The session settings open in a side panel with the **Basics** tab open by default.

The screenshot shows the 'Basics' tab of the session settings for 'Demystifying Marketing Automation'. The left sidebar is dimmed, and the main content area shows the session details. At the top right of the settings panel, there is a 'Create with AI' button and a three-dot menu. Below the session title, there are tabs for 'Basics', 'Captions', and 'Attachments'. The 'Basics' tab is active, showing options to 'Visit session page' and 'Copy session link'. A large thumbnail image is displayed, with a 'Replace thumbnail' button below it. The 'Title (required)' field contains 'Demystifying Marketing Automation' (33/120 characters). The 'Description' field is empty, and the 'Tags' field is also empty.

When a tab is open, you'll also see a **Create with AI** button and a **three-dot menu**. These actions are available across all tabs. For details, see [Global actions](#) below.
