Use interactions to engage your audience in Kaltura Rooms (Moodle)

Last Modified on 09/03/2025 5:42 pm IDT

This article is designated for moderators

About

This article explains how moderators can use Kaltura Room's interaction tools to engage attendees during live webcast sessions.

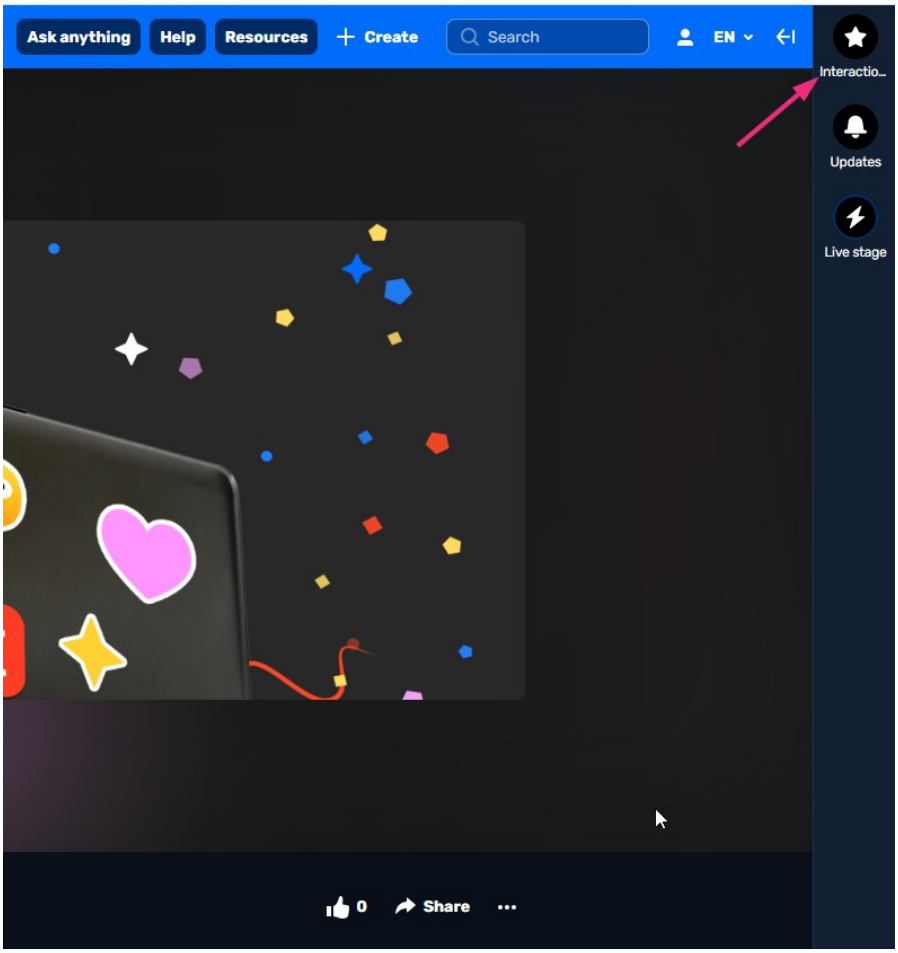

From the **Interactions tab** in the Chat and collaboration widget, moderators can create and publish polls, quizzes, rating scales, surveys, word clouds, announcements, and more - all designed to keep audiences engaged and participating in real time.

Moderators can manage the C&C widget per session via the media edit page (Chat tab), tailoring the experience to meet specific needs. Check out our article Manage chat settings for Kaltura Room for details.

Access the Interactions tab

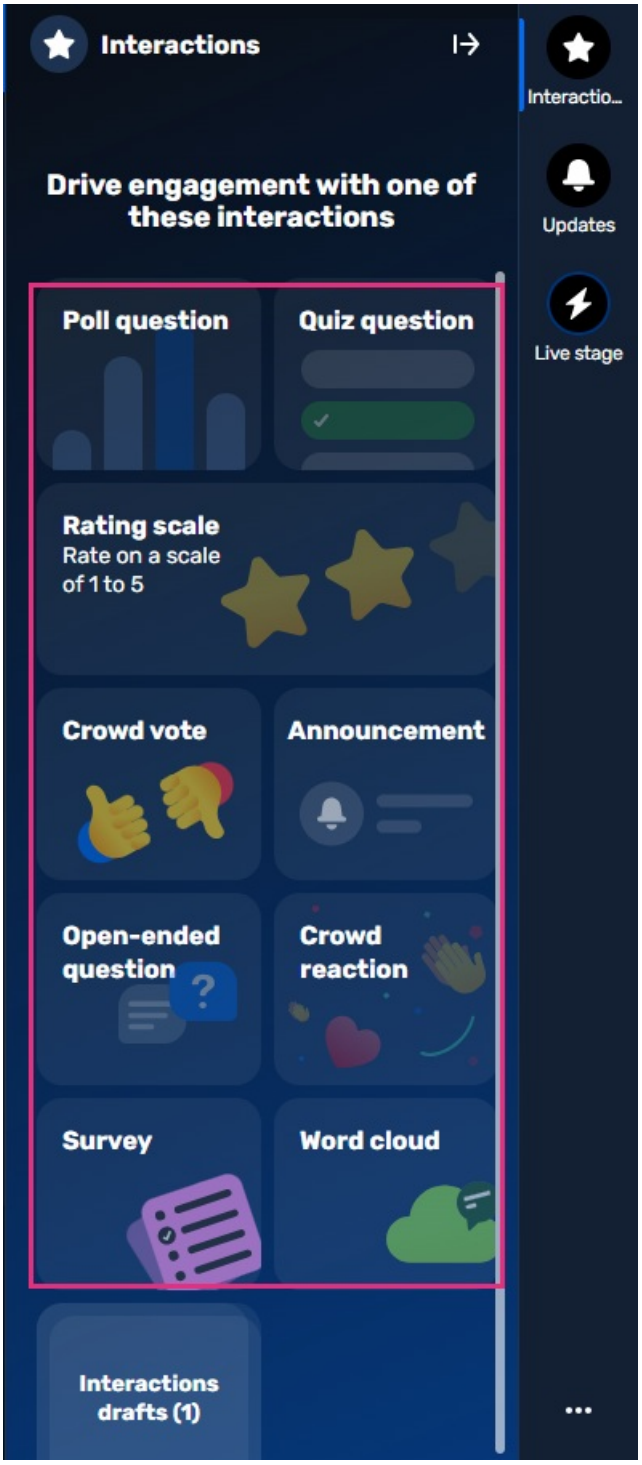

In your Kaltura Room, at the upper-right of your screen, click the **Interactions** tab.

What's in the Interactions tab?

The Interactions tab has the following sub-tabs:

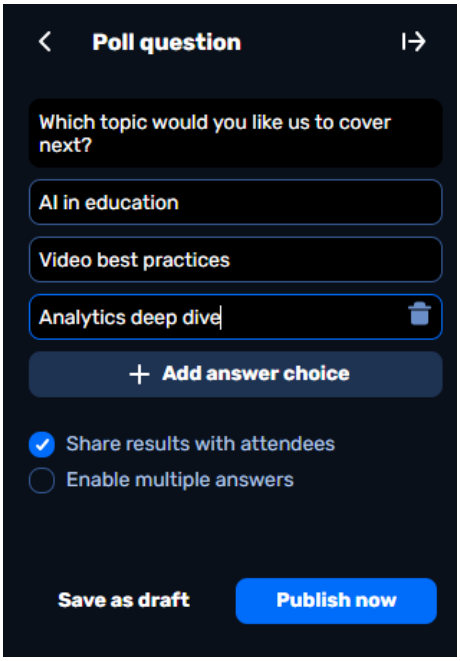

- Poll question - Ask a multiple-choice question and share the results instantly to get quick audience feedback.
- Quiz question - Test knowledge with a multiple-choice question and mark one or more correct answers.

- Rating scale - Let attendees rate a statement or idea using a customizable emoji scale.
- Crowd vote - Capture quick “yes/no” or emoji-based votes on a topic or idea.
- Announcement - Share important updates or calls-to-action with the entire audience.
- Open-ended question - Invite attendees to share written responses for more detailed input.
- Crowd reaction - Manage roles and permissions
- Survey - Gather structured feedback with multiple questions.
- Word cloud - Collect short audience responses and display them as a live, visual word cloud.

Poll question

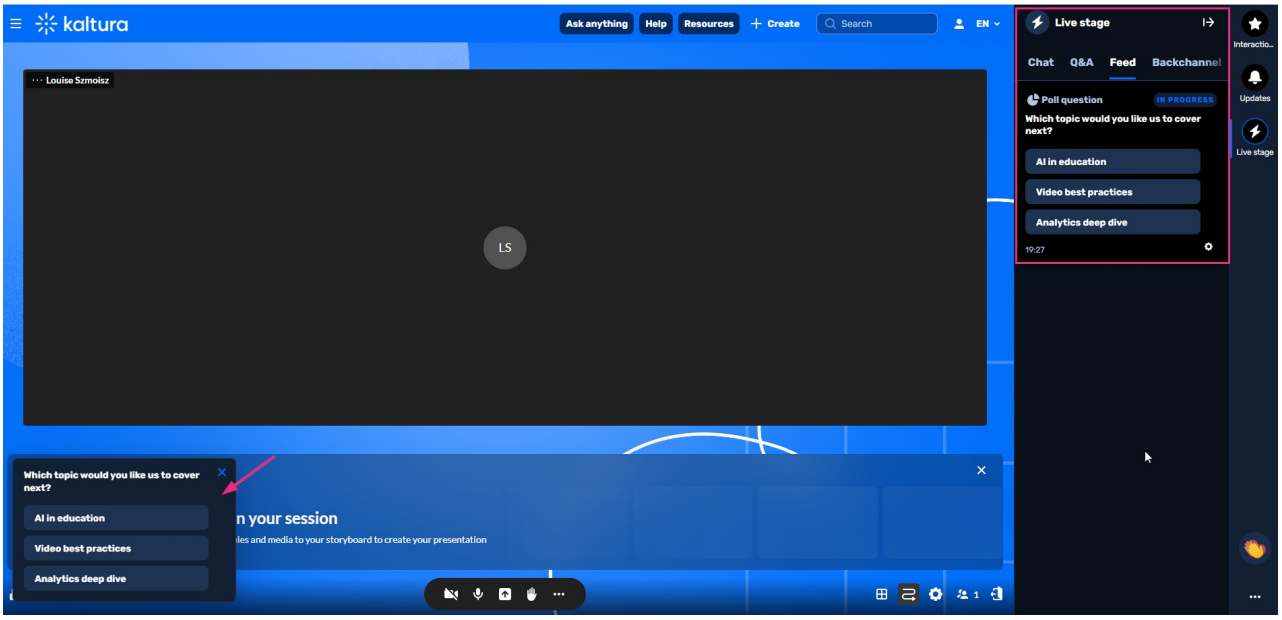

1. Click **Poll question**.
2. Type your question (up to 300 chars).
3. Enter up to five answer options. Click **+ Add answer choice** to add more options. (To remove an answer, hover over it and click the **trashcan icon**.)

4. Choose whether to **display the correct answer** or **share results with attendees.**
5. Choose **Save as draft** or **Publish Now.**

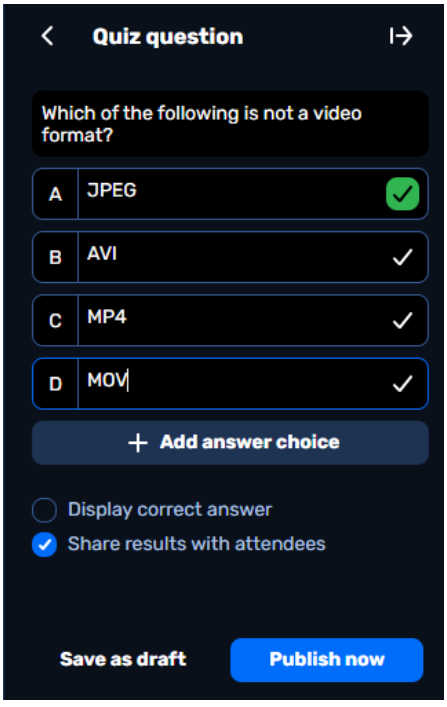

- **Publish now** immediately displays the interaction as a toast popup and adds it to the **Feed** sub-tab in the **Live Stage** tab (see image below).
