This article is designated for all users.

About

You can control which sections appear on your gallery page and choose which section opens by default from the **Settings & layout** tab.

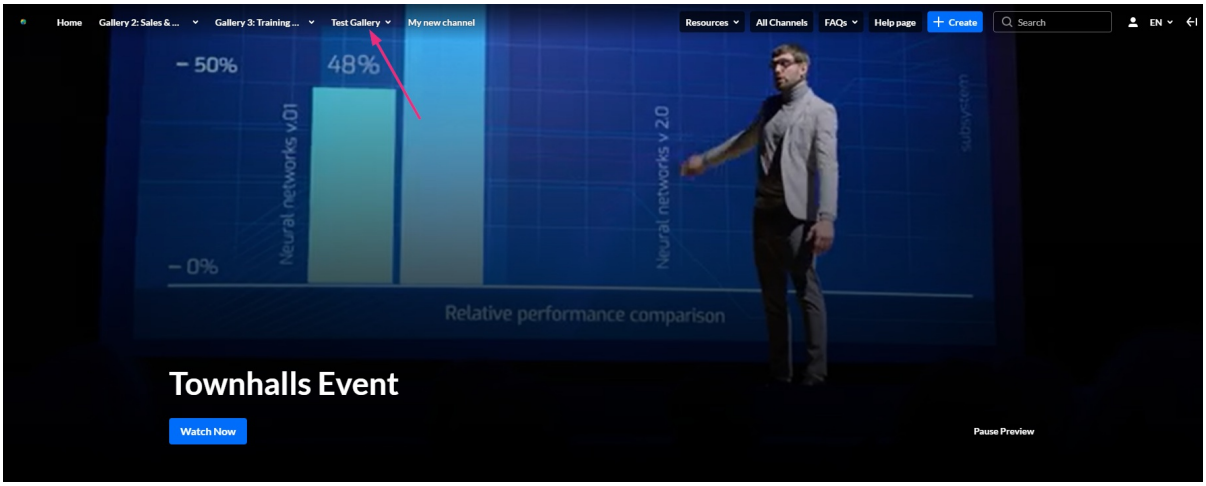

- This feature requires the Theming module to be enabled, with the 'galleryedit' feature set to 'Yes'.
- To configure a gallery-specific player set, the Themingcategory module must be enabled.
- The **Media player override** option is available only when the Themingmedia module is enabled.

Who can use this

- Gallery owners
- Gallery managers

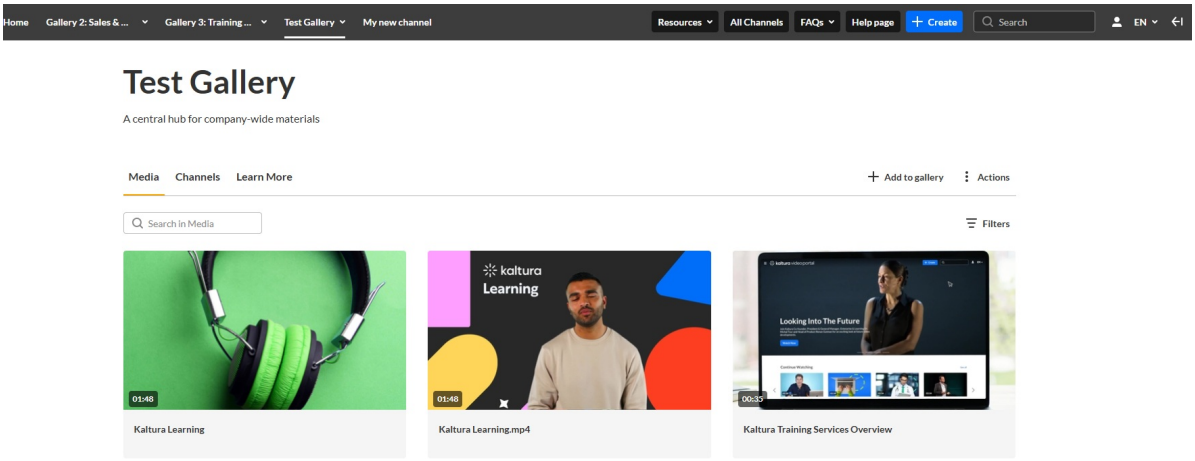

Access the gallery edit page

1. On the top navigation bar, select the gallery you want to access.

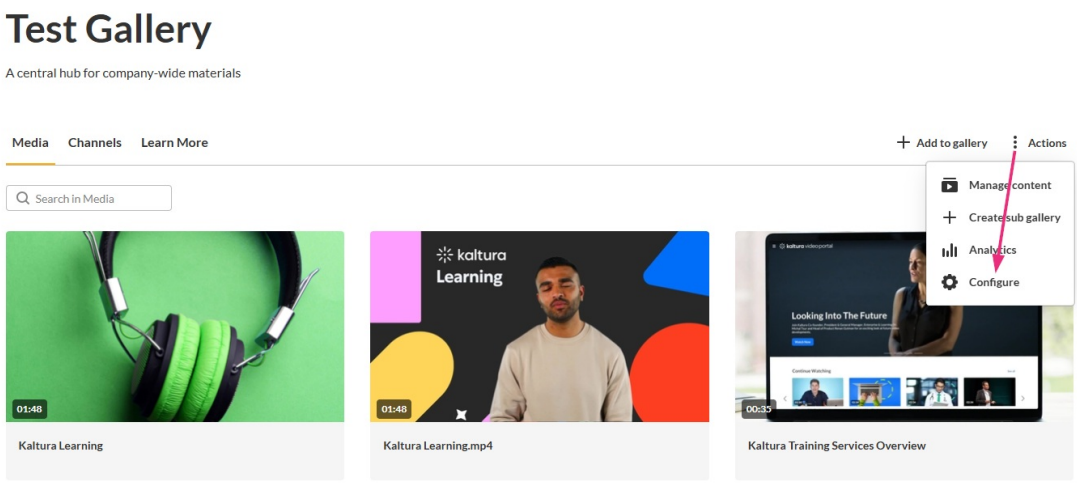

The gallery page opens.

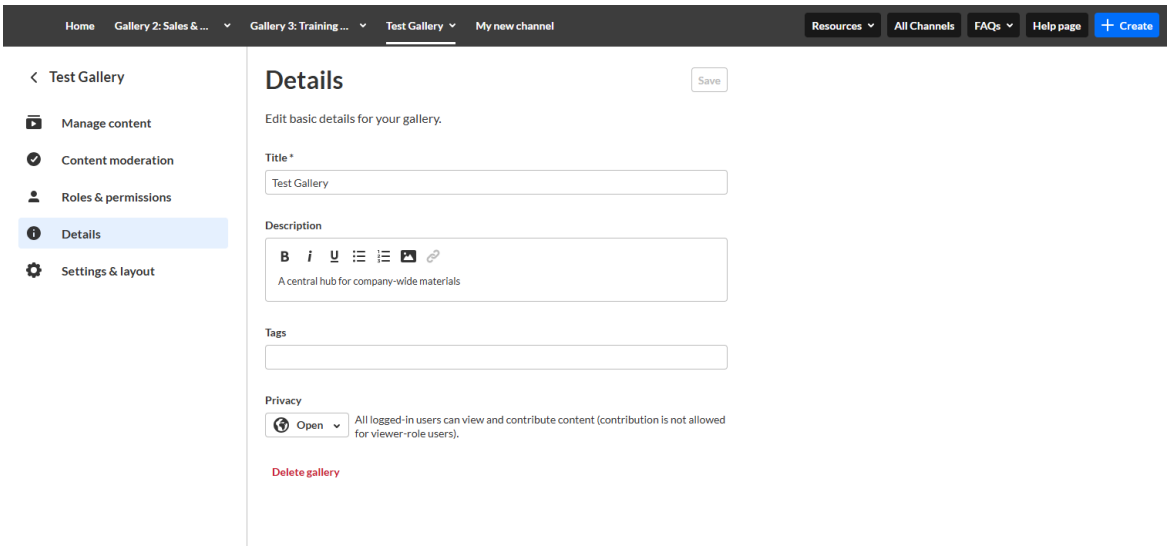

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

2. At the far right, click the **Actions** menu and select **Configure**.

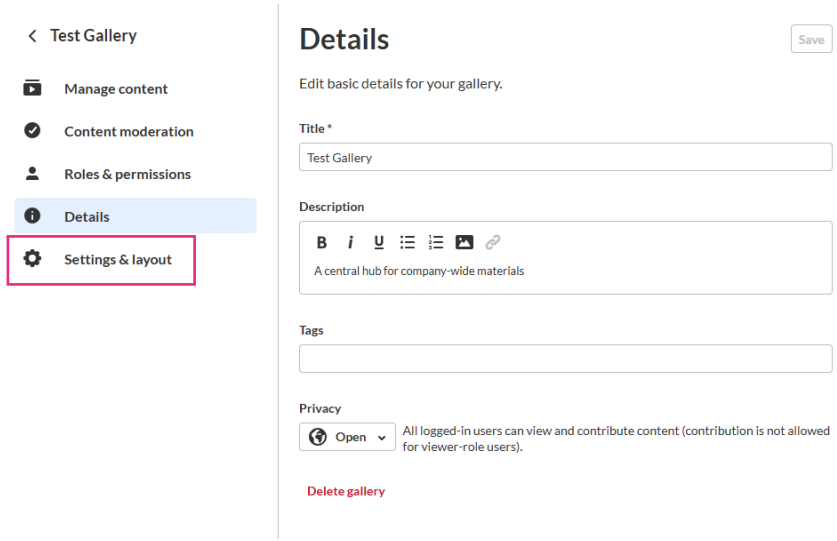

The configure page opens on the **Details** tab by default with a left-hand navigation.

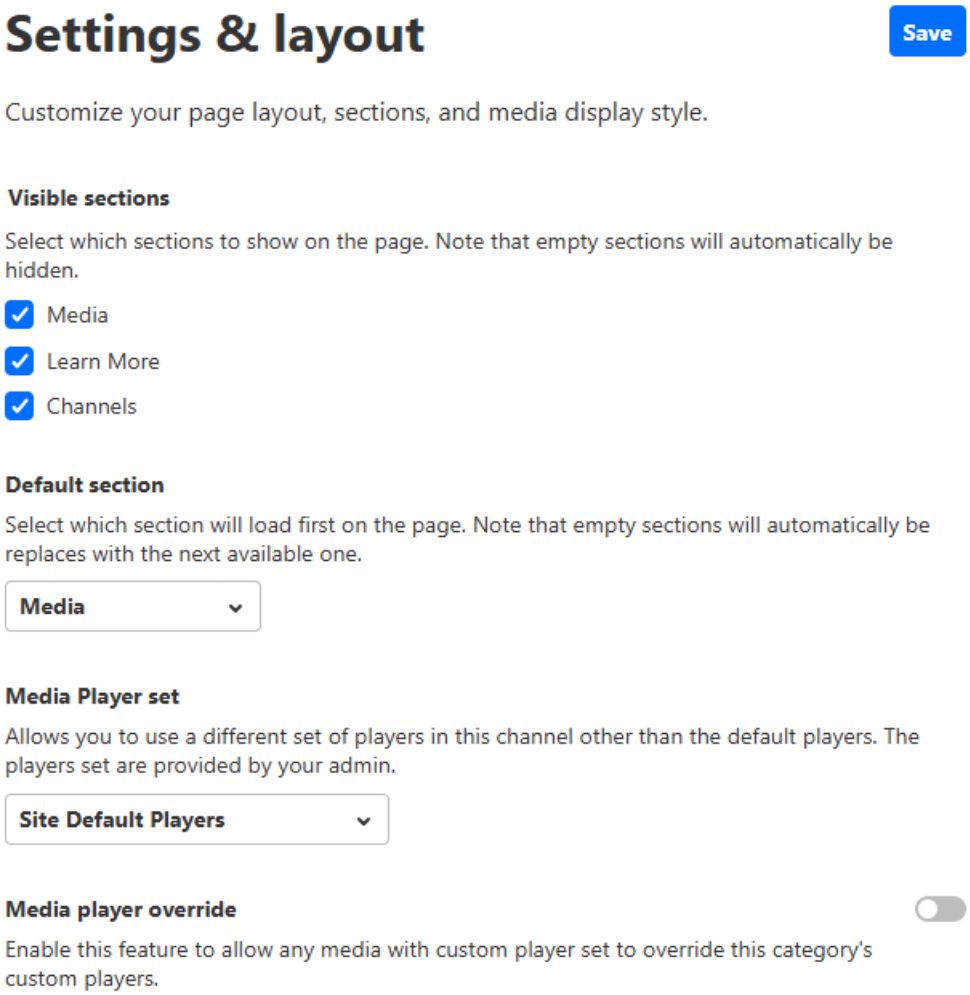

3. In the left navigation panel, click **Settings & layout**.

Available options depend on your role and admin configuration.

Configure settings & layout

Visible sections

Select which sections appear on the gallery page. Available sections include:

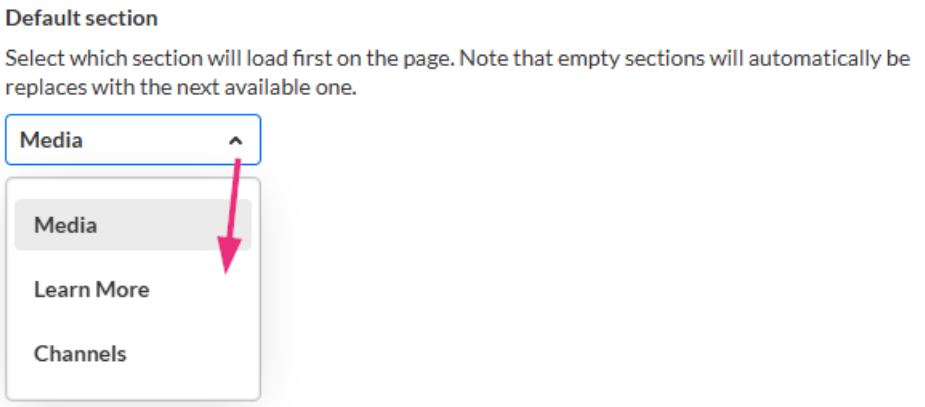

- **Media**
- **Learn More**
- **Channels**

Good to know

- Sections with no content are automatically hidden.
- Hidden sections can be re-enabled at any time.
- If Genie is enabled for your site, you will see a 'Genie' option in the **Visible sections**. For more information, see Add Genie to specific galleries.

Default section

Use **Default section** to choose which section loads first when users open the gallery.

The available options are:

- **Media**
- **Learn More**
- **Channels**

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- **Genie** (if enabled on your site)

Good to know

- The default section must be a visible section (a section may not be visible if it’s turned off, has no content, or isn’t enabled on your site).
- If the selected section has no content, the gallery opens to the next available section automatically.

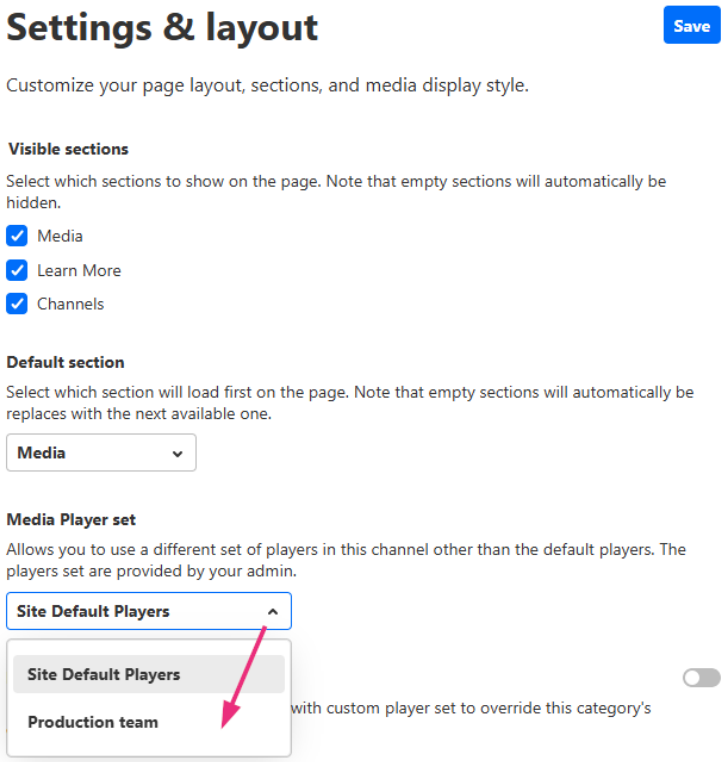

Media player set

The **Media Player set** setting allows you to use a different set of players in this channel. Player sets are configured by your administrator and can contain different players for different media types.

The available options include:

- Site Default players – Uses the site's default players*.
- An administrator-configured player set/s.

*The default players are the players configured from the corresponding modules.

Media player override

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

The Media player override option only appears if the Themingmedia module is enabled.

When **enabled**, media that has its own player set configured uses that player instead of the gallery's selected player set.

When **disabled**, the gallery's selected player set is used for all media in the gallery.
