

Kaltura Meetings - Play or Share Your Uploaded Files

Last Modified on 08/25/2025 7:29 pm IDT

i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

Share your uploaded files for synchronous viewing in your live session by playing files from Files or your Playlist.

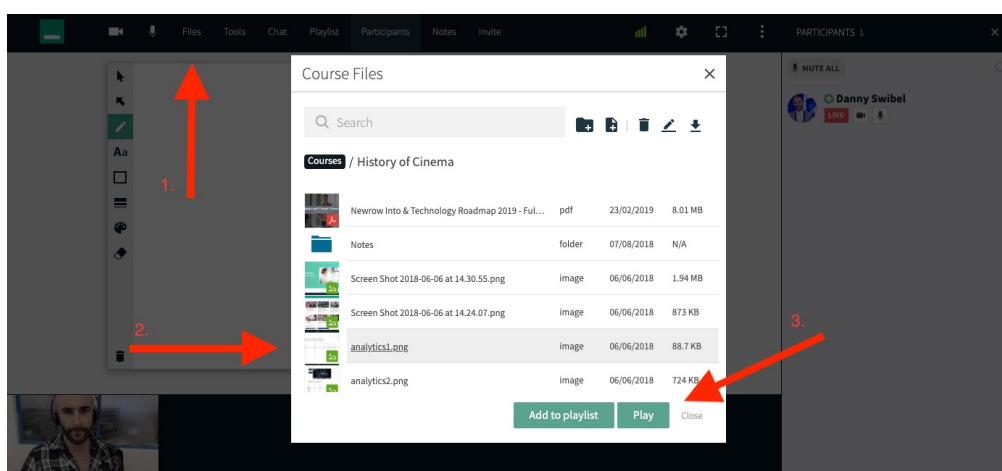

Play A File From Files

1. Click **Files**.
2. Navigate your cloud storage and select a file you want to share.
3. Click **Play**.

□By default, all microphones are disabled while a video is being played in the room. This is to prevent echoes caused by participants' speakers being streamed back into the room. Microphones are re-enabled automatically when the video is paused or stopped.

The microphone settings may be configured both through the room settings menu or at the company level by Kaltura's backend.

□The file you launch, whether a video, PowerPoint presentation or any other file, will be viewed by everyone simultaneously in the live session.

Play A File From Your Playlist

1. Navigate to the playlist.
 2. Select the file you want to play to display it on stage.
