> 👥 **This article is designated for all users.**

About

You can manage all aspects of your channel from the **Configure** option on the channel page.

Selecting 'Configure' opens the edit page, where you can control your channel's content, appearance, layout, users, moderation, and meeting room settings. Settings are organized in tabs in a left-hand navigation, making it easy to move between different areas of channel management.
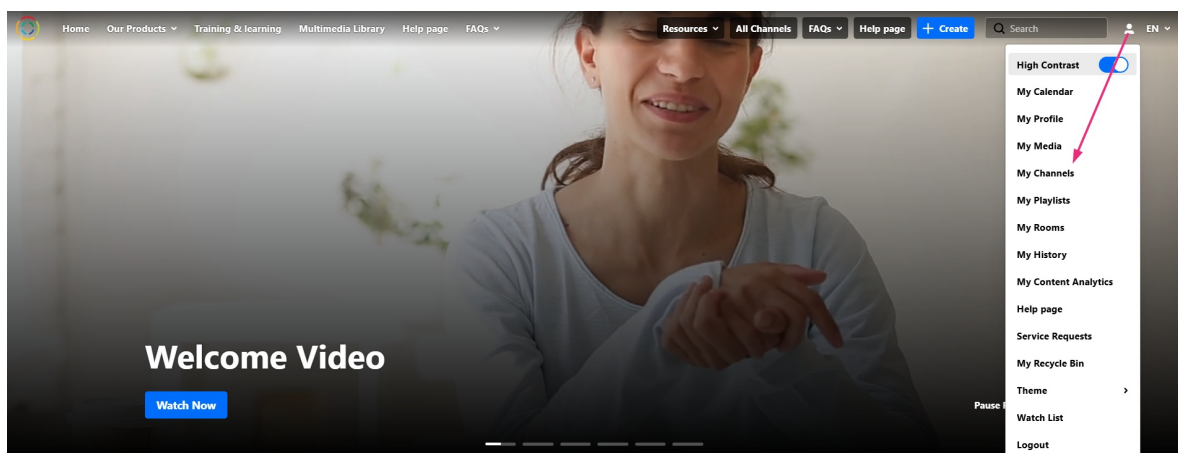

> ℹ️ The instructions below are for Theming users. If you don't have Theming enabled, please refer to our article Edit a channel.

Who can use this

- Channel owners
- Channel managers

Access the channel edit page
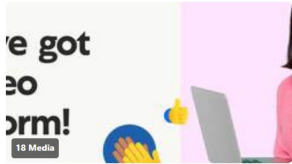

1. From the user menu, select **My Channels**.

The **My Channels** page displays.
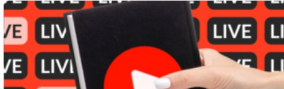

---
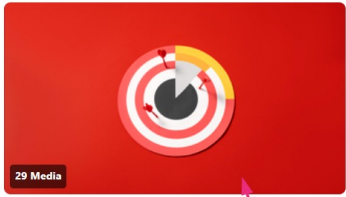

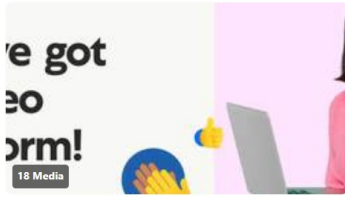

2. Find the channel you want to edit and either click **Go to channel** button or the media thumbnail.
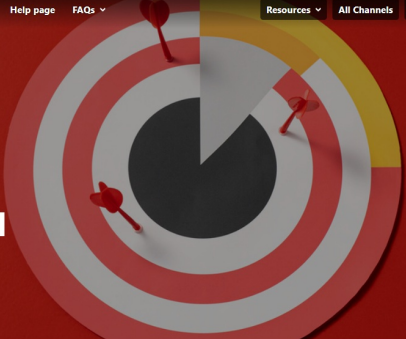

The channel page opens.

3. At the far right, click the **Actions** menu and select **Configure**.

> ℹ️ You must enable the Channel Theming UI module for 'Configure' to appear in the Actions menu.

> ℹ️ If you see the **Manage content** option in your menu, you can also select it to access the channel edit page.
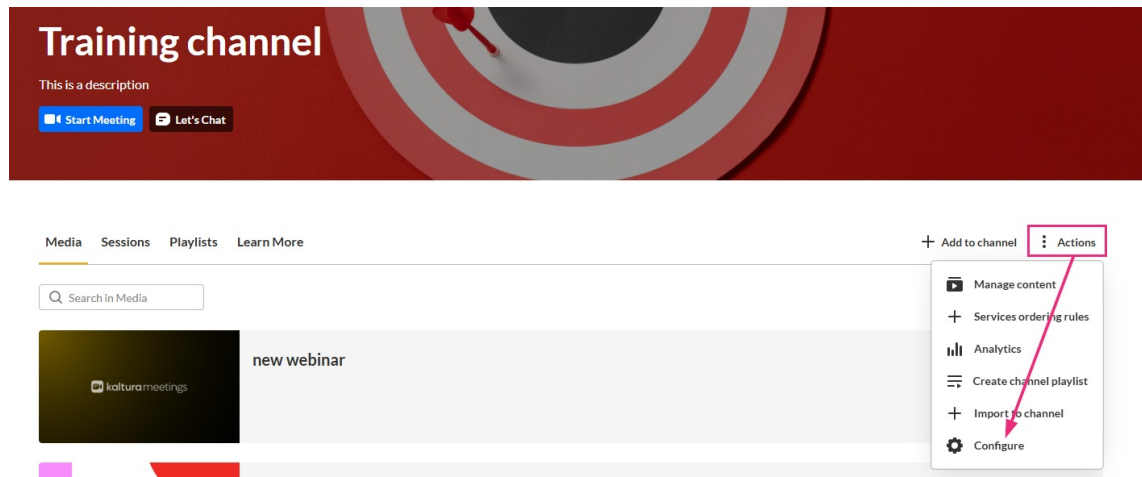

The configure page opens on the **Details** tab by default with a left-hand navigation.
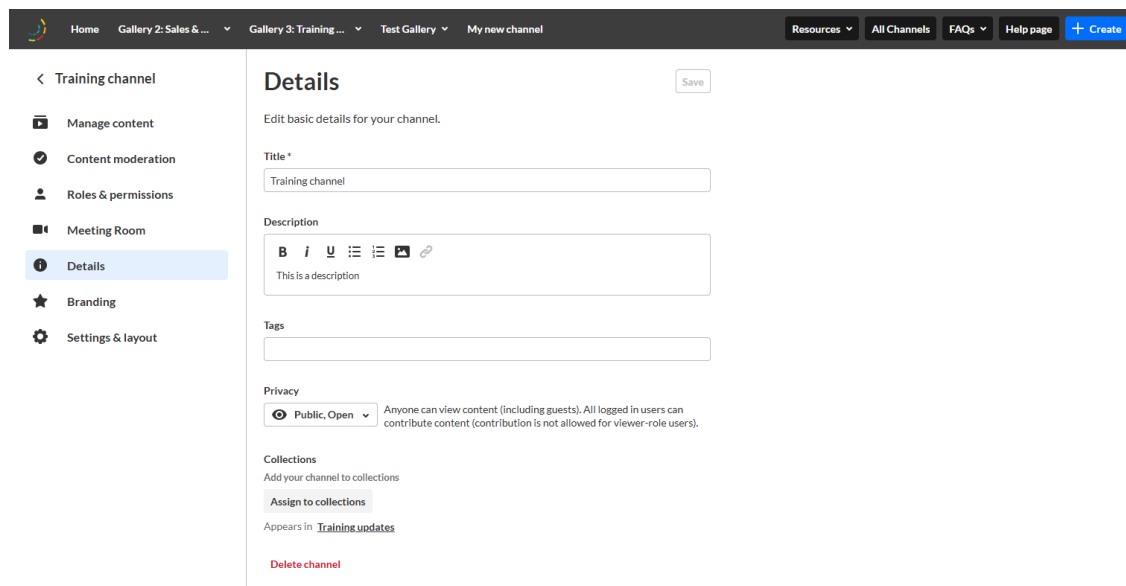

Channel management tabs

Use the tabs in the left-hand navigation to manage different areas of your channel. The available tabs depend on your role and site configuration.

Manage content

Add, remove, and manage the media that appears in your channel from a single, media-focused view.

For the full guide, see Manage channel content.

Content moderation

Review and approve or reject media before it becomes visible in the channel when content moderation is enabled.

For the full guide, see Moderate channel content.

Roles & permissions

Manage who has access to the channel and what they can do by adding users, assigning roles, updating permissions, transferring ownership, and removing access.

For the full guide, see Manage channel users and permissions.

Meeting Room

Enable a meeting room for the channel, choose how participants interact, assign moderators, and control chat and Q&A settings.

For the full guide, see Configure a channel meeting room.

Details

Update the channel title and description, set privacy, assign the channel to collections, and delete the channel if needed.

For the full guide, see Edit channel details.

Branding

Customize how your channel looks at the top of the channel page by adding a banner image, uploading a logo, and setting featured header media.

For the full guide, see Brand your channel.

Settings & layout

Choose a layout, show or hide sections, set the default section, and adjust how media is displayed.

For the full guide, see Configure channel layout and settings.

> ℹ
> - In the current Theming experience, channels can't be added to or removed from galleries from the channel edit page. This capability will be added in a future release.
> - Available tabs and settings depend on your role and admin configuration.
