Enable Kaltura Room embedding in Brightspace

Content updated: 09/02/2025

This article is designated for administrators.

About

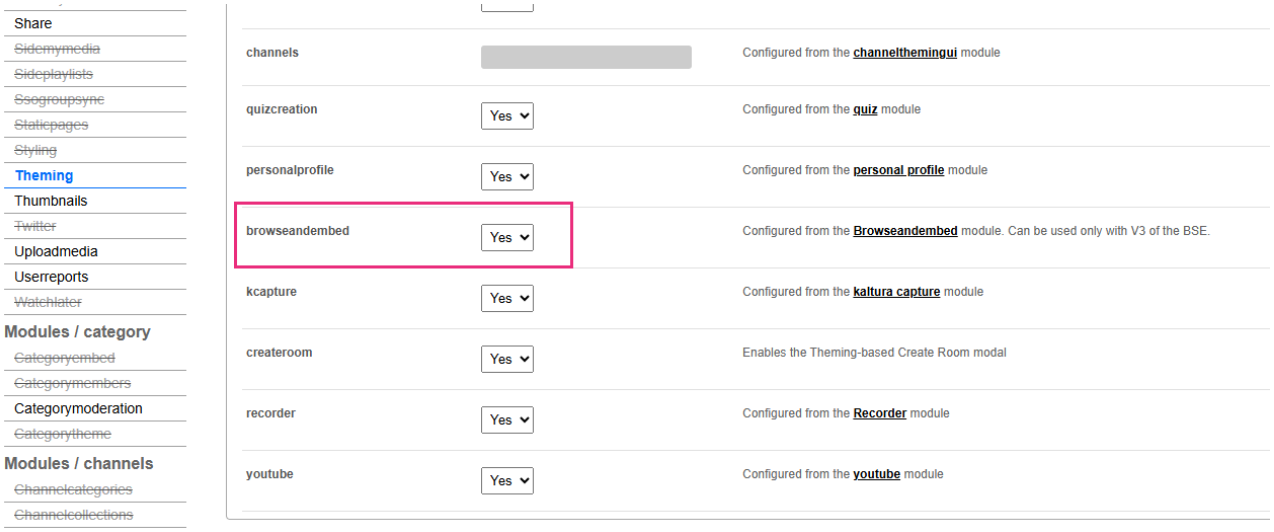

Admins can enable faculty to embed Kaltura Rooms directly in their LMS course content.

This feature is supported only with the Kaltura Room. It does not work for legacy meeting rooms.

Enable the feature

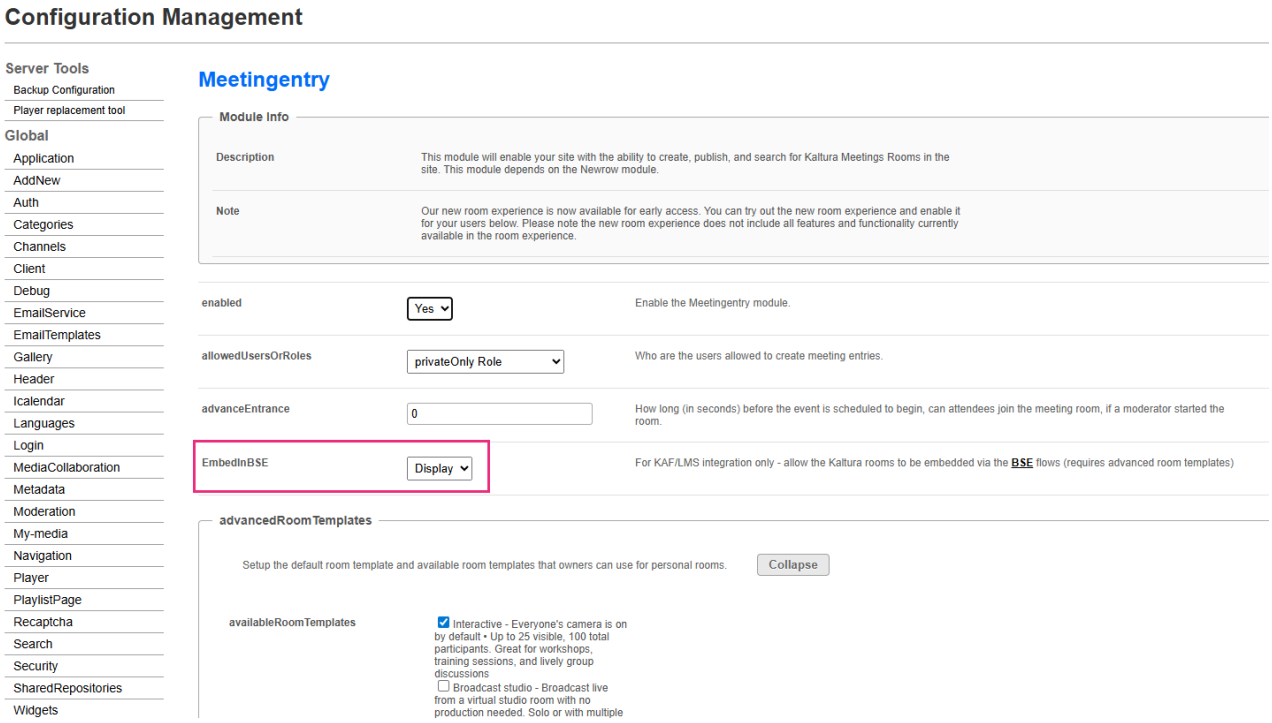

In the **Configuration Management console**, make sure the following modules are enabled:

- Theming with the `browseandembed` feature to 'Yes':

- MeetingEntry with the `EmbedInBSE` setting turned on:

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Both old rooms and new rooms may appear in your instance. The **EmbedInBSE** toggle only controls whether the **new room** can be embedded.

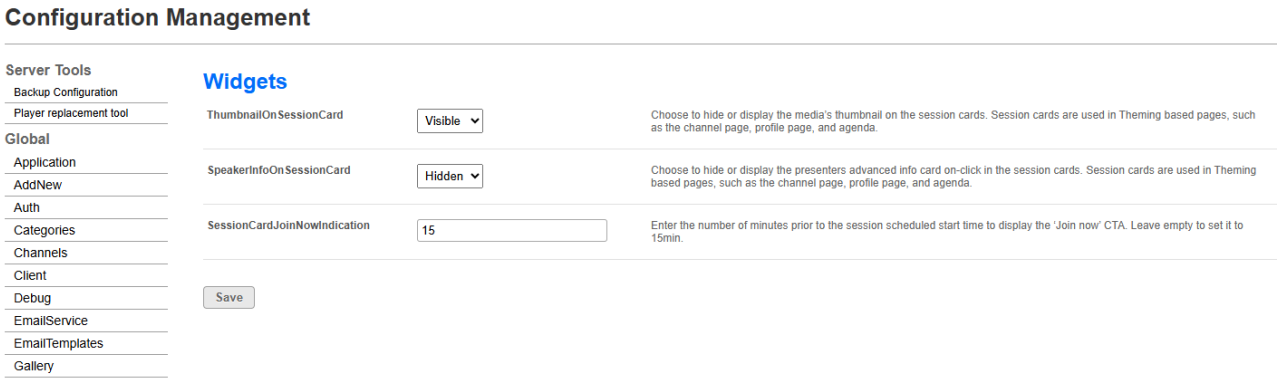

All of the modules listed above must be enabled. If any are disabled, the configuration cannot be saved and an error will appear.

Configure room cards

1. In the **Configuration Management console**, open the Widgets module.
2. Set the default display for embedded room cards in the LMS:

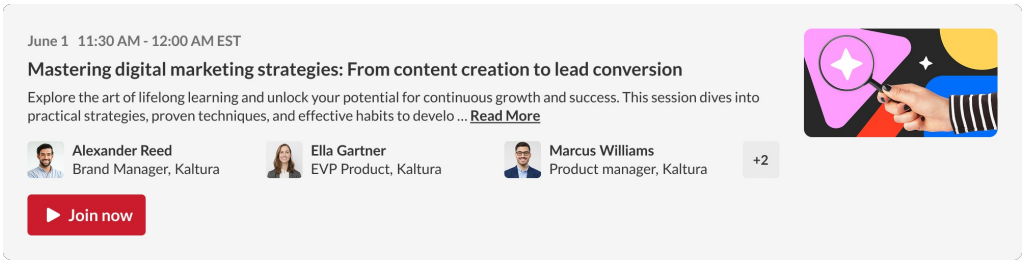

- `ThumbnailOnSessionCard` – Show or hide the room thumbnail image.
- `SpeakerInfoOnSessionCard` – Show or hide advanced speaker information (displayed on click).

3. Save your changes.

Example of a room card

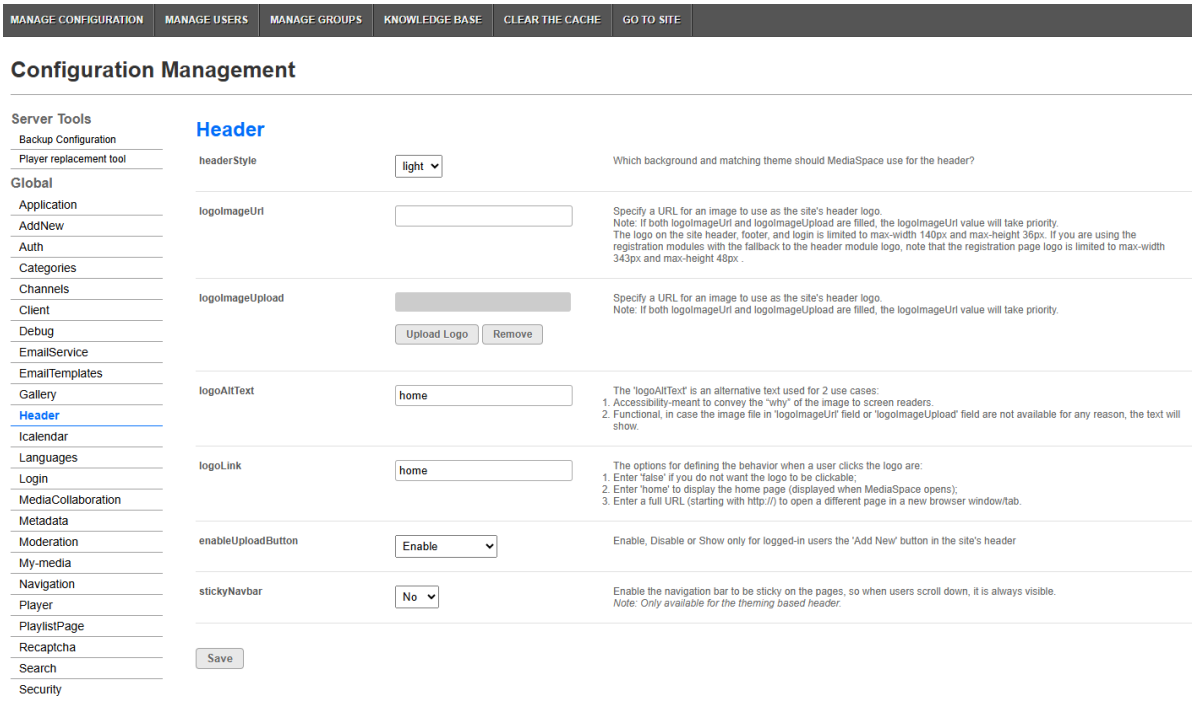

Add your logo to the room

When users click **Join now**, the room opens in a dedicated page with a simple header. The header can display your organization's logo, which is configured through the Header module.

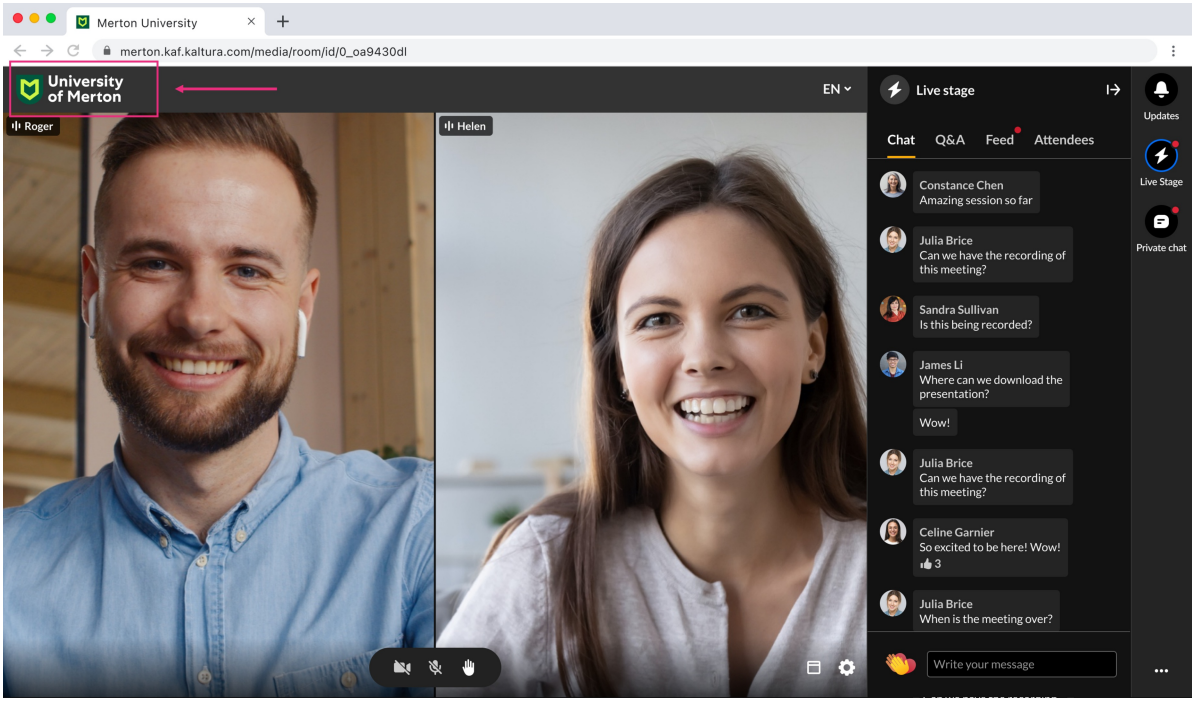

1. In the **Configuration Management console**, open the **Header** module.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

2. Upload your logo image.
3. Add alt text (for accessibility and fallback).
4. Save your changes.

The logo displays in the header above the room. The logo is not clickable.
