

Manage SAML profiles in KMC

Last Modified on 02/17/2026 4:21 pm IST

 This article is designated for administrators.

About

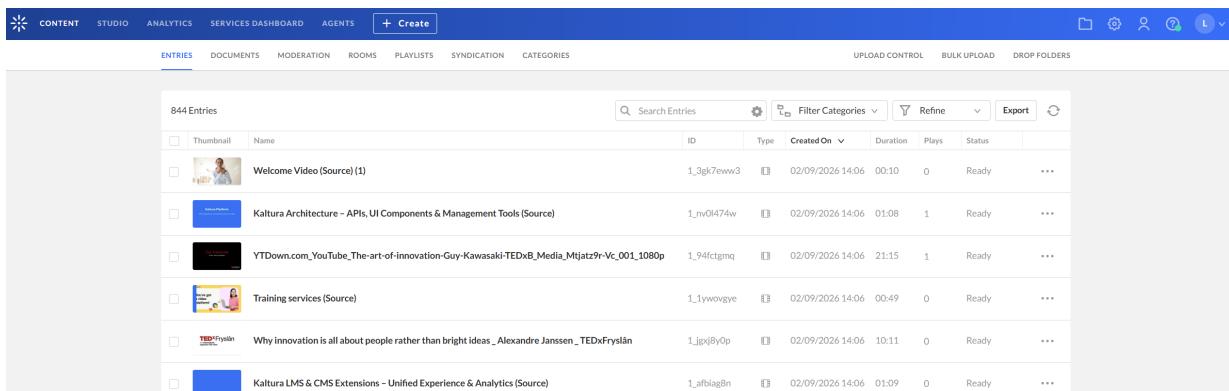

This article explains how to view, edit, and delete SAML profiles in the Kaltura Management Console (KMC).

SAML profiles connect Kaltura to your Identity Provider (IdP) and enable single sign-on (SSO). Use this page to monitor profile status and manage existing configurations.

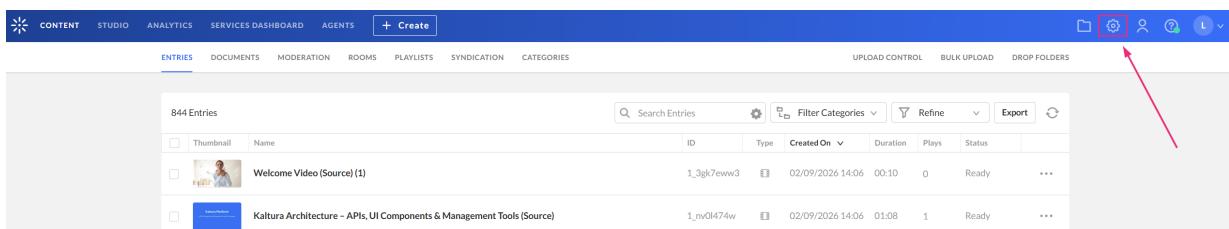

Access the SAML profiles page

1. Log into your KMC.

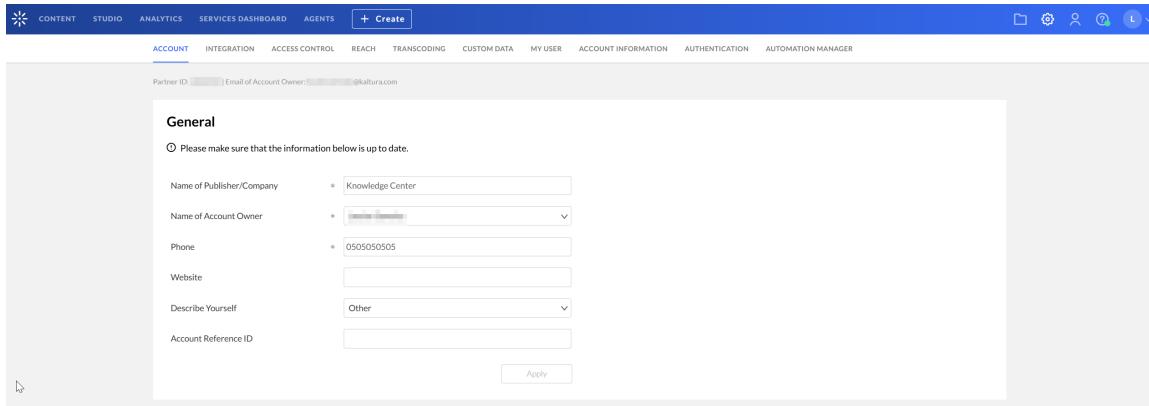

The **Entries** page displays by default.

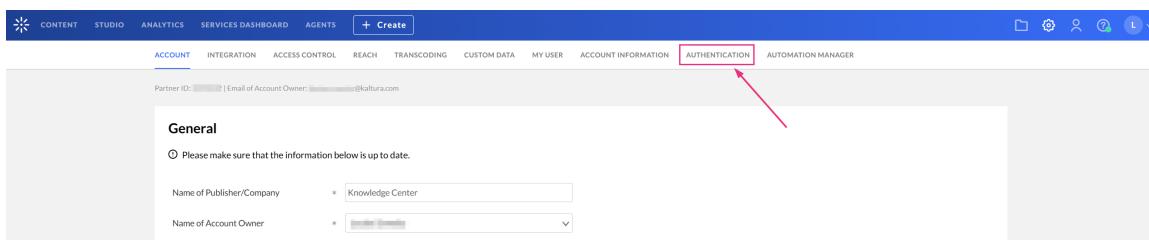

2. Click the **settings (gear)** icon at the top right of the page.

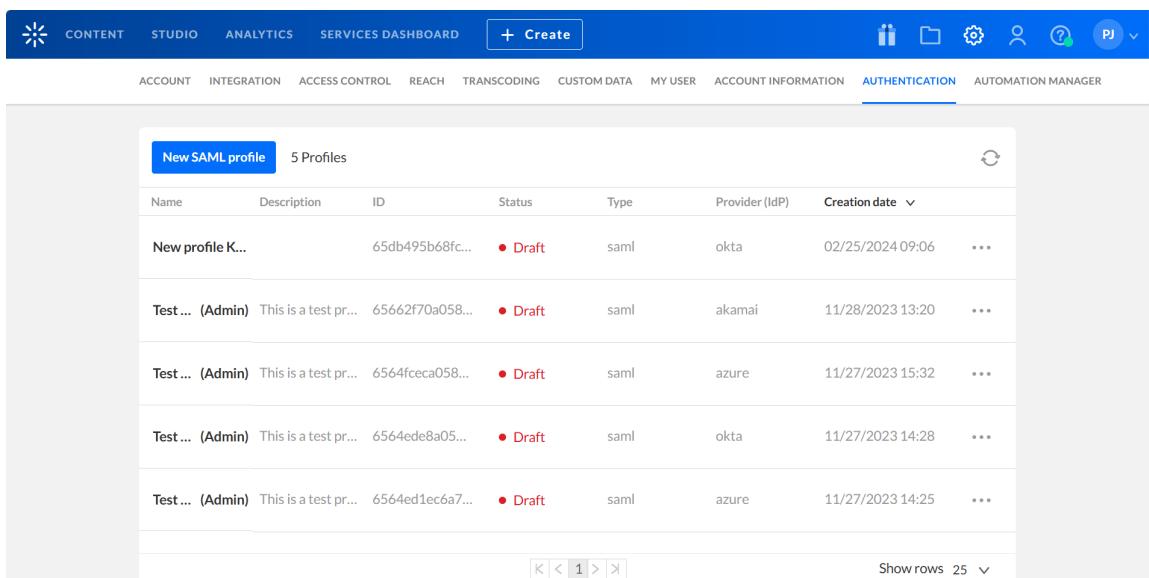

The 'Account' settings page displays.

3. Click the **Authentication** tab at the top right.

The 'SAML profiles' page displays.

Name	Description	ID	Status	Type	Provider (IdP)	Creation date
New profile K...		65db495b68fc...	● Draft	saml	okta	02/25/2024 09:06
Test ... (Admin)	This is a test pr...	65662f70a058...	● Draft	saml	akamai	11/28/2023 13:20
Test ... (Admin)	This is a test pr...	6564fceca058...	● Draft	saml	azure	11/27/2023 15:32
Test ... (Admin)	This is a test pr...	6564ede8a05...	● Draft	saml	okta	11/27/2023 14:28
Test ... (Admin)	This is a test pr...	6564ed1ec6a7...	● Draft	saml	azure	11/27/2023 14:25

If no profiles exist, the list is empty and reads "No Results".

View SAML profiles

The SAML profiles page displays all configured profiles. The following columns are displayed:

- **Name** – Profile name
- **Description** – Profile description

- **ID** – Automatically generated profile ID
- **Status** – Draft or Ready
- **Type** – Authentication type
- **Provider (IdP)** – Selected provider
- **Creation date** – Date created (sortable)

You can sort profiles by clicking the Creation date column.

Understanding *draft* and *ready* status

A profile can have one of the following statuses:

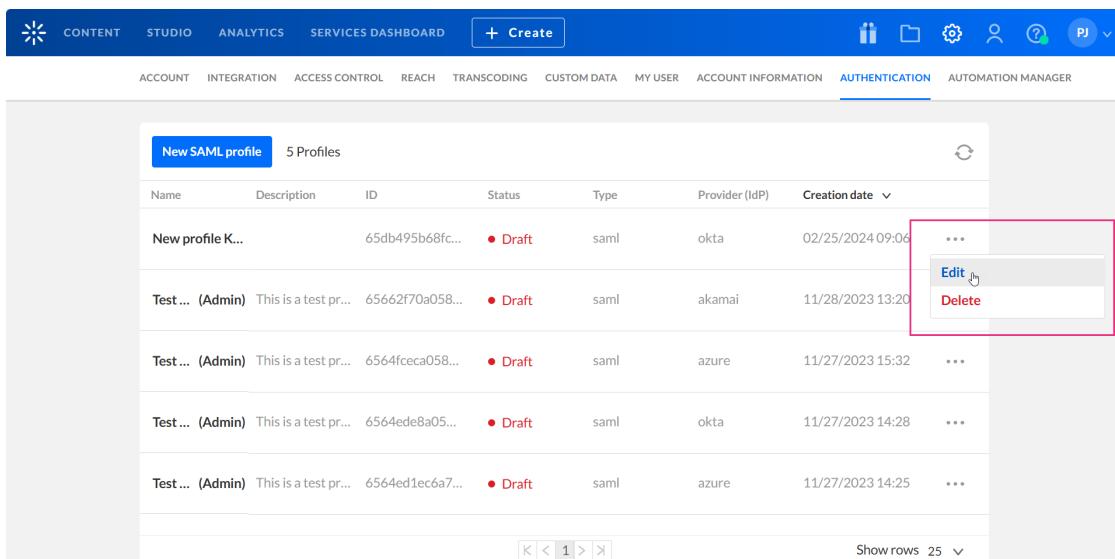

- *Draft* – One or more required fields are missing.
- *Ready* – All required fields are populated.

Required fields include:

- Name
- Entity ID
- Login URL
- IdP certificate
- Core_User_Email attribute mapping

Edit a SAML profile

1. Click the **three dots** to the right of the relevant SAML profile and select **Edit**.

The screenshot shows the Kaltura 'Edit profile' page. At the top, there is a navigation bar with links for CONTENT, STUDIO, ANALYTICS, SERVICES DASHBOARD, and AUTHENTICATION (which is underlined). Below the navigation bar is a sub-navigation bar with links for ACCOUNT, INTEGRATION, ACCESS CONTROL, REACH, TRANSCODING, CUSTOM DATA, MY USER, ACCOUNT INFORMATION, AUTHENTICATION, and AUTOMATION MANAGER. The AUTHENTICATION link is underlined. The main content area is titled 'New SAML profile' and shows '5 Profiles'. A table lists the profiles with columns for Name, Description, ID, Status, Type, Provider (IdP), and Creation date. The 'Test ... (Admin)' profile is selected, and a context menu is open over it, showing 'Edit' and 'Delete' options. The 'Edit' option is highlighted with a blue box and a cursor icon.

Name	Description	ID	Status	Type	Provider (IdP)	Creation date	Actions
New profile K...		65db495b68fc...	● Draft	saml	okta	02/25/2024 09:06	...
Test ... (Admin)	This is a test pr...	65662f70a058...	● Draft	saml	akamai	11/28/2023 13:20	...
Test ... (Admin)	This is a test pr...	6564fceca05...	● Draft	saml	azure	11/27/2023 15:32	...

K < 1 > Show rows 25

A confirmation message displays asking you to confirm your action.

Delete profile

Are you sure you want to delete the selected profile?
"Test Profile C"

To confirm, type "Test Profile C" in the box below

Profile name

[Cancel](#)

[Delete this profile](#)

2. To confirm, type the profile name in the Profile name field.

The name must be typed exactly as it is shown in the KMC. Only then will the **Delete this profile** button be enabled.

3. Click **Delete this profile**. The profile is deleted from the KMC.
