Yes. A participant that joins as a guest may enter whatever name they want. Room moderators can also disable the participant list from view.

The screenshot shows a web interface for joining a session titled "TRAINING FOR ENT". The interface has a light blue header with the title and a "Join as guest" button. Below the header, there is a white box containing the text "Enter your name and email to join the session." followed by two input fields labeled "Name" and "Email". Below these fields is a blue button labeled "JOIN THE SESSION". At the bottom of the white box, there is a small line of text: "By clicking Join the Session you agree to our [Terms of Use](#) and [Privacy Policy](#)."
