Embed Kaltura Rooms in Moodle

Content updated: 09/02/2025

This article is designated for faculty members.

About

You can embed Kaltura Rooms directly in Moodle course content. This gives students a convenient way to join a room from within their course.

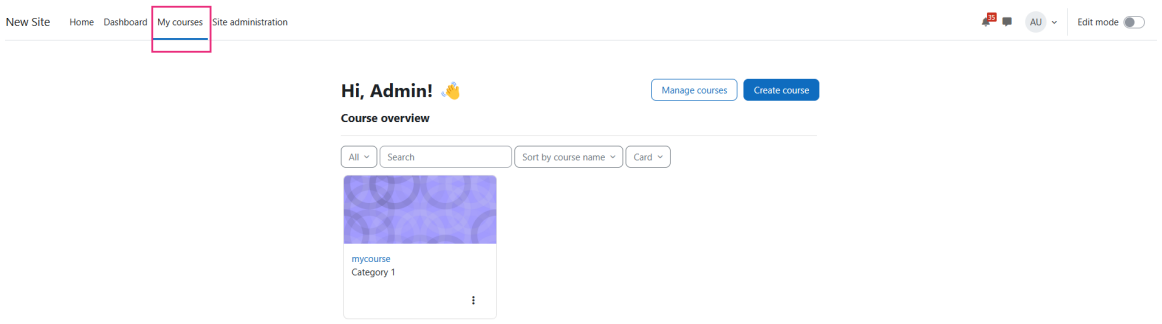

You can embed the same room in multiple courses and locations. Regardless of where students access it, they all join the same room.

- This feature is available only for LMS Video integrations that use Theming.
- Your administrator must enable this feature before you can use it. For setup instructions, see Enable Kaltura Room embedding in Moodle.

Access the embed tool

You can embed a Kaltura Room in any Moodle activity or resource that includes the rich-text editor. In this example, we embed a room in an assignment.

1. Open the **My courses** page.

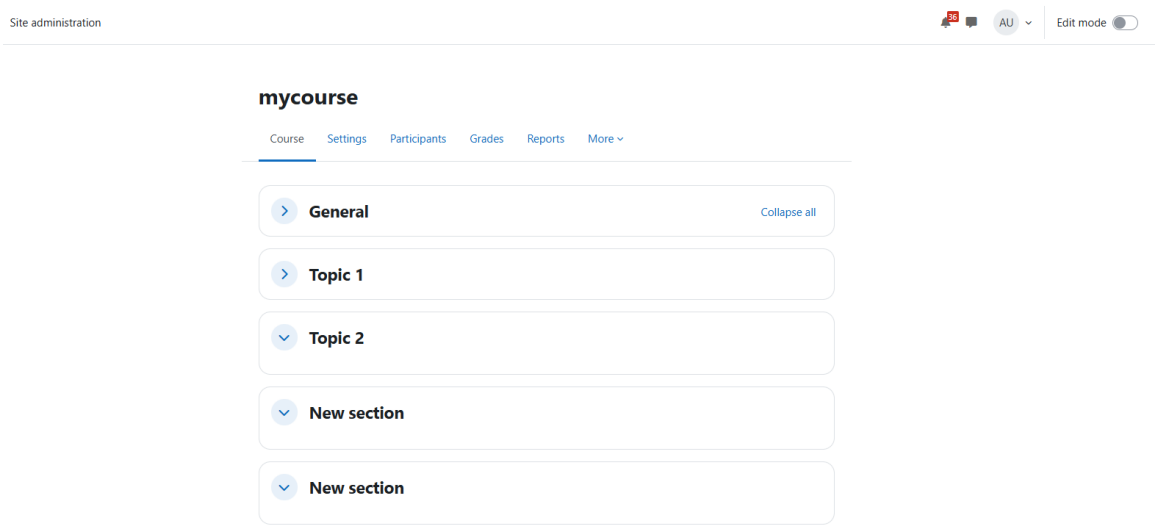

2. Select the course where you want to embed the room.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

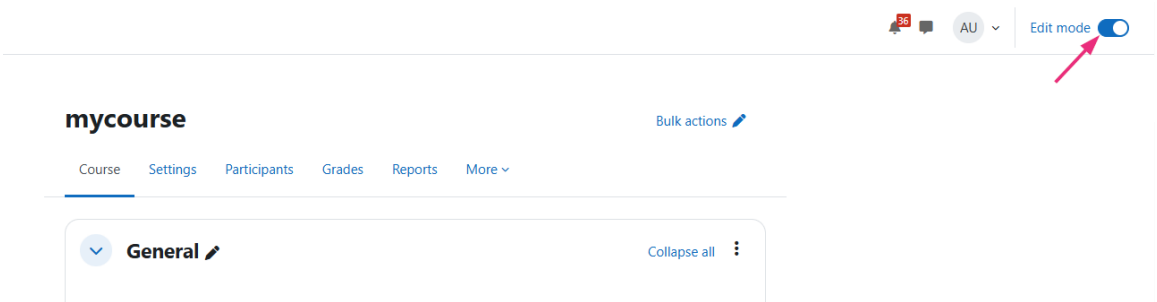

The course page displays.

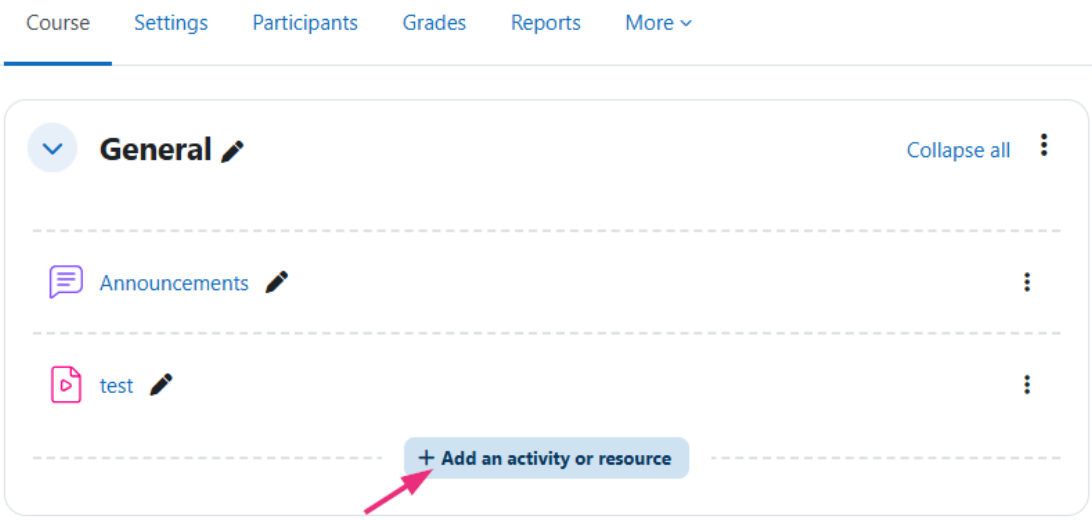

Your course page may look different from this example depending on how the course is organized, such as by topic or date.

3. At the top right of the page, enable **Edit mode**.

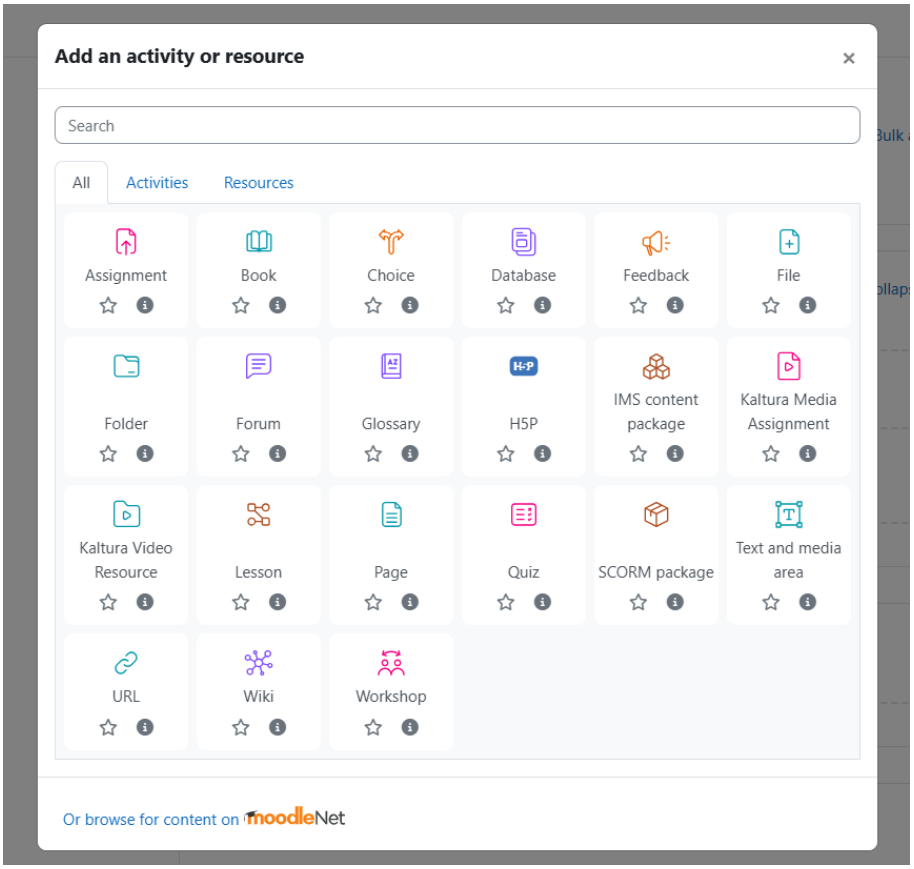

4. Locate the section where you want to add the content, and then click **+ Add an activity or resource**.

A window displays the available activities and resources.

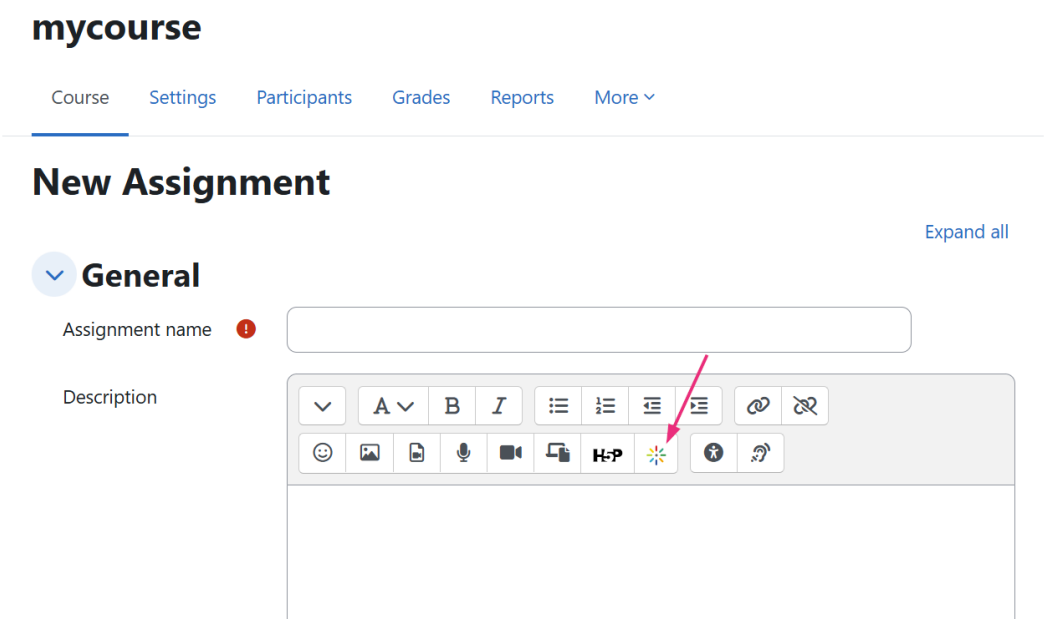

5. Select the activity or resource in which you want to embed the room. In this example, we select **Assignment**.

The activity settings page opens.

6. Click the **Kaltura Media** icon in the rich-text editor.

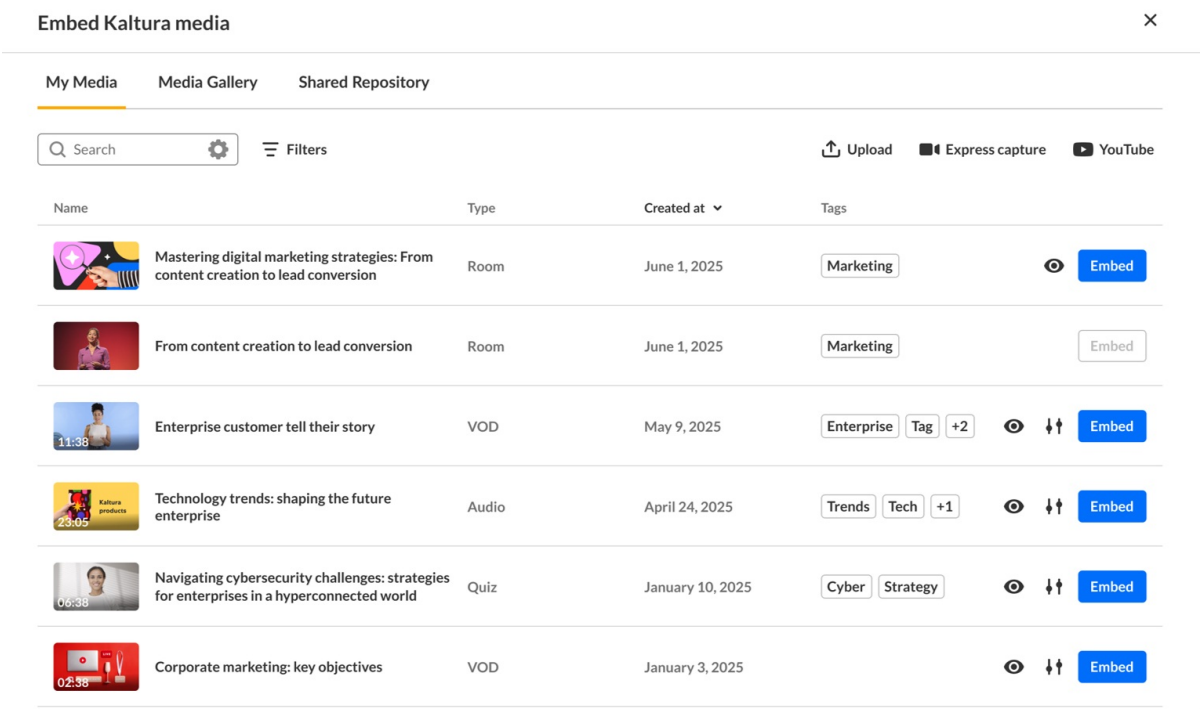

The **Embed Kaltura Media** window opens.

Embed a room

In the embed window, use the search and filters to locate Kaltura Rooms.

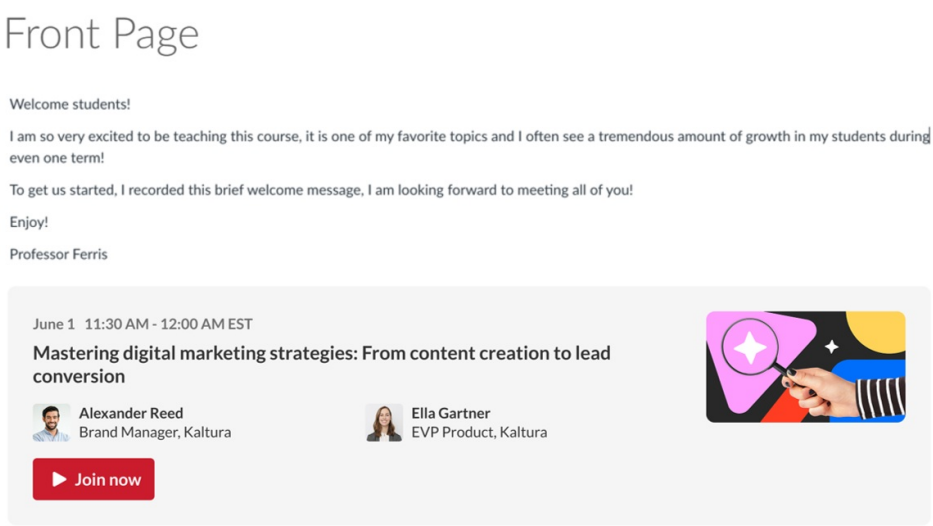

Click **Embed** on a room entry to insert the room 'card' into your content. (Read more about room cards below.)

If a room appears greyed out in the embed window, it usually means it’s a legacy room. Only the Kaltura Room can be embedded through BSE. Contact your administrator if you’re unsure which rooms are enabled for embedding.

Once you have embedded the room, the card shows the session title, description, thumbnail, and a 'Join now' button.

Room card details

The embedded card displays key session information in a compact, visual layout. It includes:

- Date and time of the session (if scheduled)
- Session title
- Short session description, with a 'Read more' link that opens the entire text
- 'Join now' button - always visible for teachers and co-editors; for students, it's shown based on session timing
- Speaker information (if enabled) - up to three speakers shown with a plus (+) indicator if there are more
- Thumbnail image on the right (if enabled)

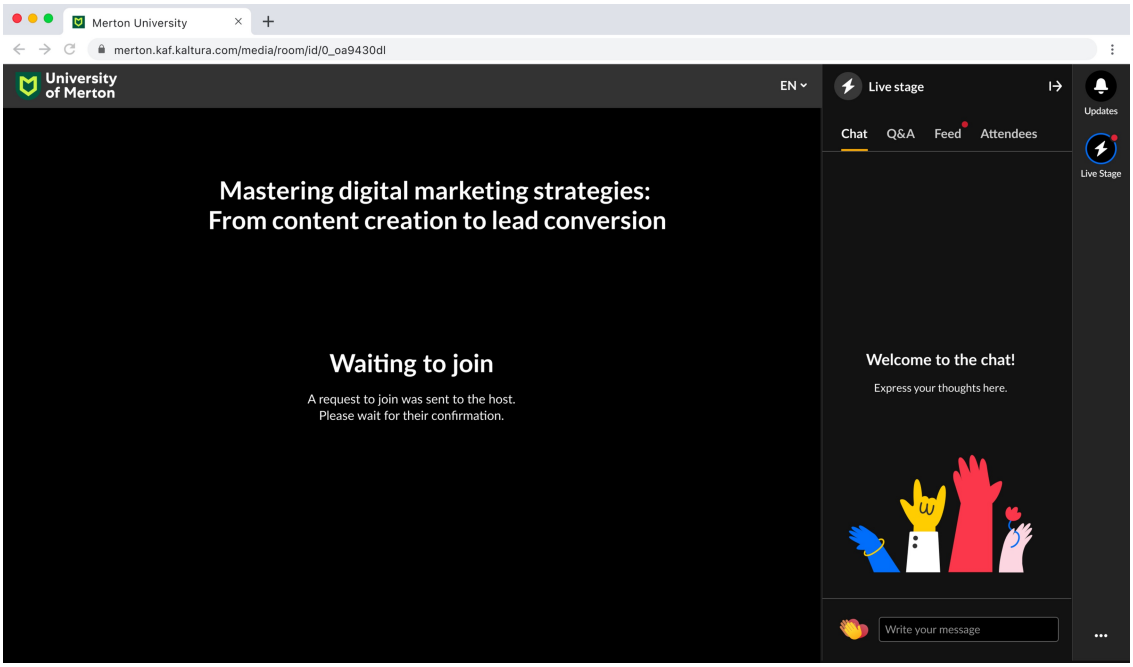

The card adjusts its appearance depending on the session status ('Live' or 'Out of Schedule').

What students see

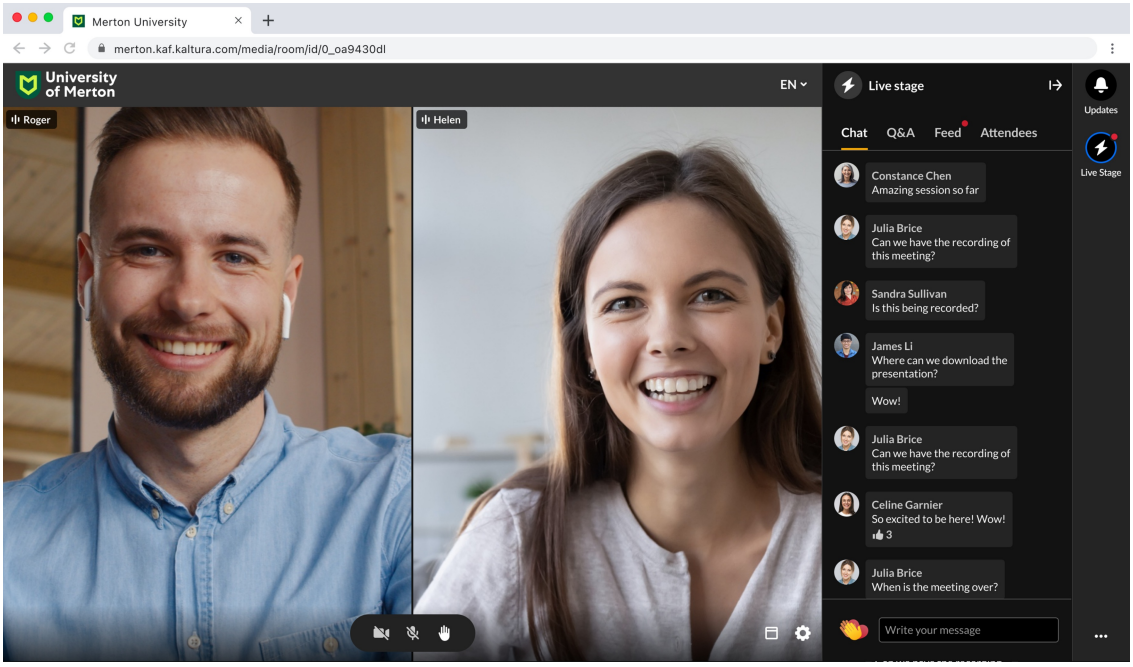

When a student clicks **Join now**, the session opens in a new tab. They're authenticated through the LMS and depending on how your Room is configured, they might:

- Land in the waiting room first

- Be taken straight into the live session in the Kaltura Room in a focused view that includes the Chat and Collaboration panel on the right.

- Be prompted with “Access denied” if they're not entering through the LMS.
