About

Dubbing lets you add translated audio tracks to your video. The dubbed voice is generated using **text-to-speech technology**.

For professional (human) dubbing, the script is prepared by a human translator, then voiced using a synthesized voice.

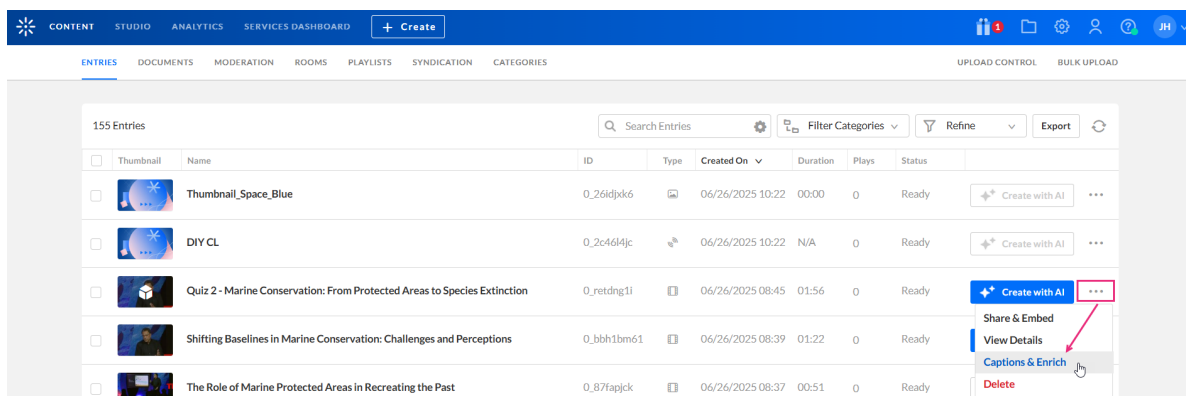

When possible, the system attempts to match the dubbed voice to the speaker's gender, based on the available voices for each supported language.

Want dubbing to be ordered automatically? Check out our article [Create captioning & enrichment rules in KMC](#).

Access the captions & enrich page

1. Log into your KMC.
The **Entries** page displays.
2. Locate the desired media and click the the **three dots menu** to the right, then select **Captions & Enrich**.

The **Captions & Enrich** page displays.

Order Captions & Enrichment Services - 1 Selected Media

Service:	Source Media Language:
Machine	English
Feature:	
Captions	
<div>Cancel</div> <div>Submit</div>	

3. Complete the fields as follows:

- **Service** - Select **Machine** or **Professional**.
- **Source media language** - Select the source media language from the drop-down menu (this is the spoken language in the video). The options in the menu are dependent on your [Reach plan](#).
- **Feature** - Select **Dubbing**.
- **Target translation language** - Choose the language you want the dubbed audio in.

4. Click **Submit**.

Feature:	Target Translation Language:
Dubbing	Spanish
<div>Submit</div>	

A confirmation message displays: *Your request has been received. Your video will automatically be updated upon completion.*

Your order is listed in the 'Reach captions & enrich' window.

You will receive a notification once the order is complete.

Notifications must be enabled by the system administrator.

User experience

Once the dubbing is complete, the new audio track is added to the player's audio menu. Click the **settings (gear) icon** on the bottom right of the player to select the audio track.
