

# Enable localization in the player

Last Modified on 01/18/2026 1:52 pm IST

 This article is designated for administrators.

## About

You can set which languages are available in the player and choose a default display language.

## Access the player settings

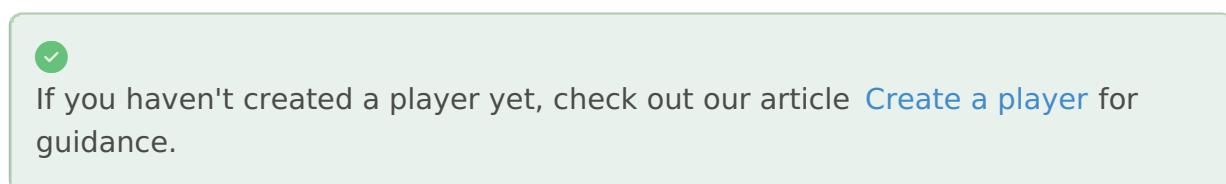

1. Log in to your KMC and click the **Studio** tab.

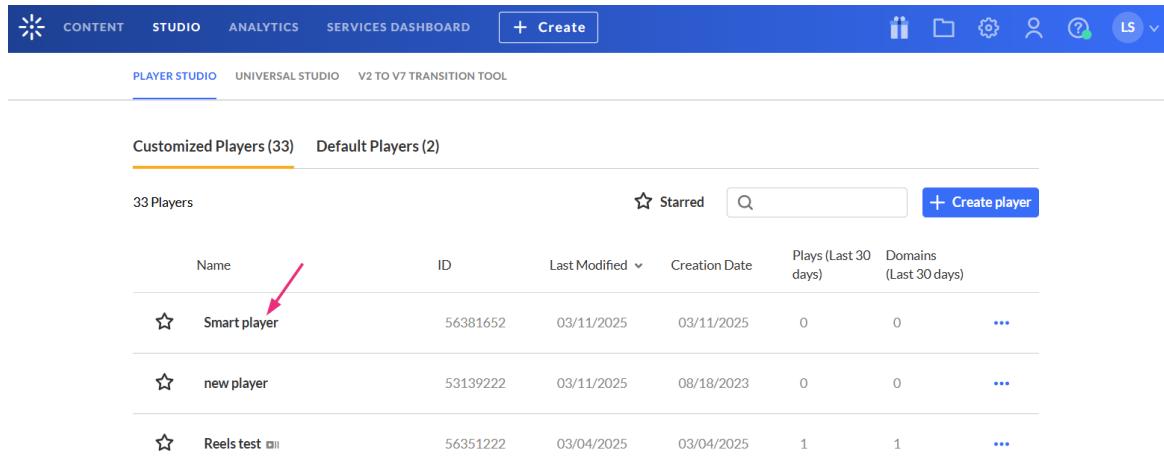

The screenshot shows the KMC interface with the Studio tab highlighted. The top navigation bar includes CONTENT, STUDIO (highlighted with a red box), ANALYTICS, and SERVICES DASHBOARD. Below the navigation is a search bar and various filter options. The main content area shows a list of 4491 entries, with one entry visible in the preview: "Rec - Mar 11, 2025" (ID: 1\_2f40rnle), created on 03/11/2025 at 23:49, duration 00:53, 0 plays, and status Ready. A red arrow points to the STUDIO tab in the top bar.

The [Player Studio](#) page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article [Create a player](#) for guidance.

The screenshot shows the Player Studio interface with the "Customized Players (33)" tab selected. The top navigation bar includes CONTENT, STUDIO (highlighted with a red box), ANALYTICS, and SERVICES DASHBOARD. Below the navigation is a search bar and a "Create player" button. The main content area shows a list of 33 players, with one entry visible in the preview: "Smart player" (ID: 56381652), created on 03/11/2025 at 03:11:25, duration 00:53, 0 plays, and 0 domains. A red arrow points to the "Smart player" entry in the list.

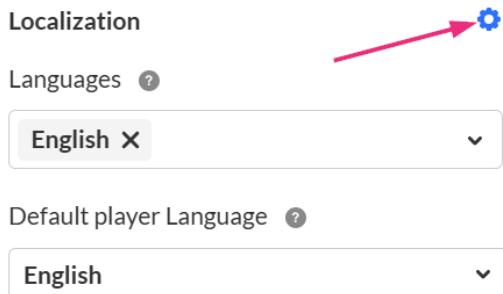

The [player settings](#) display.

## Set localization

1. Scroll down to the **Accessibility & language** section, find **Localization** and click the gear icon to open the settings.

2. Configure the following:

- In **Languages**, select all languages to be bundled with the player.
- In **Default Player Language**, select the default language for the player.

3. Click **Save** at the top right of the settings page.
