

Add & manage collaborators on your media in legacy Video Portal

Last Modified on 06/04/2026 9:15 am IDT

 This article is designated for all users.

About

Media owners can add other users as collaborators so they can view, [edit](#) or [publish](#) their media. Collaborators see the media in their own [My Media](#) area.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Add collaborators

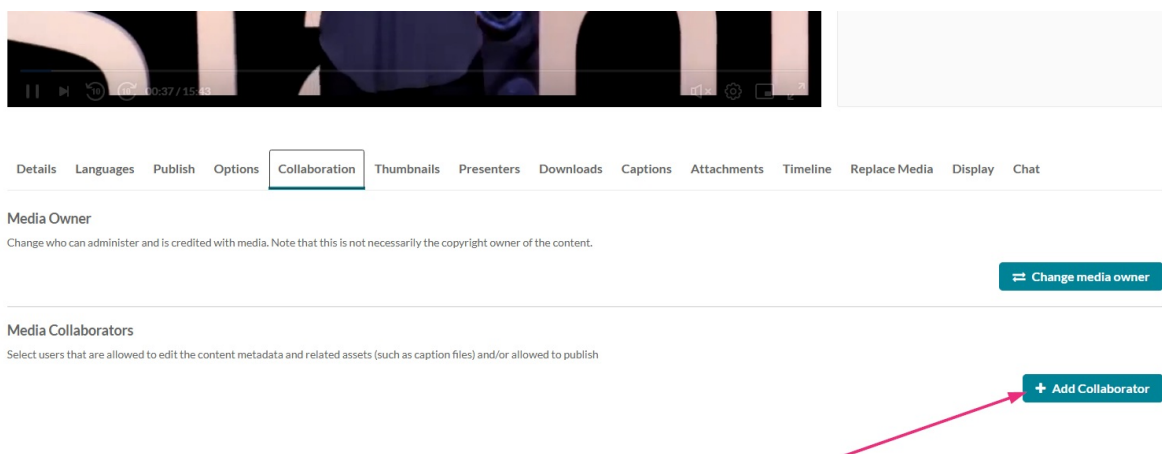

1. Access the [edit media page](#).
2. Click the **Collaboration** tab.

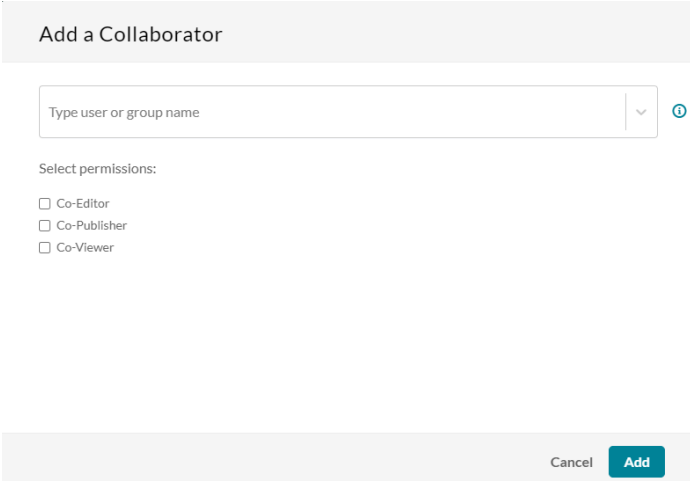

If you don't see the Collaboration tab or can't add collaborators, ask your administrator to enable the [Media Collaboration module](#), or check your permissions.

The collaboration page displays.

3. Click **+Add Collaborator**.

The 'Add a Collaborator' window opens.

4. Enter the user or group name.

You can search for available users or groups and use the auto-complete function (starts from the third character).

5. Select the collaborator type and permissions as follows:

- **Co-Editor** - Can edit this media's details and metadata, trim media, replace media, edit captions, edit chapters, and edit slides. Co-editors can't delete media or add new co-editors and co-publishers. Co-editors can see the analytics page for the media they co-edit.
- **Co-Publisher** - Can publish the media to categories or channels they're entitled to.
- **Co-Viewer** - Can only view this media and doesn't have editing or publishing permissions.
- **Kaltura Webcasting Moderators** - (Webcast entries only) Assigned by the media owner. Moderators can send announcements, manage questions, and interact with the audience during a live event. The Co-viewer option isn't available for webcast entries.

Add a Collaborator x

Member	User ID	Permission	
Louise Smith	louise@kaltura.com	Co-Editor	✎ ✕
Brian Dean	e0be464cf59cd2dc45246ec8a9aa9536	Co-Publisher	✎ ✕

Adding a collaborator doesn't override the user's legacy Video Portal role. A user with a viewer role can't publish content, even if added as a co-publisher. To learn more about roles, see [User roles and permissions in legacy Video Portal](#).
