

Manage content in your channel - Theming

Last Modified on 02/03/2026 11:22 am IST

 This article is designated for all users.

About

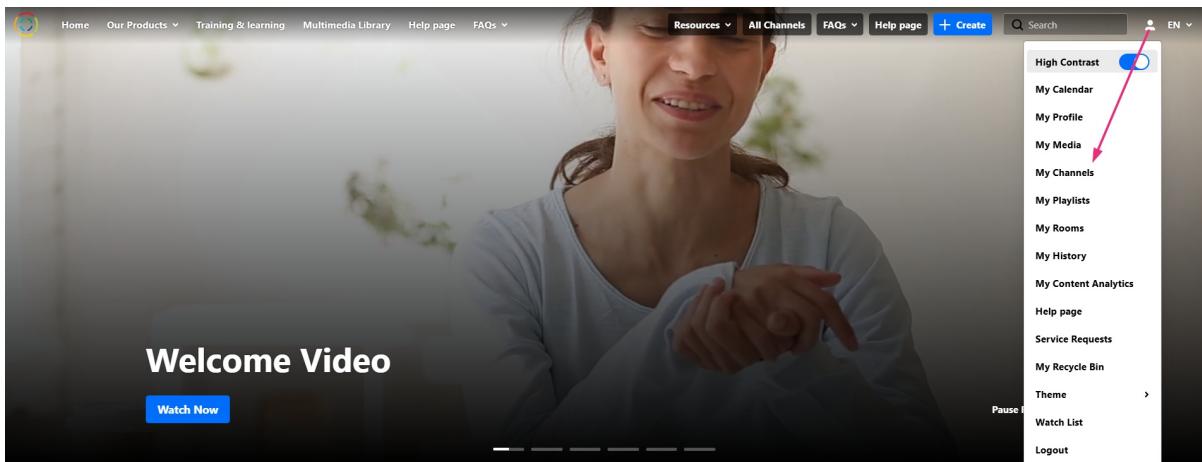

Use the **Manage content** function to control the media that appears in your channel. From this page, you can add media, remove media, organize content, and perform bulk actions - all from a single, media-focused view.

The instructions below are for [Theming](#) users. If you don't have Theming enabled, please refer to our article [Manage a channel](#).

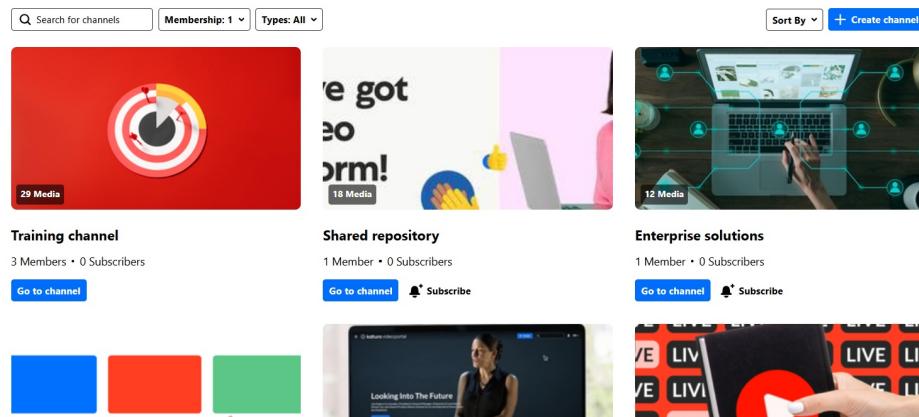

Access the Manage Content page

1. From the user menu, select **My Channels**.

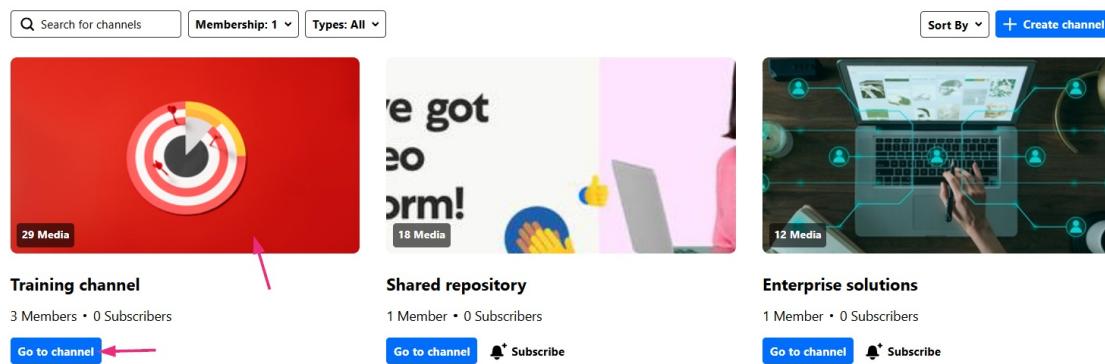

The **My Channels** page displays.

Channels

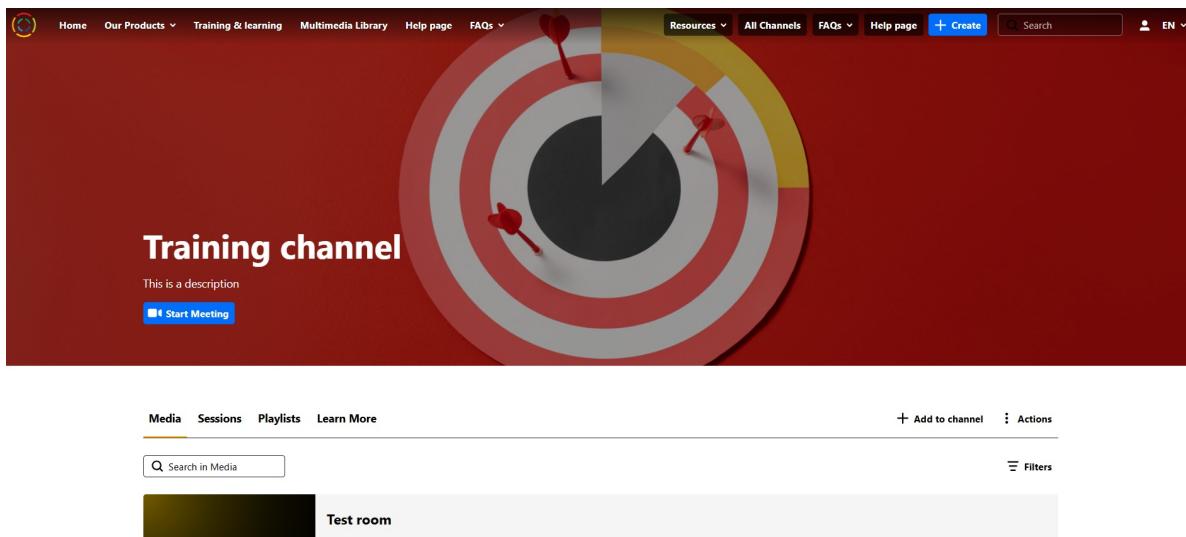

2. Find the channel you want to edit and either click **Go to channel** button or the media thumbnail.

Channels

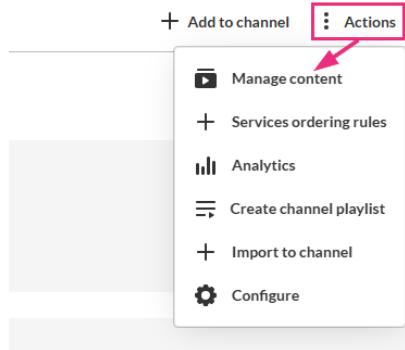

The channel page displays.

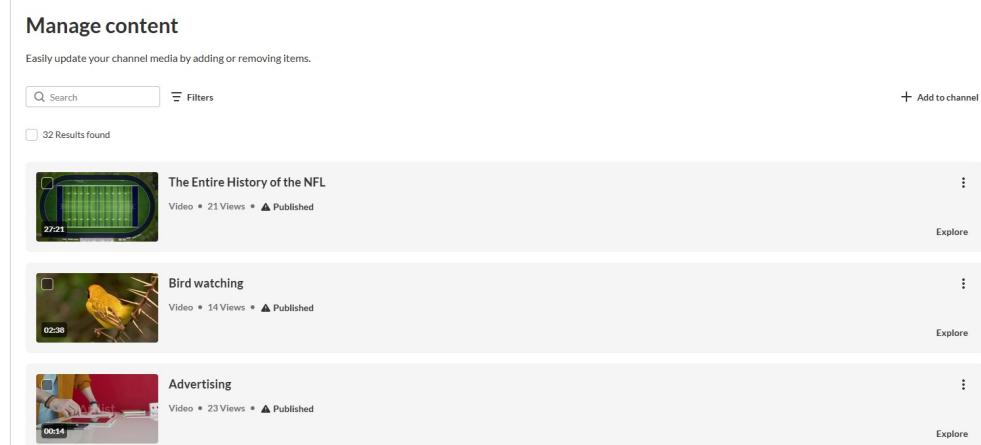

3. At the far right, click the **Actions** menu and select **Manage content**.

The 'Manage content' option appears only if the **channeledit** setting is enabled in the [Theming module](#). If you don't see it, ask your administrator to enable it.

The 'Manage content' page opens with all media currently associated with the channel.

The number of entries displayed on the page is determined by the [Channels module](#) configuration.

Manage content actions

Add media to the channel

Add existing media

1. Click **Add to channel** at the far right.

Manage content

Easily update your channel media by adding or removing items.

Cancel **Select**

The selected media is added to the channel and appears in the list.

Add new media

Need to upload or record a new video? Use one of the options at the far right:

- **Upload** - Upload one or more files. Wait for uploads to finish before clicking **Save** and **Select**. Visit our article [Upload media](#) for guidance.
- **Express Capture** - Record directly from your webcam. Visit our article [Create a recording with Express Capture](#) for guidance.

Explore

From there, you have the following options:

- **Remove from channel** - Remove the media from the channel. Removing media from the channel doesn't delete it from [My Media](#).
- **Display in channel header** - Show this media in the channel header area. The media appears in the header area on the right side of the channel page. If that media is already used as header media, you'll see an option to remove it.

A confirmation message displays: *Are you sure you want to remove these 2 items from your channel?*

3. Click **Remove** to continue.

Good to know

- Removing media from a channel doesn't delete it from the system.
- Available actions depend on your role and admin configuration.
