

Manage content in your media gallery in Moodle

Last Modified on 05/04/2026 10:58 am IDT

 This article is designated for all users.

About

Use the **Manage content** function to control the media that appears in your media gallery. From this page, you can add media, remove media, organize content, and perform bulk actions - all from a single, media-focused view.

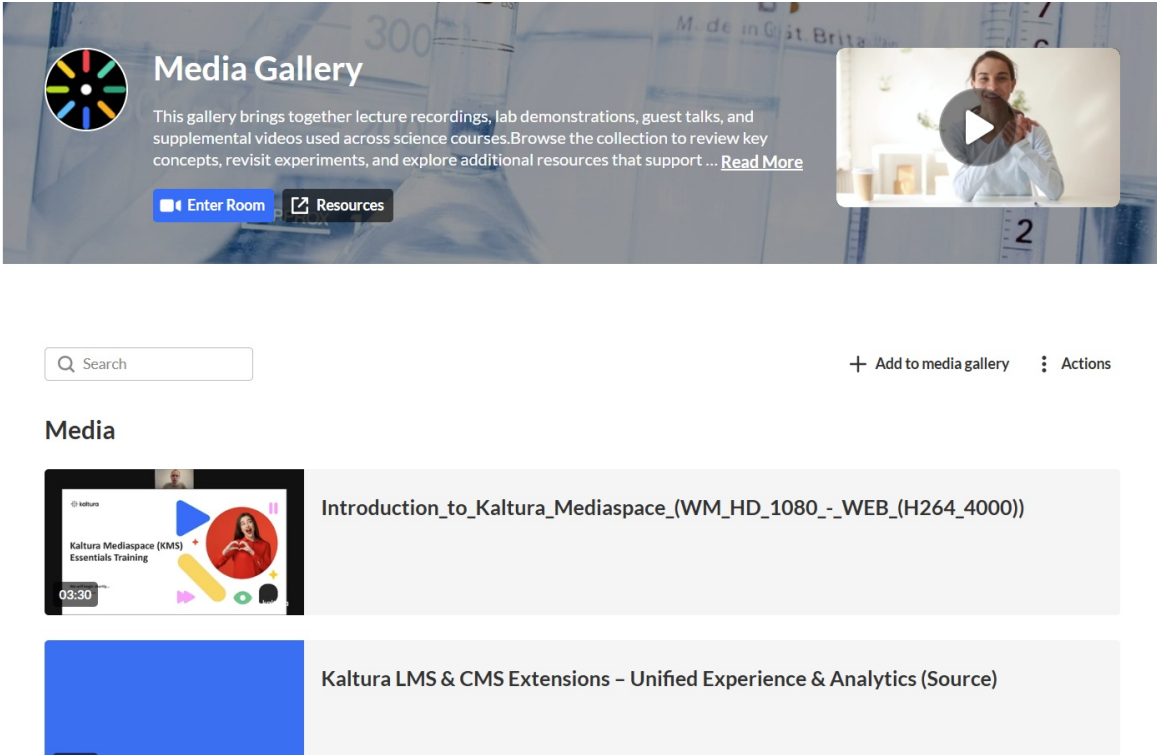

This feature requires the [Theming module](#) to be enabled, with the 'channeledit' feature set to 'Yes'.

Access the Manage Content page

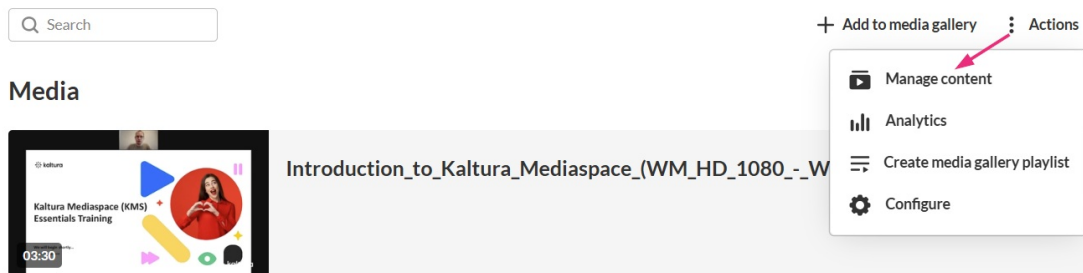

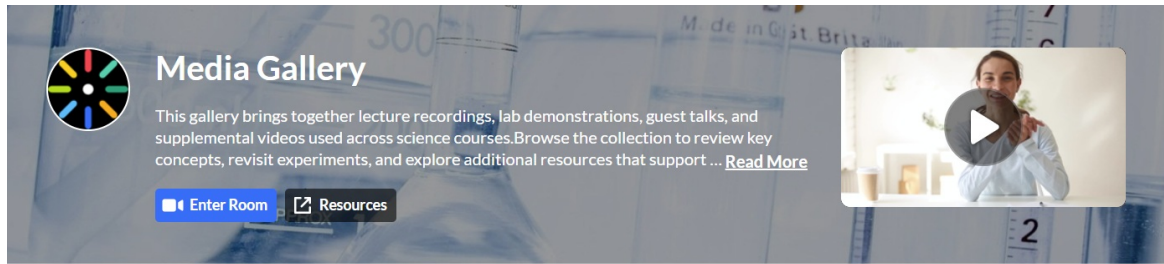

1. Open your course, and click on **Media Gallery**.

The media gallery displays.

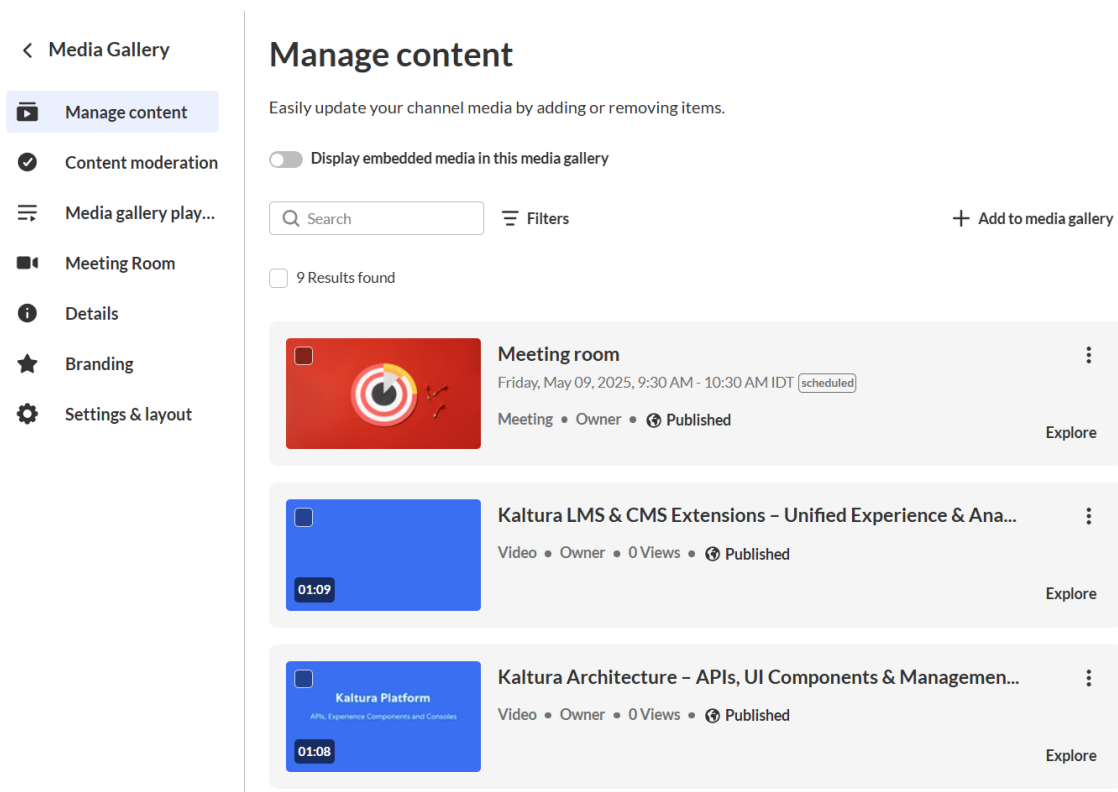

The screenshot shows the Moodle Media Gallery interface. At the top, there is a header with the Kaltura logo, the title "Media Gallery", and a description: "This gallery brings together lecture recordings, lab demonstrations, guest talks, and supplemental videos used across science courses. Browse the collection to review key concepts, revisit experiments, and explore additional resources that support ... [Read More](#)". Below the description are two buttons: "Enter Room" and "Resources". To the right is a video player showing a man speaking. Below the header is a search bar with the text "Search" and a magnifying glass icon. To the right of the search bar are two icons: a plus sign and the text "Add to media gallery", and a vertical ellipsis icon and the text "Actions". Below the search bar is the section "Media". There are two media items listed. The first item has a thumbnail showing a video player with the title "Introduction_to_Kaltura_Mediaspace_(WM_HD_1080_-_WEB_(H264_4000))". The second item has a blue thumbnail and the title "Kaltura LMS & CMS Extensions - Unified Experience & Analytics (Source)".

2. Click the **Actions** menu at the top right and select **Manage content**.

The 'Manage content' page displays.

Add media to the gallery

Add existing media

1. Click **Add to media gallery** at the far right.

Cancel Select

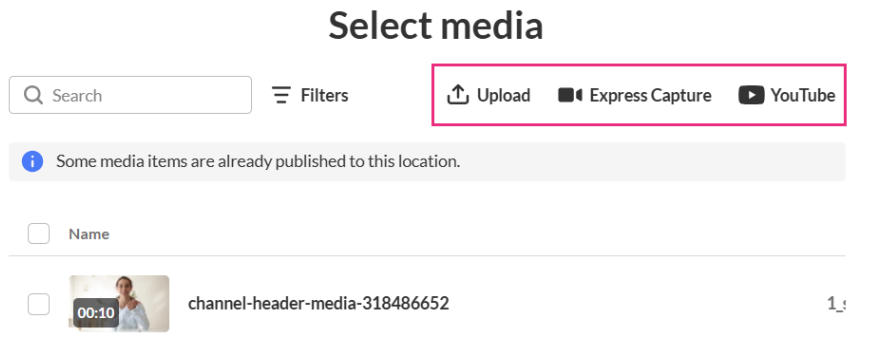

The selected media is added to the channel and appears in the list.

Add new media

Need to upload or record a new video? Use one of the options at the far right:

- **Upload** - Upload one or more files. Wait for uploads to finish before clicking **Save** and **Select**. Visit our article [Upload media](#) for guidance.
- **Express Capture** - Record directly from your webcam. Visit our article [Create a recording with Express Capture](#) for guidance.

- **YouTube** - Link to a YouTube video. Visit our article [Add a YouTube video](#) for guidance.

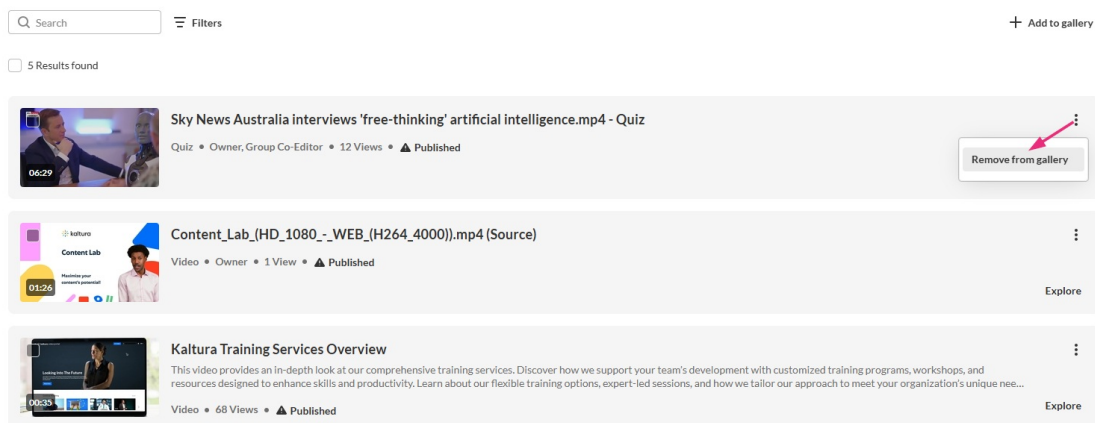

Remove media from a gallery

Remove a single item

1. Click the **three-dot menu** to the right of the item you want to remove, and select **Remove from channel**. (Removing media from the media gallery doesn't delete it from [My Media](#).)

Manage content

Easily update your gallery media by adding or removing items.

A confirmation message displays: *Are you sure you want to remove these items from your channel?*

2. Click **Remove** to continue.

Remove multiple items

1. Check the boxes next to the desired items.
2. Click **Remove from channel** at the top right of the page

✕ Remove from channel

The screenshot shows a media gallery with three items. The first item is a 'Meeting room' scheduled for Friday, May 09, 2025, from 9:30 AM to 10:30 AM IDT. The second and third items are videos: 'Kaltura LMS & CMS Extensions - Unified Experience & Ana...' and 'Kaltura Architecture - APIs, UI Components & Managemen...'. Both video items have a checkmark in a blue box on their left, indicating they are selected. A red box highlights the 'Remove from channel' button for these two items. The 'Add to media gallery' button is also visible above the list.

A confirmation message displays: *Are you sure you want to remove these items from your channel?*

3. Click **Remove** to continue.

Good to know

- Removing media from a media gallery doesn't delete it from the system.
- Available actions depend on your role and admin configuration.
