

Add Genie to specific galleries in legacy Video Portal

Last Modified on 06/04/2026 9:15 am IDT

 This article is designated for all users.

About

Gallery managers can enable Genie in their galleries to let users ask questions and discover content based on that gallery's media.

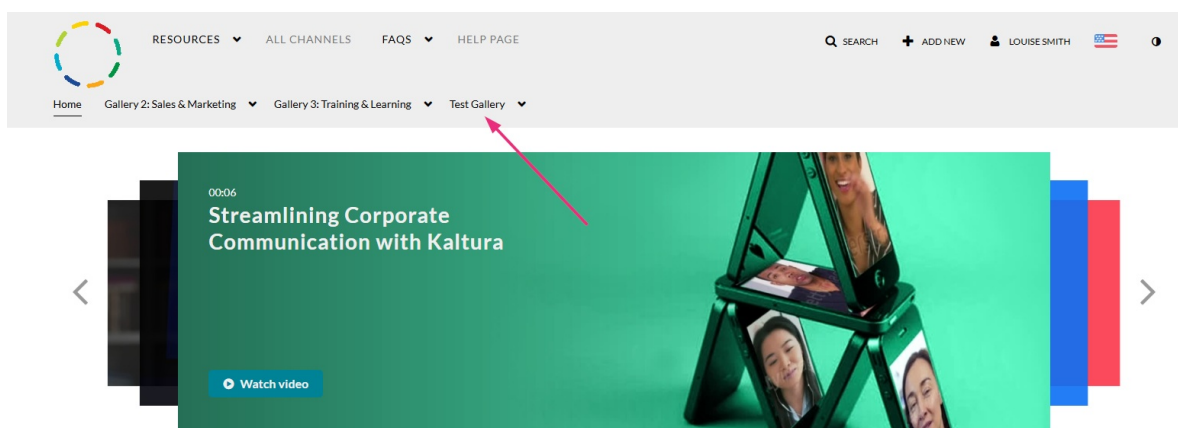

If **Agentic Avatars** are enabled for your Genie configuration, users can also start a live avatar conversation within the gallery's Genie experience.

 To enable **Agentic Avatars** for your Genie configuration, contact your Kaltura representative.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Access the gallery edit page

1. Log into your legacy Video Portal.
2. Locate the gallery that you want to edit on the navigation bar and click on it.

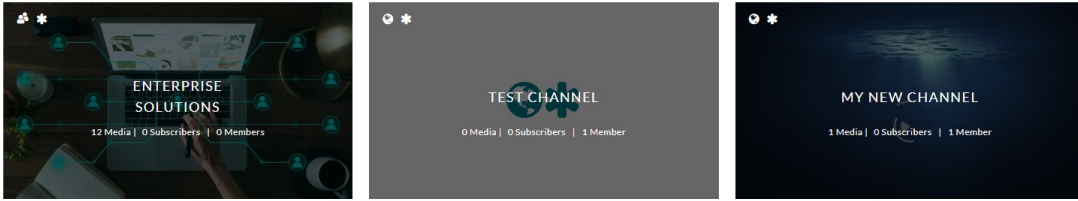

The gallery page displays.

Test Gallery

A central hub for company-wide materials

3 Media 4 Channels

Sort by Media Count View All Topics

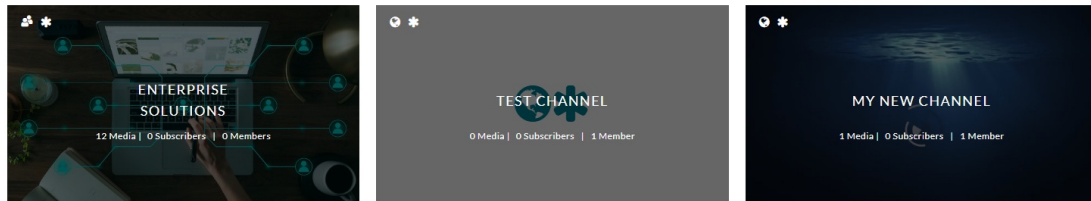

3. Click the **edit icon** (three bars) at the far right and choose **Edit**.

Privacy

Privacy: **Open** - Anyone can view content (including anonymous users) but only admin role users and category members can contribute content.

Restricted - All logged in users can view content but only Category members can contribute content.

Private - Only Category members can view and contribute content.

Note: Sub categories under a private category will be visible only to members of those sub categories

Enable Genie

1. On the edit page, click the **Genie** tab.

The Genie tab appears only if your admin has made Genie available to gallery managers.
