

Prioritize audio description

Last Modified on 11/07/2025 3:01 pm IST

 This article is designated for administrators.

About

When multiple audio tracks in the same language are uploaded (like regular audio and audio description), the player will default to the regular audio track.

Enable the **Prioritize audio description** option to prioritize the audio description (i.e., if an audio description is available, it becomes the default track and appears at the top of the audio tracks list).

This setting relates to *playback* of audio tracks, i.e., which audio track is being played back.

VOD

REELS

Access the player settings

1. Log in to your KMC and click the **Studio** tab.

The **Player Studio** page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article [Create a player](#) for guidance.
