

Obtain streaming details for your live sessions

Last Modified on 01/07/2026 5:16 pm IST

 This article is designated for all users.

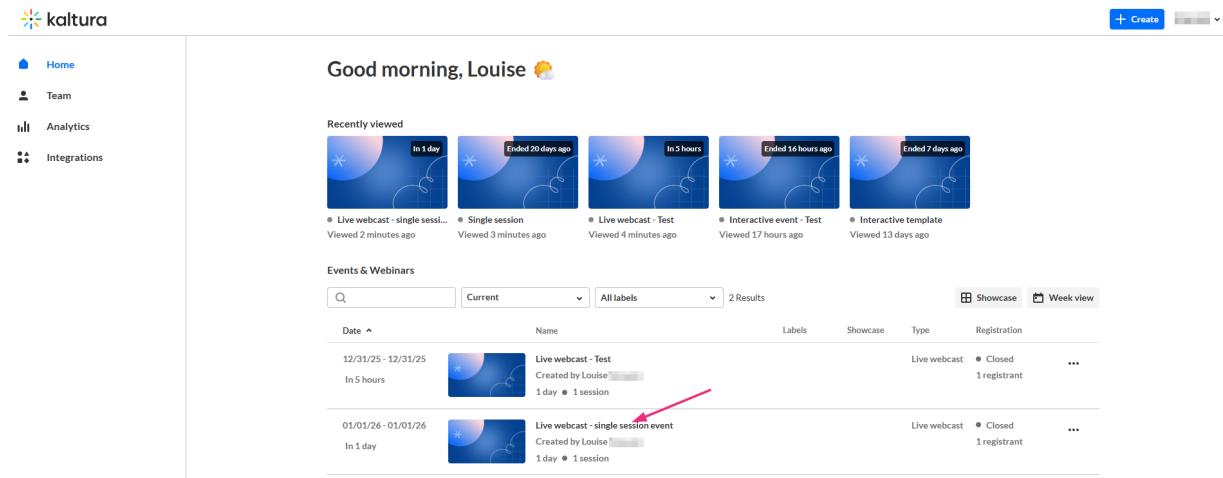

About

This article explains where to obtain the live stream details for live webcasting. When you create a live webcast, Kaltura automatically generates the streaming values used to connect your streaming tool.

Single-session events

Access the stream details

1. From the Events homepage, click the event you want to manage.

The screenshot shows the Kaltura Events & Webinars homepage. At the top, it says "Good morning, Louise" with a sun icon. Below that is a "Recently viewed" section with five items. The fifth item, "Live webcast - single session event" (Created by Louise, 1 day, 1 session), is highlighted with a red arrow. Below this is a table titled "Events & Webinars" with two results. The first result is "Live webcast - Test" (Created by Louise, In 5 hours, 1 day, 1 session). The second result is "Live webcast - single session event" (Created by Louise, In 1 day, 1 day, 1 session). The table has columns for Date, Name, Labels, Showcase, Type, and Registration.

Date	Name	Labels	Showcase	Type	Registration
12/31/25 - 12/31/25 In 5 hours	Live webcast - Test Created by Louise [REDACTED] 1 day • 1 session			Live webcast	• Closed 1 registrant
01/01/26 - 01/01/26 In 1 day	Live webcast - single session event Created by Louise [REDACTED] 1 day • 1 session			Live webcast	• Closed 1 registrant

The **Overview** page displays.

Virtually live!

2/2/22 10:00 AM > 2/2/22 4:30 PM

EST (GMT-5)

It's no surprise that virtual events have prevailed over all other forms of business get-togethers since Covid-19 entered our lives. At Kaltura, we spent the past year videoing events, transforming the conventional into the extra...

Primary URL
rtmp://vu1dkyty.p.kpublish.kaltura.com:1935/kLive?t=d95cc07c Copy

Secondary URL
rtmp://vu1dkyty.p.kpublish.kaltura.com:443/kLive?t=d95cc07c Copy

Stream name:
1 Copy

Hide live stream details

If your account uses **resource assignment**, stream details may be preconfigured and you may not need to copy stream URLs manually.

Copy the stream details

1. In the **Live stream details** section, click the tab for the protocol you want to use - **RTMP, RTMPS or SRT**.

Live stream details

RTMP RTMPS SRT

Primary URL
rtmp://vu1dkyty.p.kpublish.kaltura.com:1935/kLive?t=d95cc07c Copy

Secondary URL
rtmp://vu1dkyty.p.kpublish.kaltura.com:443/kLive?t=d95cc07c Copy

Stream name:
1 Copy

Hide live stream details

2. Review the relevant section below and copy the required values:

RTMP / RTMPS

- **Primary URL**
- **Secondary URL** - (Optional) Use only if your streaming tool supports a backup connection in case the primary one fails.
- **Stream name**

Live stream details

RTMP RTMPS SRT

[Hide live stream details](#)

SRT

- **Primary URL**
- **Primary Stream ID**
- **Secondary URL and Secondary Stream ID** - (Optional) Use only if your streaming tool supports a backup connection in case the primary one fails.

If you want to secure the connection, enable **Encryption**.

Enabling or disabling encryption updates the stream IDs. Copy the stream details only after the change is applied.
