About

The **Thumbnails** tab lets you set the default image that appears on the entry card in Kaltura Management Console and other Kaltura applications. You can upload your own image or grab a frame from the video.

Access the thumbnails tab

1. Log into your Kaltura Management Console.
   The **Entries** page displays by default.

2. Click on the desired entry's title or thumbnail.

   The entry details page displays.

3. In the left panel, select **Thumbnails**.

The Thumbnails tab displays.

Choose a thumbnail for your video

By default, a thumbnail is generated from the video's first frames. You can choose a new thumbnail by selecting any frame from the video or uploading an image from your computer. You can assign multiple thumbnails of varying qualities to your video.

### Upload an image

1. Click **Upload.**

2. Locate the desired image on your computer.
3. Click **Open**.

   The image is added to the list of thumbnails.
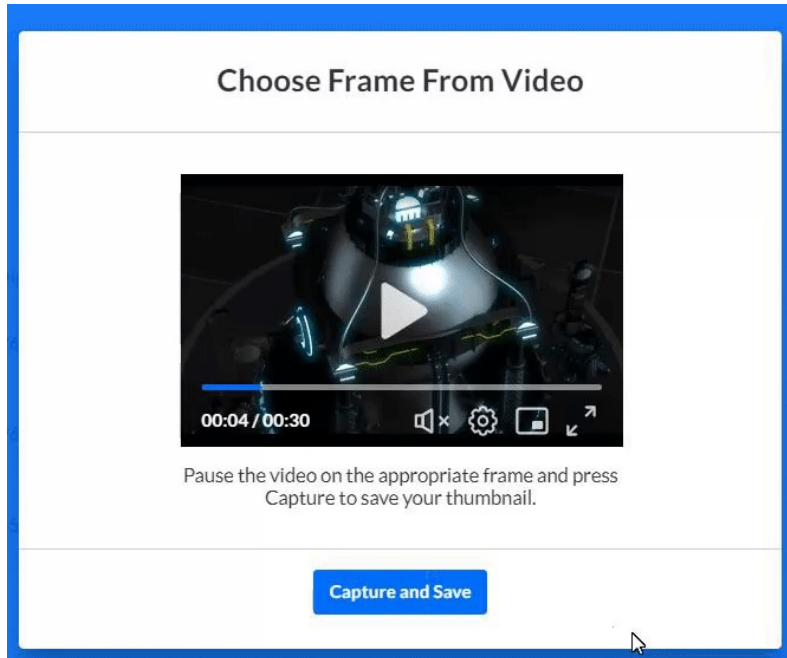

Choose a frame

1. Click **Choose Frame**.

The 'Choose Frame From Video' window opens.

2. Click the play button to play the video.
3. Pause the video on the appropriate frame and press **Capture and Save** to save your thumbnail.

A thumbnail will be captured from the highest quality video flavor.

Manage thumbnails

- Click **Set as Default** on the thumbnail you want to use for the entry. The default thumbnail displays in the entries list.
- Click on the **three dots menu** to the right of a thumbnail to **Download**, **Preview** or **Delete** the thumbnail.

- You can't delete the default thumbnail directly. First, set another thumbnail as default, then delete the previous one.

Thumbnail	Dimensions ⌄	Size	Distributors	Tags	Default	
	960x540	91.42 KB			Set as Default	•••
	960x540	34.34 KB		default_thumb	Default Thumbnail	•••
					Download	
					Preview	
	960x540	34.19 KB			Delete ←	
					Set as Default	•••
	458x462	7.97 KB			Set as Default	•••

> ℹ️ If your distribution profile requires a specific thumbnail size, you must upload an image with the required dimensions.
