

# Enable fallback to muted autoplay in the player

Last Modified on 11/07/2025 11:39 am IST

 This article is designated for administrators.

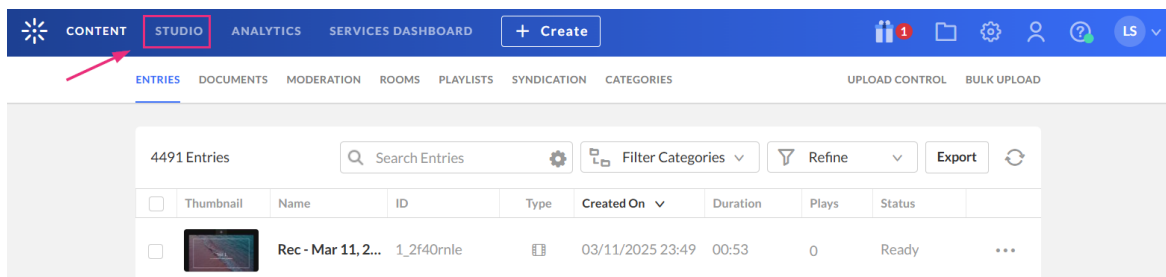

## About

Enable this option to let the video autoplay silently if the browser blocks autoplay with sound.

**VOD** **AUDIO** **REELS**

## Access the player settings

1. Log in to your KMC and click the **Studio** tab.

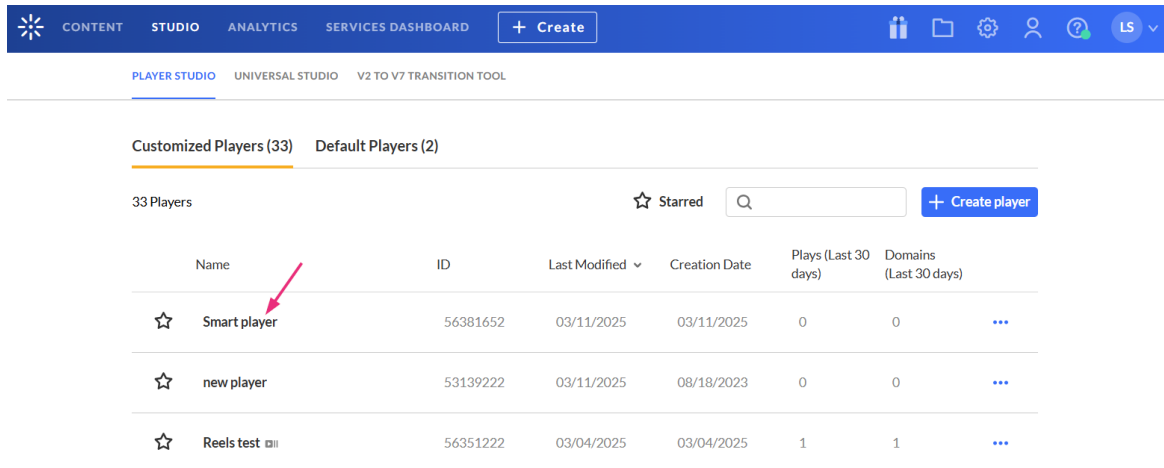

The [Player Studio](#) page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article [Create a player](#) for guidance.

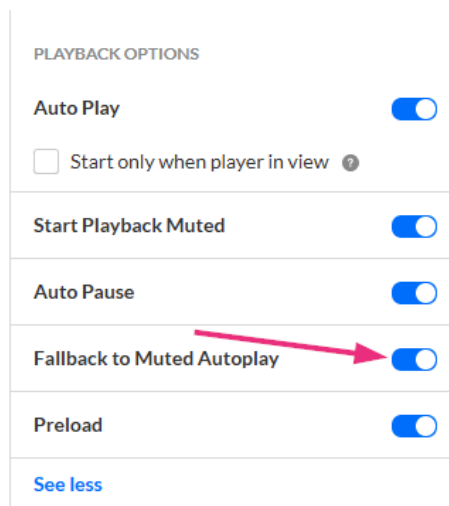

The player settings display.

## Set fallback to muted autoplay

1. In the **Playback options** section scroll down to **Fallback to muted autoplay** and click the toggle to enable the setting.

2. Click **Save** at the top right of the settings page.
