

## Enable text protection in the player

Last Modified on 01/18/2026 3:52 pm IST

 This article is designated for administrators.

### About

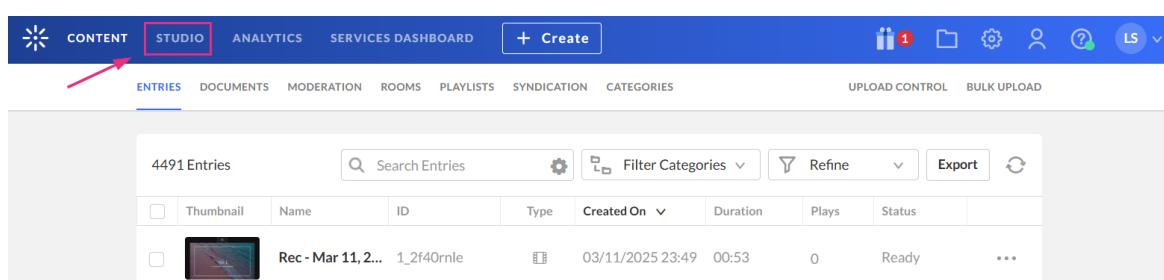

When enabled on the player, text protection prevents users from highlighting, selecting, and copying text in transcripts, captions, and Q&A content.

**VOD**

### Access the player settings

1. Log in to your [KMC](#) and click the **Studio** tab.

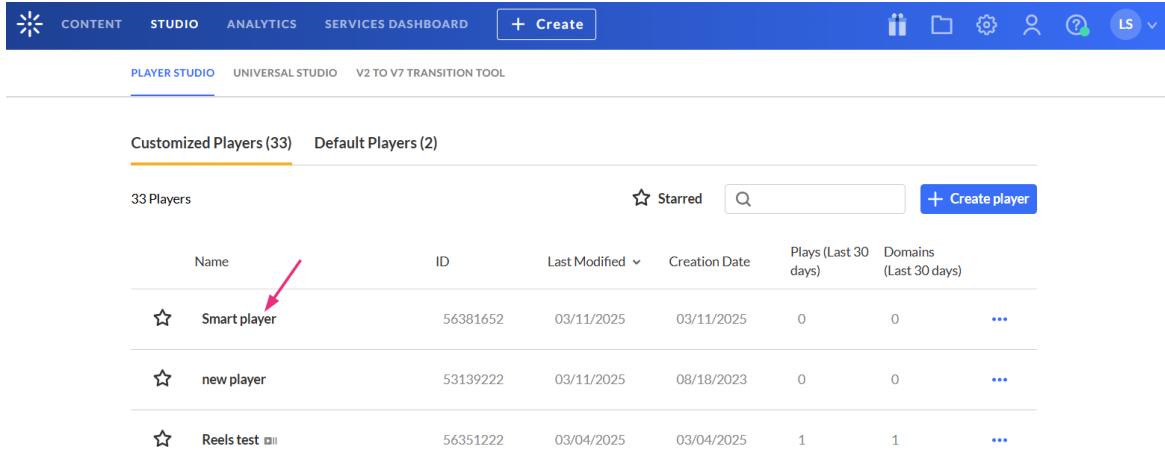

Thumbnail	Name	ID	Type	Created On	Duration	Plays	Status	...
	Rec - Mar 11, 2...	1_2f40rnle		03/11/2025 23:49	00:53	0	Ready	...

The [Player Studio](#) page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article [Create a player](#) for guidance.

The screenshot shows the Kaltura Player Studio interface. At the top, there are navigation tabs: CONTENT, STUDIO, ANALYTICS, and SERVICES DASHBOARD. A '+ Create' button is also visible. Below the tabs, there are three sub-tabs: PLAYER STUDIO (which is selected and highlighted in blue), UNIVERSAL STUDIO, and V2 TO V7 TRANSITION TOOL. The main content area is titled 'Customized Players (33) Default Players (2)'. It displays a table with 33 rows, each representing a player. The columns are: Name, ID, Last Modified, Creation Date, Plays (Last 30 days), Domains (Last 30 days), and an ellipsis button. The first player in the list is named 'Smart player' and is marked with a star icon. A red arrow points to this star icon. The table has a header row with these column names.

The [player settings](#) display.

The screenshot shows the 'Test' player settings page. At the top, there is a back arrow, the player name 'Test', and an ID '24360622'. On the right, there is a 'Save' button. The main area is divided into two sections: a left sidebar with a search bar and a list of settings, and a right preview area. The sidebar includes sections for PLAYBACK OPTIONS (Auto Play, Start Playback Muted, Auto Pause, Fallback to Muted Autoplay, Preload, See more), ACCESSIBILITY & LANGUAGE (Localization, Captions default display, Transcript, Extended audio description, Apply user preferences), and NAVIGATION & DISCOVERY (Navigation, Related, Summary & chapters). The preview area shows a video of a man in a lab coat standing behind a table with various glassware containing colored liquids. A play button is overlaid on the video. Below the video, there are controls for zoom and a resolution setting '1360 x 765'. A 'Demo video' button is at the bottom right. A red arrow points to the 'Text protection' toggle in the sidebar.

## Set text protection

1. Scroll down to the **Controls & permissions** section, find **Moderation** and click the toggle to enable the setting.

Text protection

2. Click **Save** at the top right of the settings page.

For the user guide, see [Text protection plugin](#).
