About

This article describes how to edit an Interactive room session.

Interactive rooms allow attendees to connect with others during your virtual event. Hosts can use this collaboration space to provide demos with advanced moderation controls, breakout rooms that allow smaller group interactions, and so much more! Engage attendees through interactive tools like chat, breakout rooms, live polls, screen sharing, whiteboard, and more. Enhance your event experience by adding an interactive session with the speaker right after the session for a small group of attendees to interact with the speaker in a more intimate environment.

Access session editing capabilities

There are two ways to reach session editing capabilities:

- On the Event Overview page, in the Agenda at a glance section, hover over the session you would like to edit, then click the blue pencil (edit) icon.

- On the Event Agenda page, click the name of the session, or the three blue dots to the right of the session and choose **Edit**.

The Edit session page displays with the Basics tab open by default.

Marketing for Gen-Z: The right way

Description

B *i* U̲ ☰ ☷ 🔗

With the rise of virtual events, the divide between business get-togethers and other marketing
channels has become blurrier than ever, and a new digital marketing funnel has emerged.
But it couldn't have happened without the creativity and smarts of all those marketers who
wielded their events into immersive experiences and personal interactions that fit right into
people's every day, anywhere on the customer journey.
