

Confidential Entry - Admin Guide

Last Modified on 02/10/2026 11:49 pm IST

 This article is designated for administrators.

About

The **Confidentialentry** module allows users to mark content as confidential which prevents publishing of the entry in both KMS and KAF. This functionality is conditionally based on a custom metadata schema. Follow the steps to log into the Configuration Management section and configure the Confidentialentry module.

This module is for both Theming and non-Theming users.

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Before you begin

You may enable and configure the Confidentialentry module **only if** the following conditions are met:

1. A [custom schema](#) is added in the KMC.
2. The Customdata module is enabled and configured.
3. The Entrysaveconfirmation module is enabled and configured.

Configure

1. Log into the Configuration Management console by going to your video portal URL and adding */admin* at the end.
2. Enter your Kaltura [user ID](#) and password.
3. Click **Sign In**.

The Configuration Management console displays.

Application

instanceId	1755361.mediースpace.kaltura.com	Unique string to identify that installation of mediースpace. This value can be set during installation only.
privacyContext	MediaSpace	String used to be set as privacy context on root category. This value can be set during installation only.
userRoleProfile	3503841	Metadata Profile ID for user's role per KMS installation instance
title	Kaltura MediaSpace	What is your MediaSpace website title? The website title is displayed in the browser's title bar and usually is displayed in search engine results. Page titles consist of the name of the currently loaded media and the website title. For example, if a page has a video called 'My Video' and 'MediaSpace' is the website title, the page title is: 'My Video - MediaSpace'
footer	MediaSpace™ <a href="http://corp	What is your MediaSpace footer text? default is: MediaSpace video portal by Kaltura
forceIECompatibilityMode	No	Should MediaSpace force IE to use the latest engine when Compatibility Mode is enabled? By default, if compatibility mode is enabled, Internet Explorer renders the page with IE7's engine. Turning on this option forces Internet Explorer to use the latest rendering engine. For more details, please visit this link .
theme	<input type="button" value="▼"/>	What is the name of your custom MediaSpace theme?

4. In the list of configurable items on the left of your screen, locate and click on Confidentialentry. (The item will be crossed out because it's disabled by default.)

If this module is not in your video portal application, please get in touch with your Kaltura representative to inquire about adding it.

The Confidentialentry window displays.

message	Free text	Dialog body text
cancelButtonText	Free text	Cancel button text
confirmButtonText	Free text	Confirm button text
confidentialEntrySaveMessage	Free text	Confidential entry save confirmation dialog message text.

6. Click **Save**.

You receive a notice that your configuration for Confidentialentry was saved and the cache was cleared.

User Experience

Set media as confidential

1. As part of the upload/edit media process, choose a custom data schema. In our

example below, the user is uploading media.

The screenshot shows the Kaltura 'Upload Media' interface. At the top, there is a navigation bar with a search bar and language selection (EN). The main title is 'Upload Media' with a sub-count '1 Uploading'. Below this, a dashed box indicates where files can be 'Drag and drop files to upload'. A file named 'Product Tour' is shown with a progress bar at 70%. The video thumbnail shows a man smiling. Below the file list are fields for 'Name *' (Product Tour), 'Description' (with rich text editor icons), 'Tags', and 'Custom data - Text list - single Selection' (with a dropdown menu showing 'Select one' and a list of items). The bottom of the interface includes a footer with copyright information: '© 2024 Kaltura, Inc. or its affiliates. All Rights Reserved'.

2. Click on **Private** button.
