

Add Genie to specific galleries - Theming

Last Modified on 02/24/2026 10:33 am IST

 This article is designated for all users.

About

Gallery managers can enable Genie in their galleries to let users ask questions and discover content based on that gallery's media.

If **Agentic Avatars** are enabled for your Genie configuration, users can also start a live avatar conversation within the gallery's Genie experience.

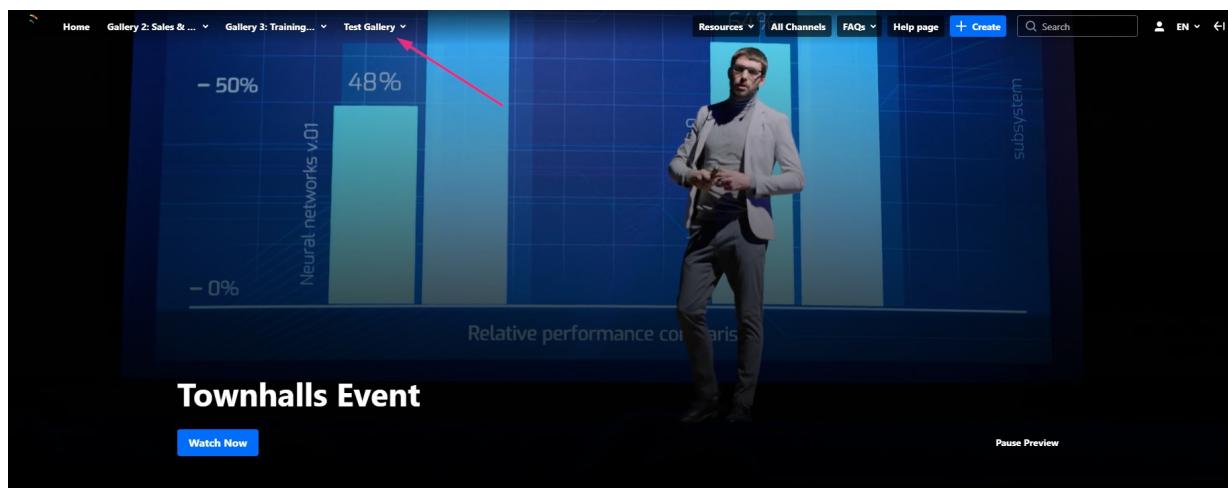

To enable **Agentic Avatars** for your Genie configuration, contact your Kaltura representative.

The instructions below are for [Theming](#) users. If you don't have Theming enabled, please refer to our article [Add Genie to specific Galleries](#).

Access the gallery edit page

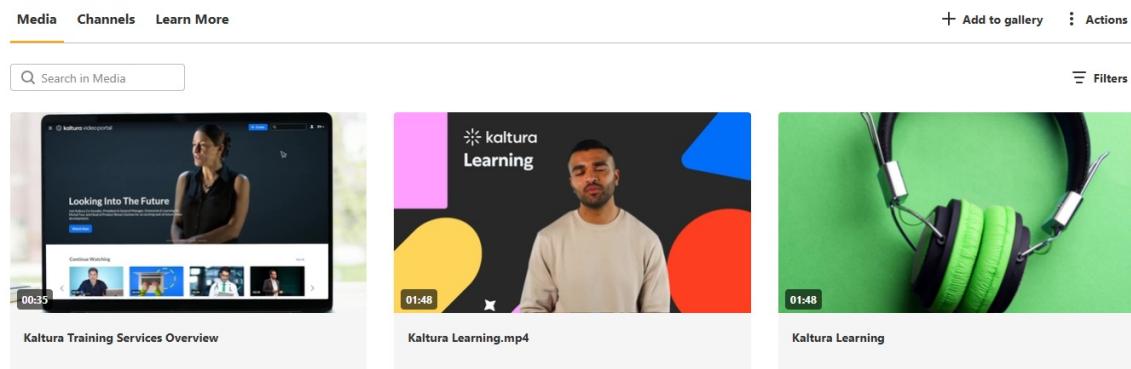

1. In your Video Portal, select the gallery you want to manage from the navigation bar.

The gallery page displays.

Test Gallery

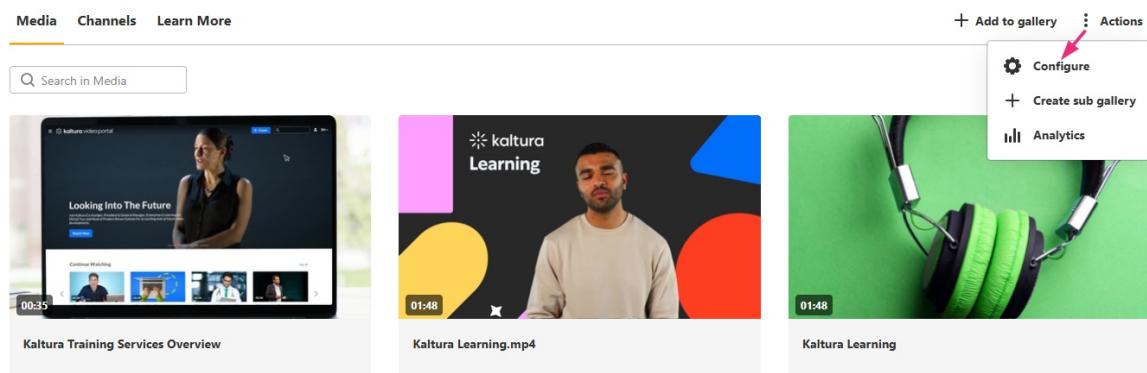

A central hub for company-wide materials

A screenshot of the Kaltura Test Gallery page. At the top, there are navigation links for "Media", "Channels", and "Learn More", with "Media" being the active tab. To the right are buttons for "Add to gallery" and "Actions". A search bar and a "Filters" button are also present. Below the header, three media items are displayed in a grid: 1. "Kaltura Training Services Overview" (Thumbnail shows a woman, Duration: 00:35). 2. "Kaltura Learning.mp4" (Thumbnail shows a man, Duration: 01:48). 3. "Kaltura Learning" (Thumbnail shows a pair of headphones on a green surface, Duration: 01:48). Each item has a "Details" tab at the bottom.

2. On the gallery page, click the **Actions** menu at the far right and choose **Configure**.

Test Gallery

A central hub for company-wide materials

A screenshot of the Kaltura Test Gallery page, identical to the first one but with a mouse cursor hovering over the "Actions" menu. A dropdown menu appears with three options: "Configure" (highlighted with a red arrow), "Create sub gallery", and "Analytics". The "Configure" option is represented by a gear icon. The other two options have their respective icons next to them.

The edit page opens on the **Details** tab by default.

- Channels
- Learn More

Save

4. Click **Save**.

The 'Ask Anything' tab displays on the gallery page as shown below.

If **Agentic Avatars** are enabled for your Genie configuration, users will also see the option to start a live avatar conversation within this gallery-specific Genie experience.

Test Gallery

The screenshot shows the 'Test Gallery' interface. At the top, there are two tabs: 'Ask Anything' (which is currently selected, indicated by a blue underline) and 'Media'. In the top right corner, there are buttons for '+ Add to gallery' and 'Actions'. Below the tabs, the main content area is titled 'Ask me anything' with a small star icon. It features a video feed of a woman with long red hair. At the bottom of this feed is a blue button labeled 'Start conversation'. Below the video feed, the text 'Ask me anything' is displayed again, followed by a text input field containing the question 'Why are vector databases important for large language models?'. Below the input field are three buttons: 'Flashcard', 'Text', and 'Fast answer'. The 'Flashcard' button is highlighted with a blue border.
