About

This article describes how to edit a Pre-recorded session.

Pre-recorded sessions are pre-recorded videos that are broadcasted as if they were live. They are considered as if they were a live broadcast from the system's point of view (player, analytics, etc.).

Access session editing capabilities

There are two ways to reach session editing capabilities:

- On the Event Overview page, in the Agenda at a glance section, hover over the session you would like to edit, then click the blue pencil (edit) icon.
