About

Enable this option to allow playback to start automatically.

VOD AUDIO REELS

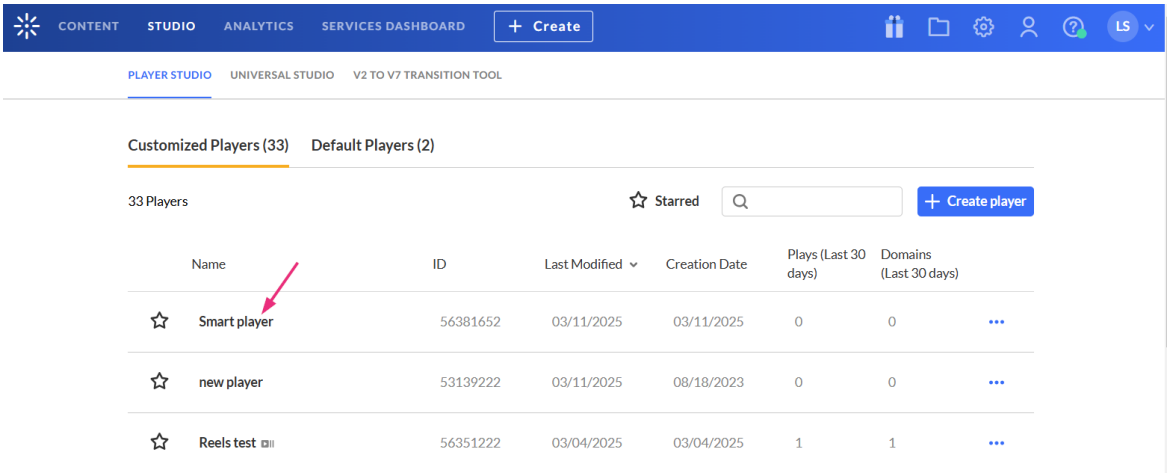

Access the player settings

1. Log in to your Rich Media CMS and click the **Studio** tab.

The Player Studio page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article Create a player for guidance.

The player settings display.

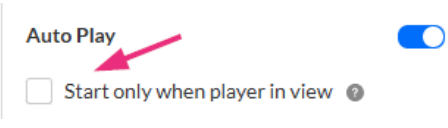

Set autoplay

1. In the **Playback options** section find **Auto play** and click the toggle to enable the setting.

2. Check the box to start playback automatically only when the player is in view. If a player is not in view, playback will start only when the viewer scrolls to it.

3. Click **Save** at the top right of the settings page.

When using this player in Content Hubs, also check the `autoPlayOnLoad` field in the Player module. Set it to **Use Player Settings** to use the autoplay setting configured in the player. If set to 'Yes' or 'No', that setting overrides the player's
