> 👤🔒 **This article is designated for faculty members.**

About

Instructors can enable Genie in their course media galleries to let students ask questions and discover content based on the videos and documents in that course.
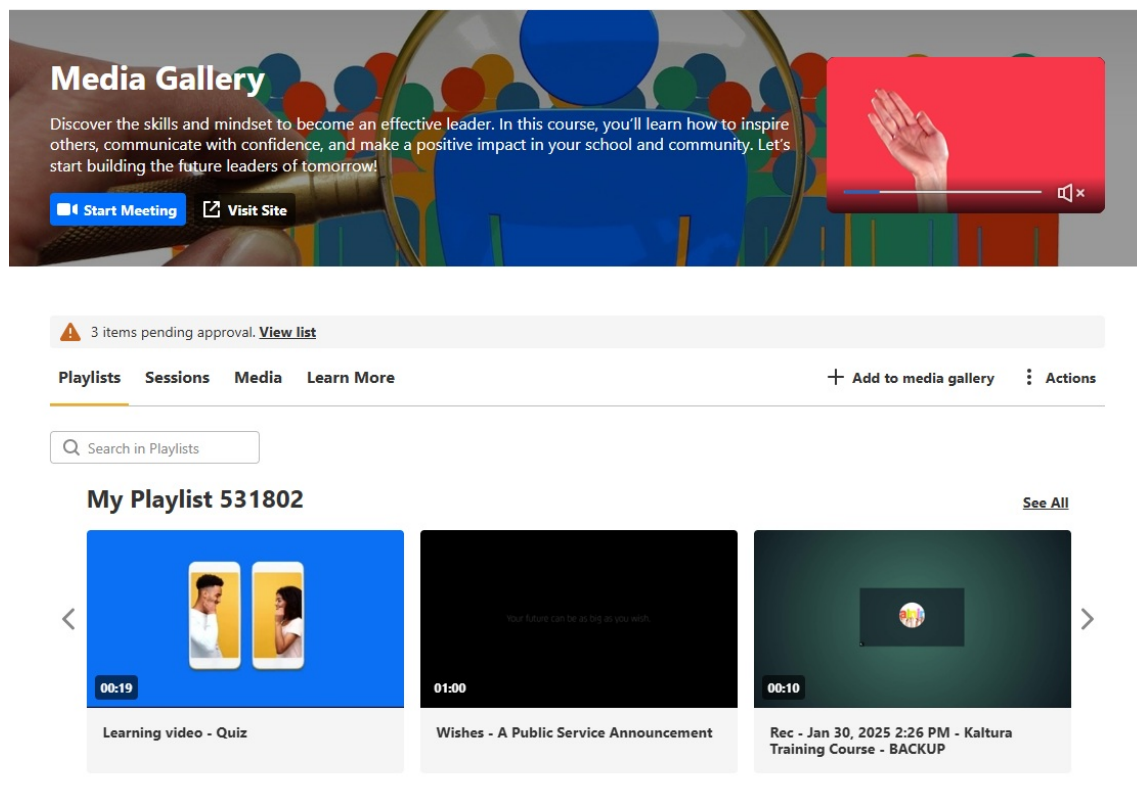

> ℹ️
>
> The instructions below are for Theming users. If you don't have Theming enabled, please refer to our article *Add Genie to a specific media gallery - Theming.*

Access the edit page

1. Access your course, then click on **Media Gallery**.
   The Media Gallery displays.

2. Click the **Actions** menu at the top right and select **Configure**.
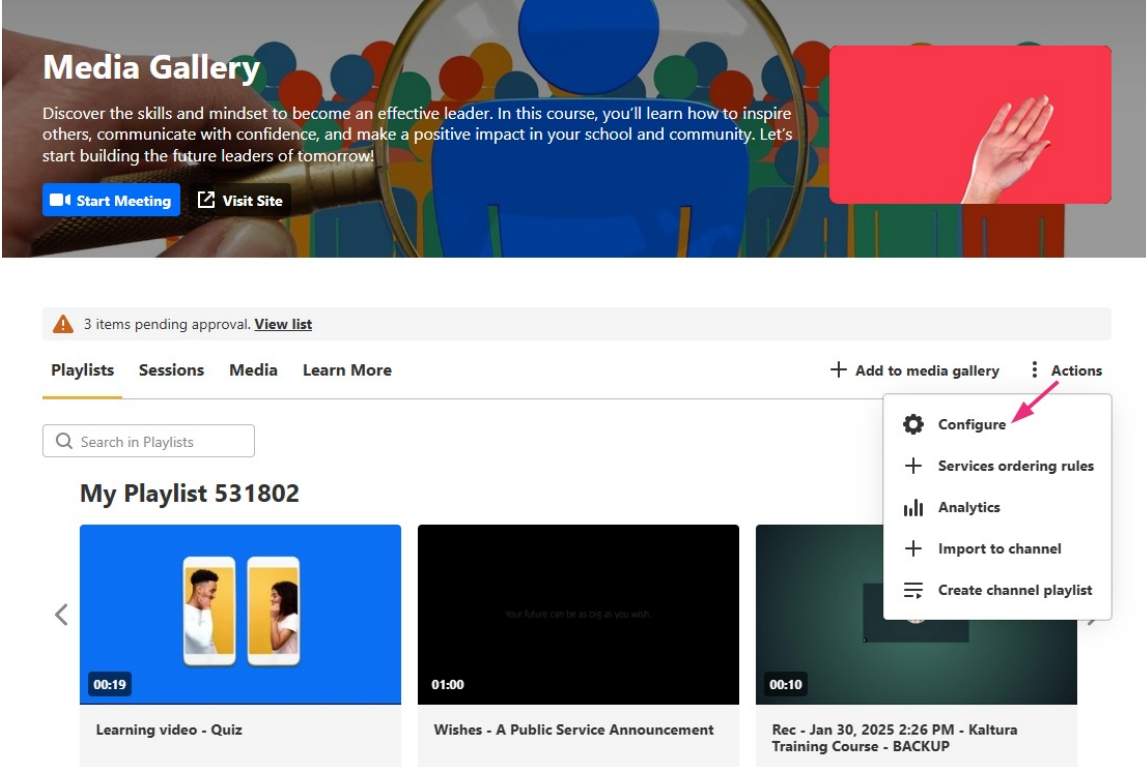

The edit page displays.

> ℹ️ The tabs that are displayed on the edit media page depend on your admin configuration.

Edit Media Gallery

Details   Playlists   Advanced Settings   Genie

Description: Black ▾   **Bold**   *Italic*   <u>Underline</u>

Enter Description...

Tags:

Options: ☐ Moderate content (media will not appear in media gallery until approved by the gallery manager)
☑ Enable comments in Media Gallery
☐ Keep comments private to Media Gallery.
☑ Display embedded media in this Media Gallery

Save   Back to Media Gallery

If **Display embedded media in this media gallery** is selected, Genie also pulls information from the embedded videos that appear in the Media Gallery, so its answers reflect all content available to students.

Options: ☐ Moderate content (media will not appear in media gallery until approved by the gallery manager)
☑ Enable comments in Media Gallery
☐ Keep comments private to Media Gallery.
☑ Display embedded media in this Media Gallery

Enable Genie

1. In the edit page, click the **Genie** tab.

> ⓘ The Genie tab appears only if your admin has made Genie available.

2. Check the **Enable** box then click **Submit** (it may already be enabled by default, depending on your admin's setup).

Set Genie's display

1. Click the **Advanced settings** tab.

2. Scroll down to **Channel layout**.

Edit Media Gallery

Details | Playlists | **Advanced Settings** | Genie

Header Type — Select the channel header type.
○ Show Banner
● Hide Banner

View Mode — Select the channel view mode.
● Detailed
○ Grid

Channel Layout — Choose the layout of your channel: Select 'Tabs' to display the channel elements (Sessions, Media, Playlists, About) in tabs. Select 'Vertical' to show the channel elements one above the other, allowing navigation between the elements with a scroll. We recommend to use the vertical UI only on channels with less than 100 elements (Sessions, playlist, Vods, etc.).
● Tabs
○ Vertical

Links/CTA — Select which CTA buttons/links to show. Between the 'Meeting', 'Chat', and 2 CTA buttons, only the first 3 will display on the UI in large screens, and only 2 in smaller screens. (Order by priority from top to bottom - 'Meeting', 'Chat', CTA1, CTA2)
☐ Display a custom link button.

3. In the Channel layout section, choose **Tabs** or **Vertical**.

When the media gallery uses **Tabs** view, Genie appears as a new 'Ask anything' tab on the media gallery page.

When you ask Genie a question the results are presented in the context of that media gallery.

✓ You can set Genie as the default tab so that visitors land on the 'Ask Anything'

tab when they open the media gallery. This is managed in Advanced settings of the edit page.

When the media gallery uses **Vertical** view, a Genie section appears on the media gallery page. The section includes a short description with an 'Ask Anything' button.

About

Recording or hosting live product demos are a great way for inbound sales teams to better connect with customers. No matter what you sell, the product demo can move a lead along by showing.

Training and Certification helps you build and validate your skills so you can get more out of the cloud. Our content is created by experts and updated regularly so you can keep your cloud skills fresh. Digital training allows you to learn online at your own pace. With classroom training, you can learn best practices from an expert instructor.

In addition to in-person classes, virtual training lets you take courses from anywhere. Whether you are just starting out, building on existing IT skills, or sharpening your cloud knowledge, Kaltura Training and Certification can help you be more effective and do more in the cloud.

Clicking the button opens the dedicated Genie page.

4. Next, scroll down to **Sections**, and check the box next to **Genie** to display the 'Ask

anything' experience on the media gallery page.

5. (Optional) In the **Default tab** settings, check the box next to **Genie** so that visitors land on the 'Ask Anything' tab first when they open the media gallery.

6. Click **Save**.
