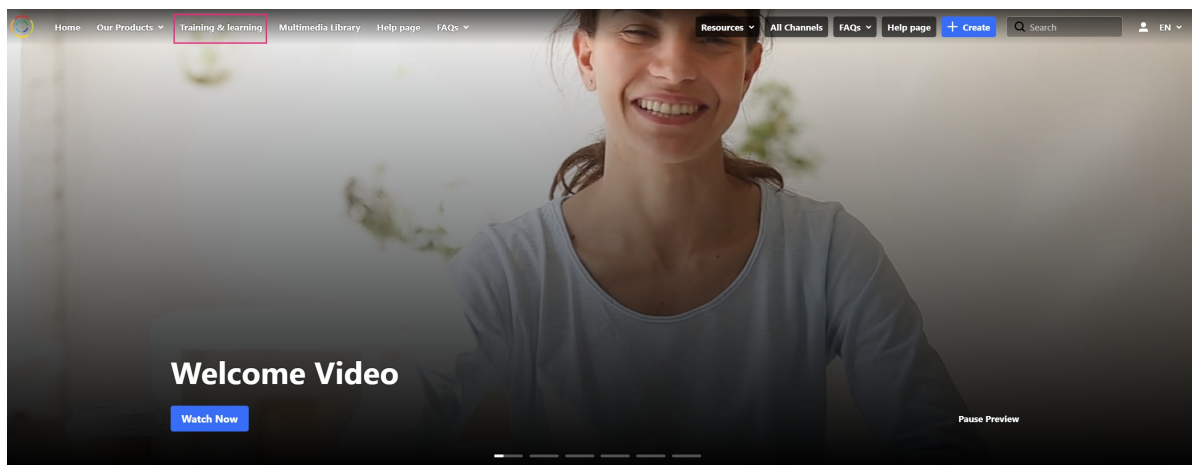

About

Kaltura provides search tools in galleries so you can quickly find media and channels. You can use keyword search, exact-match search, filters, and sorting options to narrow results.

 This feature requires the [Theming module](#) to be enabled, with the 'gallerypage' feature set to 'Yes'.

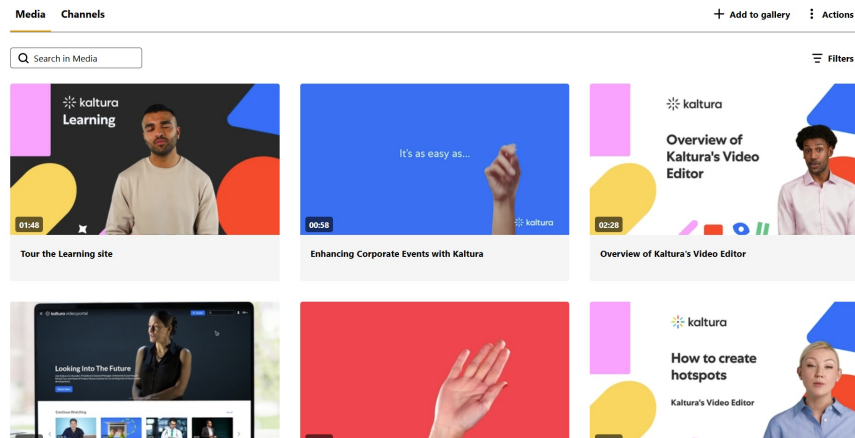

Access the gallery

1. On the top navigation bar, select the gallery you want to access.

The gallery page displays.

Training & learning

- The gallery page has tabs for **Media** and **Channels** under which all the published content appears. Choose the tab you want to search in.

Training & learning

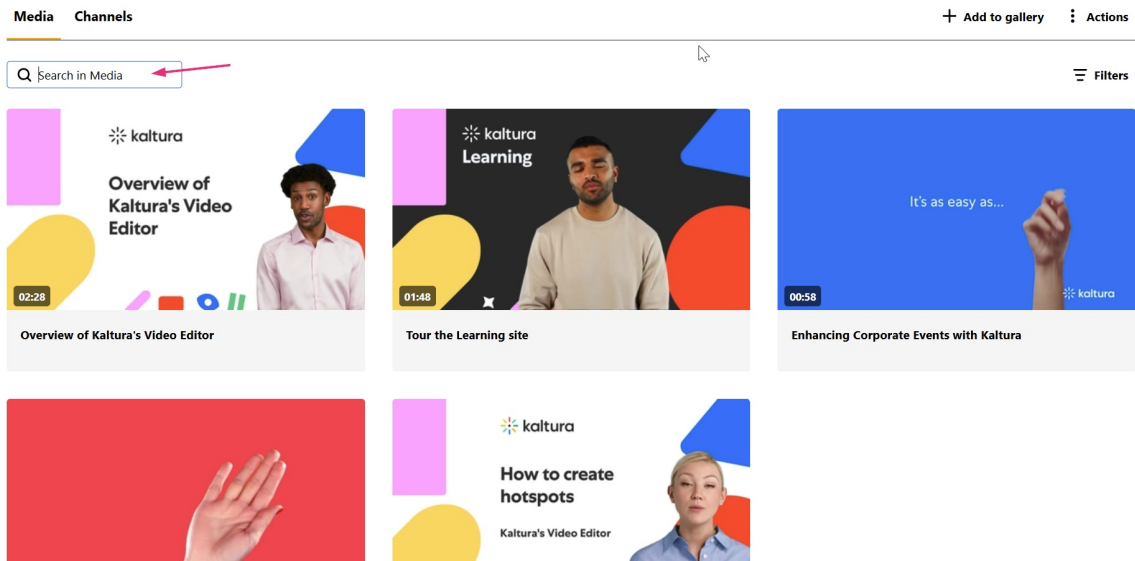

Welcome to the Training & Learning gallery - your central hub for onboarding videos, skills development, and professional growth. Browse content by topic, department, or role, and explore courses, tutorials, and recorded workshops designed to support continuous learning ... [Read More](#)

Search in media

- Click on the search bar and type in keywords related to the title, description, or tags of the media you're searching for.

Training & learning

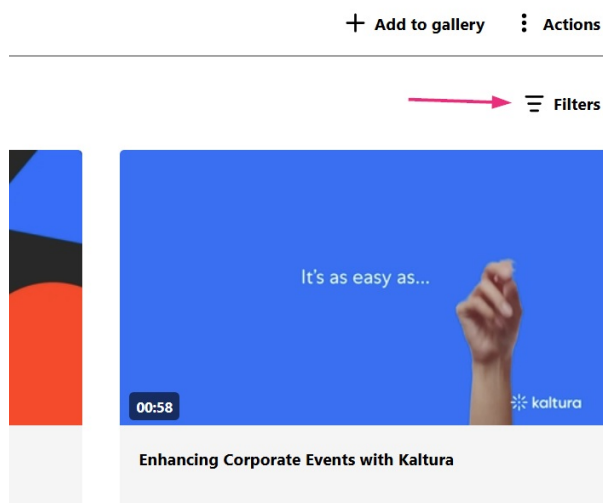

2. Press **Enter**.

To search for an exact match, use quotation marks around the word or phrase, for example, "customer".

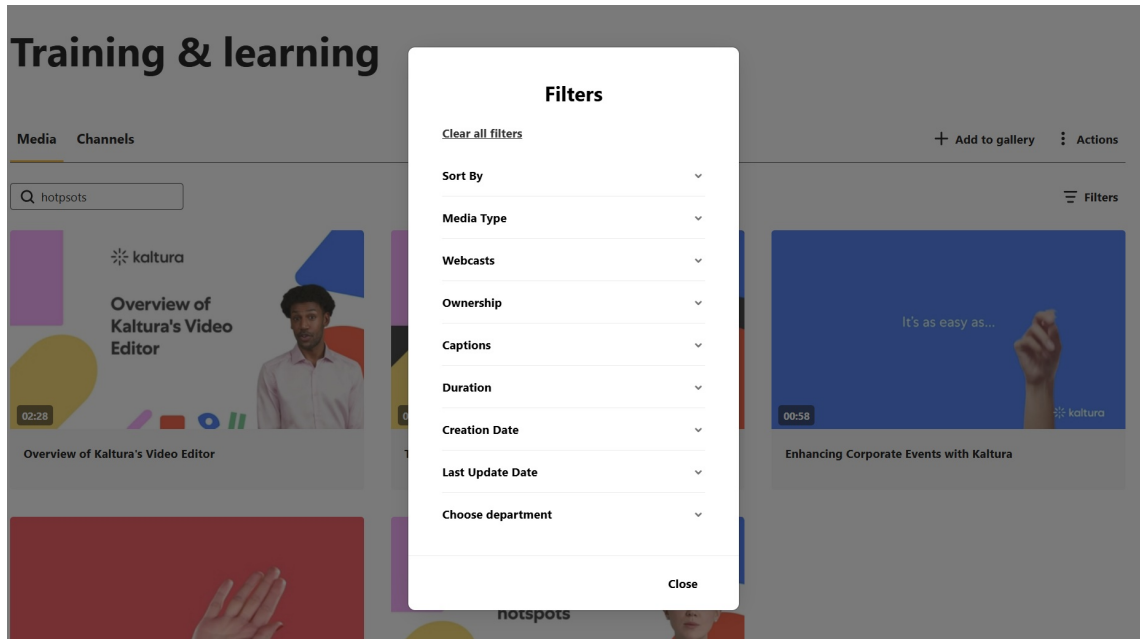

The results display.

3. You can also use the filters to refine your search. Just click the **filters button** at the far right.

The 'Filters window' opens.

4. Choose the desired filters from the menu.

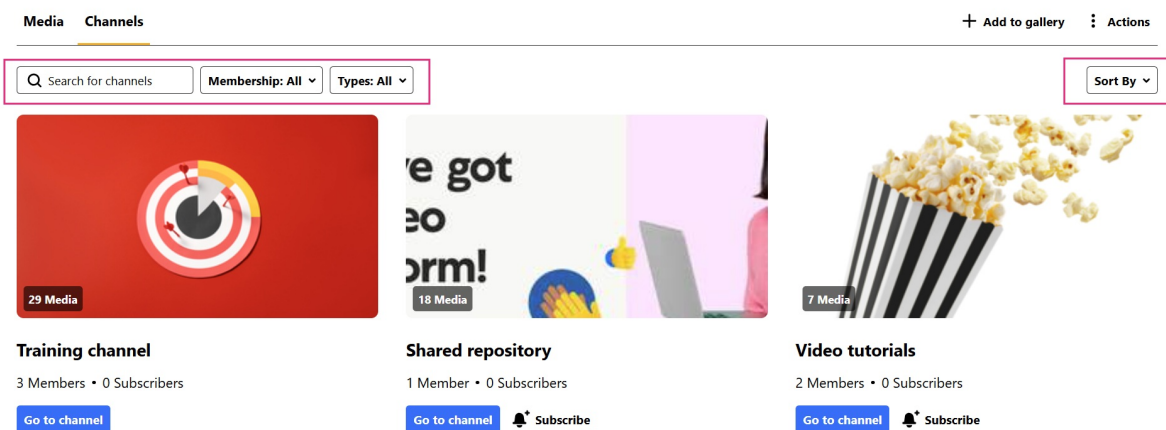

5. When you find the item you want, click its title or thumbnail to navigate to the entry.

Search in channels

The **Channels** tab offers searching, filtering, and sorting, making it easier to find and manage channels.

Training & learning

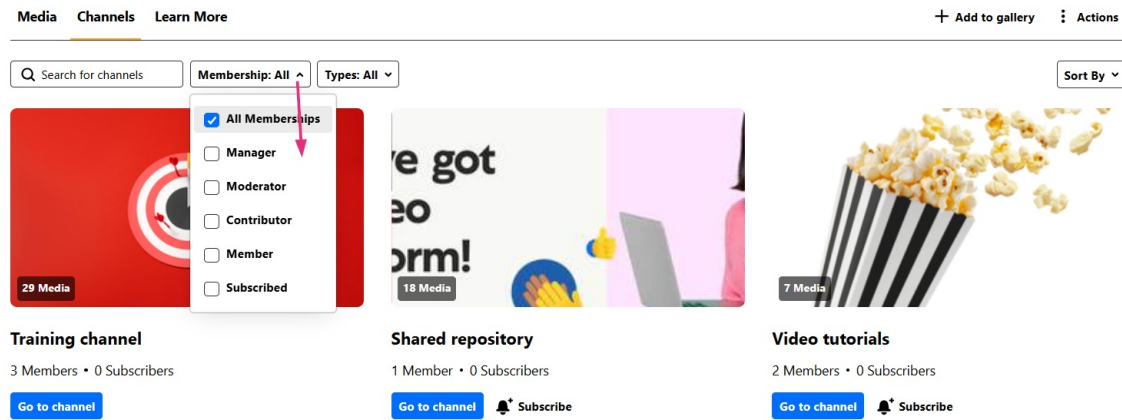

Use the membership filter

The **Membership** filter lets you display channels based on your role.

Training & learning

Welcome to the Training & Learning gallery - your central hub for onboarding videos, skills development, and professional growth. Browse content by topic, department, or role, and explore courses, tutorials, and recorded workshops designed to support continuous learning ... [Read More](#)

The available options are:

- **All Memberships:** Displays all channels regardless of the user's role.
- **Manager:** Shows channels where the user is a manager.
- **Moderator:** Lists channels where the user acts as a moderator.
- **Contributor:** Displays channels where the user contributes content.
- **Member:** Shows channels where the user is a general member.
- **Subscribed:** Displays channels the user has [subscribed](#) to for updates and new content.

You can select multiple options to display channels matching any selected role.

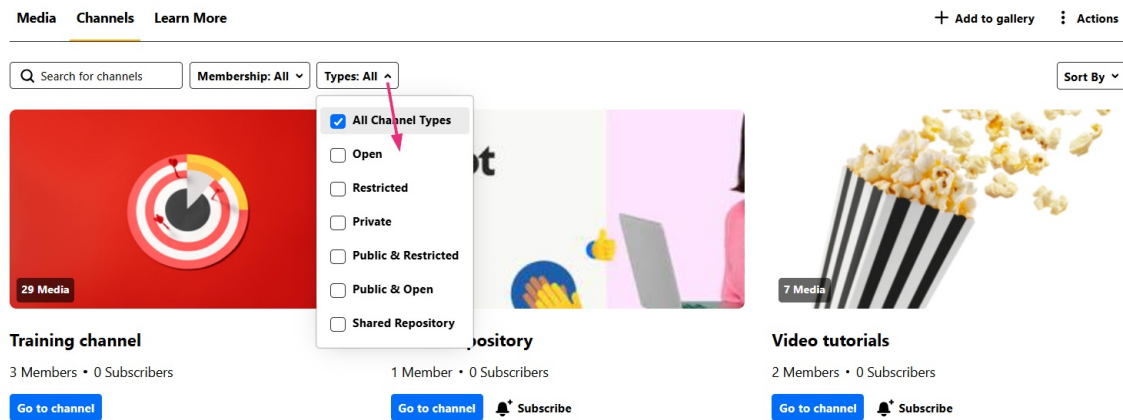

Visit our article [Understanding channel roles and permissions](#) for more information.

Use the Types filter

The Types filter lets you display channels based on access type.

Training & learning

Welcome to the Training & Learning gallery - your central hub for onboarding videos, skills development, and professional growth. Browse content by topic, department, or role, and explore courses, tutorials, and recorded workshops designed to support continuous learning ... [Read More](#)

The available options are:

- **All Channel Types:** Displays all channels, regardless of type.
- **Open:** Channels accessible to everyone without restrictions.
- **Restricted:** Channels requiring specific permissions for access.
- **Private:** Channels limited to invited members only.
- **Public & Restricted:** Combines publicly visible channels with restricted access settings.
- **Public & Open:** Channels that are both publicly visible and open to all users.
- **Shared Repository:** Channels used for sharing content within defined groups or repositories.

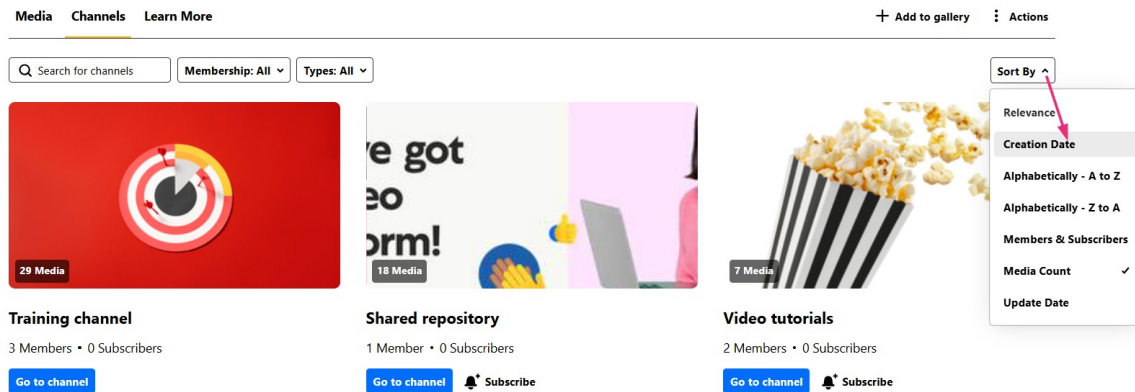

You can select multiple channel types.

Use Sort by

Use **Sort by** to organize channel results.

Training & learning

Welcome to the Training & Learning gallery - your central hub for onboarding videos, skills development, and professional growth. Browse content by topic, department, or role, and explore courses, tutorials, and recorded workshops designed to support continuous learning ... [Read More](#)

The available sorting options include:

- **Relevance:** Only available when using the text search. Otherwise, this option is grayed out.
- **Creation Date:** Displays channels from newest to oldest based on their creation date.
- **Alphabetically - A-Z:** Sorts channels alphabetically in ascending order by title.
- **Alphabetically - Z-A:** Sorts channels alphabetically in descending order by title.
- **Members & Subscribers:** Sorts channels by the total number of members or subscribers.
- **Media Count:** Organizes channels by the total number of media items, from highest to lowest.
- **Update Date:** Shows channels in order of their most recent updates.

The default sort order is configured in the [Channels module](#) settings. Users can change the sort order using the **Sort by** menu.
