i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

Companies that create and reuse quizzes may want to import quizzes and share them across the company.

How to Import Quizzes?

To import quizzes, contact your [Kaltura Customer Care](#) to enable the [Quiz module](#) and provide advanced instructions. After the [Quiz module](#) is enabled, if your role is enabled to create quizzes, you may create a quizzed as follows:

1. Build your quizzes in advance in a CSV file based on the following format:

You must add the words **Not a quiz** to the last line. The first row, Row 1, should include the headers for the file's columns:

- Quiz Name - This is the name of the quiz that displays like the file name.
- Question Type (Multiple Choice, Multiple Answers, Open Answer) - The Question Type column shows the only options that can be used as values in the cells. Any departure from those exact values will return an error.
- Questions - This is the question for the quiz.
- Answers - These are the answer values.
 - The order of the values is maintained in the quiz import. Be certain that the order of the quiz values is set here.
 - Multiple Choice and Multiple Answers question types can have up to 6 answer options. Answer options may not be blank or spaces.
 - Only questions that are Open Answer do not include a value.
- Correct Answer
 - Correct and incorrect answer values must be added for all answer options related to the Multiple Choice and Multiple Answers.
 - The possible values are either Y for the correct answer or N for the incorrect answer.

- Multiple Choice questions must only have one Y while Multiple Answers may have multiple Y answer values.
- Open Answer questions do not have an answer value.

2. Log in the Kaltura Meetings backend at smart.newrow.com.
3. Click **Files**.
4. Click **Import Quizzes** and then click the **Import Quizzes** button.

The screenshot shows the Kaltura Campus navigation bar with tabs for Courses, Users, Files, and Session Stats. The 'Files' tab is selected, and a red arrow points to it. Below the navigation bar, the 'Files' section is visible, including a search bar and a list of imported quizzes. The 'Import Quizzes' button is circled in red in the top right corner of the 'Files' section.
