

Embed Kaltura Rooms in Brightspace

Last Modified on 03/10/2026 5:49 pm IST

 This article is designated for faculty members.

About

You can embed Kaltura Rooms directly into LMS content using the BSE (Browse, Search, and Embed) tool in Kaltura's LMS Video integrations. This lets instructors easily add live sessions to course content and gives students a seamless way to join.

The same room can be reused across multiple courses or entry points, like **Media Gallery, My Media**, or when added directly to a course page, so students can all join the same session, no matter where they access it.

This feature is available only for LMS Video integrations using [Theming](#) (BSE V3).

Before you start

To support Kaltura Rooms in BSE, the following must be enabled by your administrator:

- [Kaltura Rooms](#) available on the LMS Video instance
- [Theming module](#) with the 'browseandembed' feature set to 'Yes'
- [MeetingEntry module](#) with the 'EmbedInBSE' toggle turned on

If any of these are disabled, the configuration can't be saved and the feature won't be available.

For more information, see [Enable Kaltura Room Embed in BSE - Admin guide](#).

Access the embed tool

1. Go to any content area where a rich-text editor is available (for example, **Announcements**).

The page associated with that menu item displays.

2. Click the button to add new content.
The rich-text editor displays.

New Announcement

Availability

Show Start Date

- Click the **Insert Stuff** button (**arrow icon**).

The 'Insert Stuff' window opens.

Insert Stuff

-  My Computer >
-  Course Offering Files >
-  ePortfolio >
-  Video Note >
-  Video Note Search >
-  Capture >
-  My Media >
-  YouTube >
-  Flickr >

4. Scroll down and click on **Kaltura Browse Search & Embed**.

The Embed Kaltura Media window opens.

Embed a room

In the embed window, use the search and filters to locate Kaltura Rooms.

Click **Embed** on a room entry to insert the room 'card' into your content. (Read more about [room cards below](#).)

i If a room appears greyed out in the embed window, it usually means it's a legacy room. Only the [Kaltura Room](#) can be embedded through BSE. Contact your administrator if you're unsure which rooms are enabled for embedding.

Once you have embedded the room, the card shows the session title, description, thumbnail, and a 'Join now' button.

Front Page

Welcome students!

I am so very excited to be teaching this course, it is one of my favorite topics and I often see a tremendous amount of growth in my students during even one term!

To get us started, I recorded this brief welcome message, I am looking forward to meeting all of you!

Enjoy!

[▶ Join now](#)

The embedded card displays key session information in a compact, visual layout. It includes:

- Date and time of the session (if scheduled)
- Session title
- Short session description, with a 'Read more' link that opens the entire text
- 'Join now' button - always visible for teachers and co-editors; for students, it's shown based on session timing
- Speaker information (if enabled) - up to three speakers shown with a plus (+) indicator if there are more
- Thumbnail image on the right (if enabled)

The card adjusts its appearance depending on the session status ('Live' or 'Out of Schedule').

What students see

When a student clicks **Join now**, the session opens in a new tab. They're authenticated through the LMS and depending on how your Room is configured, they might:

- Land in the waiting room first

- Be taken straight into the live session in the Kaltura Room in a focused view that includes the Chat and Collaboration panel on the right.

- Be prompted with “Access denied” if they're not entering through the LMS.

Access denied to session

To enter the session, enter the course in the LMS and click the "Join now" button to launch the session.

Access is role-based, using existing Kaltura permissions. Unauthorized users will also see an error message.
