

Manage content in your media gallery in Canvas - Theming

Last Modified on 01/17/2026 1:02 pm IST

 This article is designated for all users.

About

Use the **Manage content** function to control the media that appears in your media gallery. From this page, you can add media, remove media, organize content, and perform bulk actions - all from a single, media-focused view.

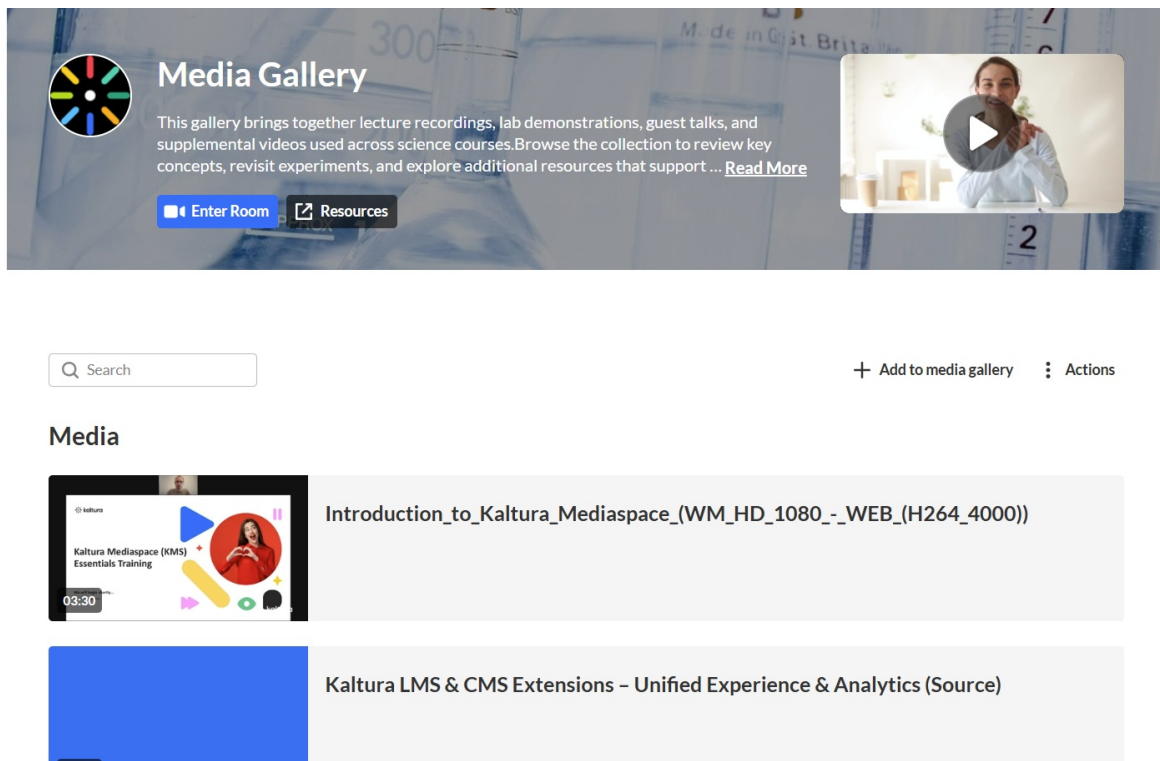

The instructions below are for [Theming](#) users.

Access the Manage Content page

1. Open your course, and click on **Media Gallery**.

The media gallery displays.

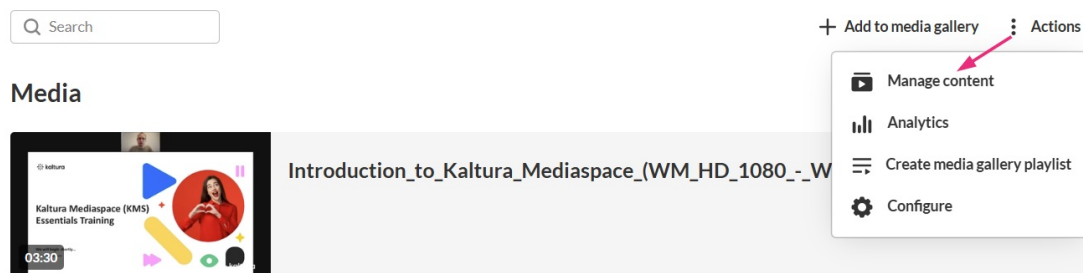

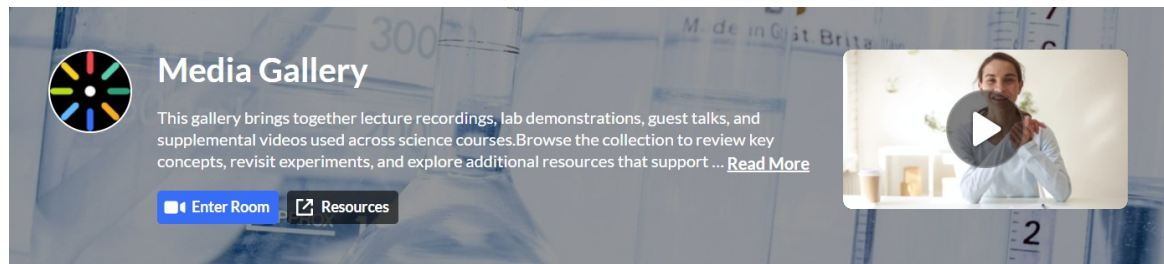

The screenshot shows the Media Gallery interface. At the top, there's a header with the Kaltura logo, the title "Media Gallery", and a description: "This gallery brings together lecture recordings, lab demonstrations, guest talks, and supplemental videos used across science courses. Browse the collection to review key concepts, revisit experiments, and explore additional resources that support ... [Read More](#)". Below the description are two buttons: "Enter Room" and "Resources". To the right is a video thumbnail showing a person holding a large play button.

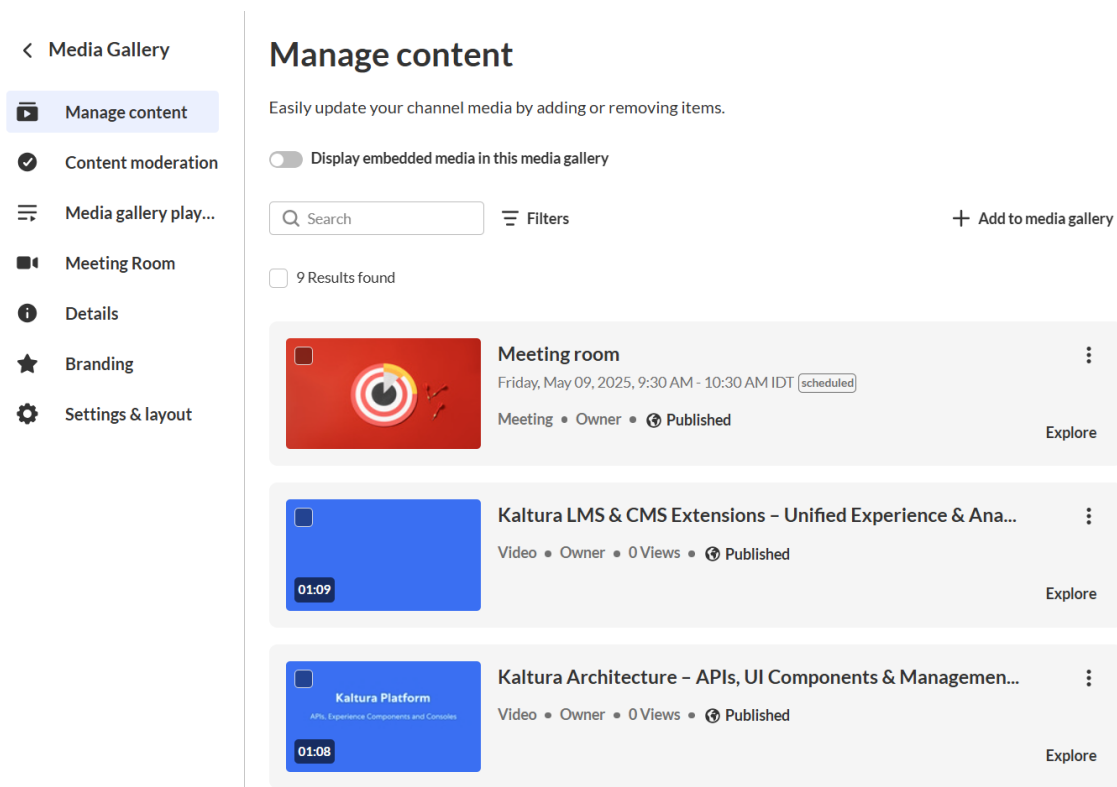

Below the header is a search bar with the placeholder text "Search". To the right of the search bar are two links: "+ Add to media gallery" and "Actions".

Under the "Media" section, there are two video thumbnails. The first one is titled "Introduction_to_Kaltura_Mediaspace_(WM_HD_1080_-_WEB_(H264_4000))" and shows a video player interface. The second one is titled "Kaltura LMS & CMS Extensions - Unified Experience & Analytics (Source)" and shows a blue screen.

2. Click the **Actions** menu at the top right and select **Manage content**.

The 'Manage content' page displays.

Add media to the gallery

Add existing media

1. Click **Add to media gallery** at the far right.

Manage content

Good to know

- Removing media from a media gallery doesn't delete it from the system.
- Available actions depend on your role and admin configuration.
