i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

This article provides insights into your live sessions such as attendance data, chat history, browser focus information, and quick links to applicable recordings.

What Are Session Stats?

Session Stats provide instructors and Virtual Classroom administrators statistics on the sessions offered within their organization. Instructors can access data related to the sessions they teach while administrators can access data from all sessions offered within their Virtual Classroom. The data points available are:

- **Session overview** - List view of live sessions that took place in the specified date range with information around: Instructor/s, number of students, duration, start time, end time, and whether a recording took place.
- **Recordings** - Preview recordings that took place in specified sessions
- **Attendance list** - See a list of participants that joined each live session: Name, role, email, time entered, time exited, and duration of attendance.
- **Attention** - See focus or attention reports corresponding to each session, non-moderator participant. Value is returned based on overall % of time participant was focused on the session while they were joined. See [Browser Focus](#) for more information.
- **Chat history** - See a record of chat history entered throughout the session.
- **Quick Polls** - See poll results and statistics for each poll taken during a session.

Access Session Stats

To access Session Stats you must be either an instructor or administrator in a paid account.

1. You must have already connected to your Kaltura Meetings live room for the first time to proceed.
2. Go to smart.newrow.com (you will be automatically logged in).
3. Sign into your Kaltura account if you are not already signed in.
4. Select **Session Stats** in the upper bar.

□ System admins or instructors will be logged in automatically if they already signed in and connected to the live rooms via Mediaspace or LMS.

Change the Date Range

Session Stats shows the data from your sessions in the last 7 days. You can set a custom date range.

1. Click the **start date** or **end date** to display the calendar menu.
2. Click the left navigation arrow to show previous months.
3. Select start date (earlier than end date). If you'd like to change the end date, then select that next.

□The date range of data is automatically updated. Just scroll through the table to find the session stats you're looking for.

The screenshot shows the Kaltura Session Stats page. At the top, there's a navigation bar with 'KALTURA Kaltura Campus', 'Courses', 'Users', 'Files', and 'Session Stats'. Below this, the 'Session Stats' section has a dropdown for 'All Courses' and a date range selector set to '06 Jul 2020 → 13 Jul 2020'. To the right of the date range is an 'Export' button. Below the date range, there are two calendar views for July 2020 and August 2020. The July 2020 calendar shows dates from 5 to 31, with the 6th and 13th highlighted. The August 2020 calendar shows dates from 2 to 31, with the 13th highlighted. Below the calendars, there's a table with columns for Session, Instructor, Duration, Start, End, and Rec. The first row shows 'Sync Call - Jul 13' by Sam Thompson, lasting 06 min, starting on Jul 13, 2020 at 13:22, and ending on Jul 13, 2020 at 13:28.

See Who Joined Your Sessions
