

## Enable media info to show before playback

Last Modified on 02/09/2026 9:50 pm IST

 This article is designated for administrators.

### About

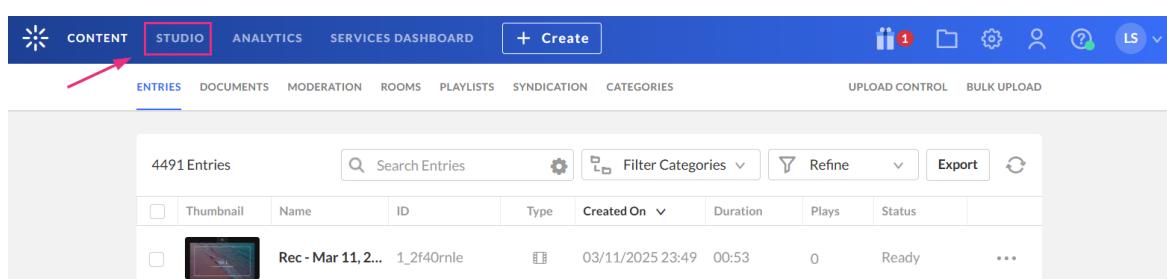

Use the **Info before playback** setting to show key media details on the player before playback starts. You can choose whether to display the video's length, title, and description, and control where this information appears on the player.

### VOD

### Access the player settings

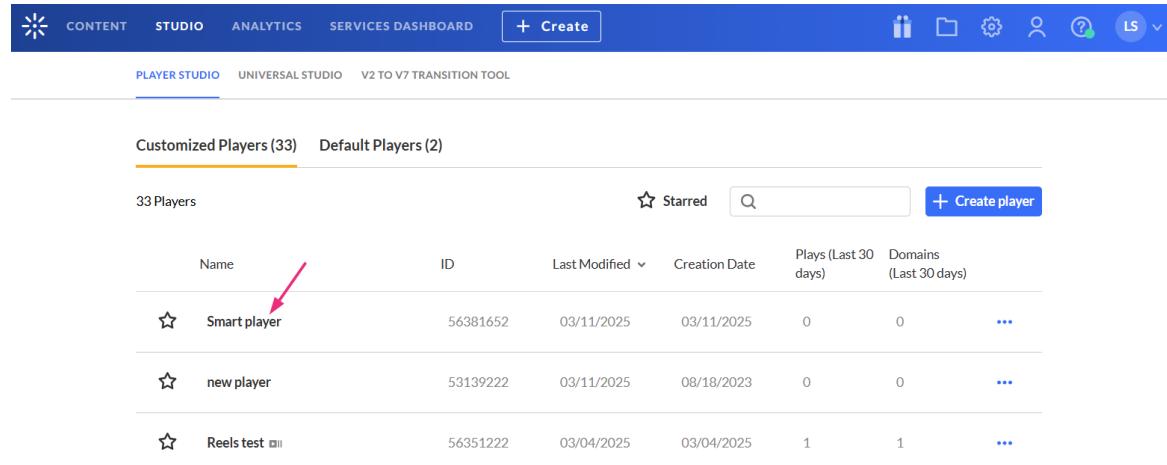

1. Log in to your [KMC](#) and click the **Studio** tab.

The [Player Studio](#) page displays.

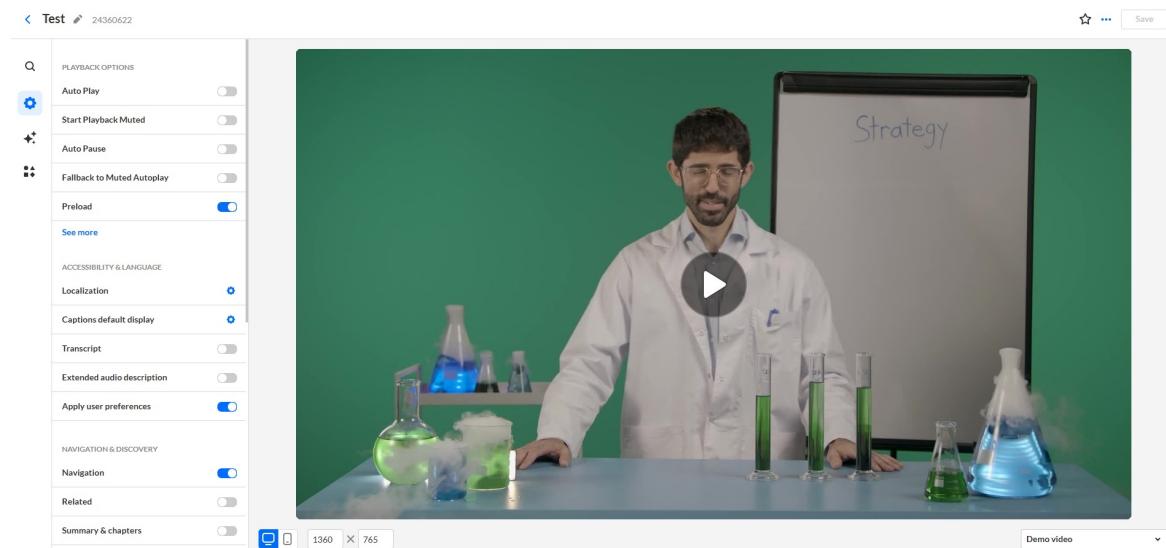

2. Click the player you want to edit from the list (or use the search bar in the top right).

 If you haven't created a player yet, check out our article [Create a player](#) for guidance.

The screenshot shows the Kaltura Player Studio interface. At the top, there are navigation tabs: CONTENT, STUDIO, ANALYTICS, and SERVICES DASHBOARD. A 'Create' button is also visible. Below the tabs, there are three sub-tabs: PLAYER STUDIO (which is selected), UNIVERSAL STUDIO, and V2 TO V7 TRANSITION TOOL. The main content area is titled 'Customized Players (33)' and 'Default Players (2)'. Under 'Customized Players (33)', there is a table with columns: Name, ID, Last Modified, Creation Date, Plays (Last 30 days), and Domains (Last 30 days). The table contains three rows, with the first row 'Smart player' highlighted by a red arrow.

The [player settings](#) display.

The screenshot shows the Kaltura player settings interface for a video titled 'Test'. The video preview shows a man in a lab coat standing behind a table with chemistry glassware. On the left, there is a sidebar with various settings: PLAYBACK OPTIONS (Auto Play, Start Playback Muted, Auto Pause, Fallback to Muted Autoplay, Preload), ACCESSIBILITY & LANGUAGE (Localization, Captions default display, Transcript, Extended audio description, Apply user preferences), and NAVIGATION & DISCOVERY (Navigation, Related, Summary & chapters). A red arrow points to the 'Navigation' toggle in the sidebar.

## Set Info before playback

1. Scroll down to the **Navigation & Discovery** section, find **Info before playback** and click the toggle to open the settings.

Info before playback 

Video length 

**Video details**

None 

Entry title 

Entry title and description 

**Position**

Top

Bottom

[See less](#)

2. Configure the following:

- **Video length** - Show the total duration before playback.
- **Video details** - Choose one of the options:
  - **None** - Hide all details
  - **Entry title** - Show the title
  - **Entry title and description** - Show both
- **Position** - Choose **Top** or **Bottom**

3. Click **Save** at the top right of the settings page.

For the user guide, see [Show media info before playback](#).
