

Invite attendees to your single session event

Last Modified on 12/21/2025 12:52 am IST

 This article is designated for all users.

About

This article describes how to:

- Invite attendees to your event via email. An invitation will be sent as an email to complete the registration.
- Add participants to the event *without sending them an invitation email*. Once you're ready, simply use the "Resend Email" option to send the invites.
- View a list of attendees for an upcoming event and monitor their progress through the registration process
- Perform additional actions on attendees per registration status.
- Manage event access for "closed" Single sign on (SSO) event - using custom event template only.

Following is one example of an invitation an attendee may receive.

This article pertains only to single session events.

Some behavior described here applies to a non-default configuration. Customer-specific variations are highlighted where applicable.

Invite individual participants to your event

1. Navigate to the All users page; from the Event page, click the People tab > All users.

The screenshot displays the Kaltura event management interface. On the left is a sidebar with a navigation menu. The main content area is titled 'Overview' and shows event details for a 'Virtually live!' event on 2/2/22. Below the overview are three sections: 'Set up your broadcast studio', 'Event site for audience', and 'Share chat moderation app with your moderators'. On the right side, there are two panels for 'Speakers' and 'Moderators', both showing 'No speakers yet' and 'No moderators yet' respectively. The 'All users' page is highlighted in the sidebar.

If a user has already accessed the Event site, opened the Chat and Collaborate widget, and agreed to the widget's terms of use, one additional option displays for Attended users in addition to those listed above - **Block from chat**. Using this option, you can block the user from sending messages in the Chat and Collaborate widget.

If you chose for your attendees to log into your event via email (AKA Magic Link), one additional option displays for Invited and Registered users in addition to those listed above - **Generate login link**. Using this option, you can copy and send attendees the login link.

Hovering over the registration status in the All users page reveals a higher granularity of status which may include the following:

Registration Status	Detailed Status
Registered	Registered
Invited	Invited by team member
Invited	Invited by team member to register
Registered	Confirmed email
Registered	Registered no confirmation required
Attended	Pre-event visit
Attended	During-event visit
SSO login	SSO login
Unregistered	Unregistered
Blocked	Blocked

In our example below, the registration status is Attended, but when hovering over the registration status, we can see this participant visited the site before the event started (i.e., Pre-event visit).

Speakers page

The Speakers page allows you to view a full list of speakers for your upcoming event (including name, bio, and status) and monitor their progress through the registration process. You may also invite new speakers directly from the Speakers page. See [Kaltura Events - Invite Speakers to Your Event](#).

Moderators page

The Moderators page allows you to view a full list of moderators for your upcoming event (including name, bio, and status) and monitor their progress through the registration process. You may also invite new moderators directly from the Moderators page. See [Kaltura Events - Invite Moderators to Your Event](#).

Manage event access for "closed" Single sign on (SSO) event

See [Closed events](#) for more information. Closed events are available only when using SSO and a "closed" group setup via a custom event template.

If you are hosting a "closed" Single sign on (SSO) event, you can use the All users page to manage access for your attendees. For these types of events, an additional tab displays on the All users page - **Event access**.
