About

This article explains how to view, edit, and delete SAML profiles in the Rich Media Content Management System (Rich Media CMS).

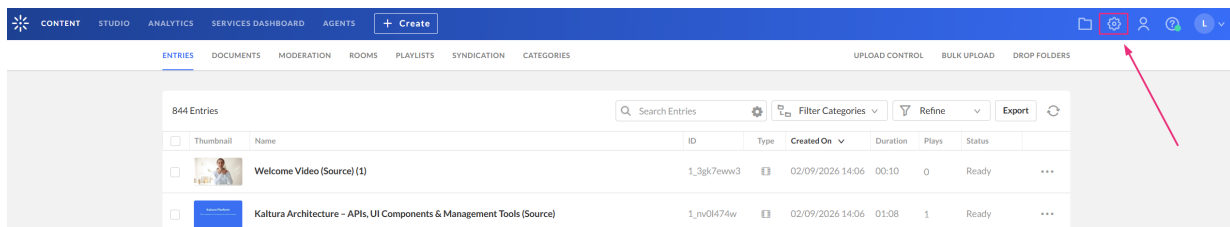

SAML profiles connect Kaltura to your Identity Provider (IdP) and enable single sign-on (SSO). Use this page to monitor profile status and manage existing configurations.

Access the SAML profiles page

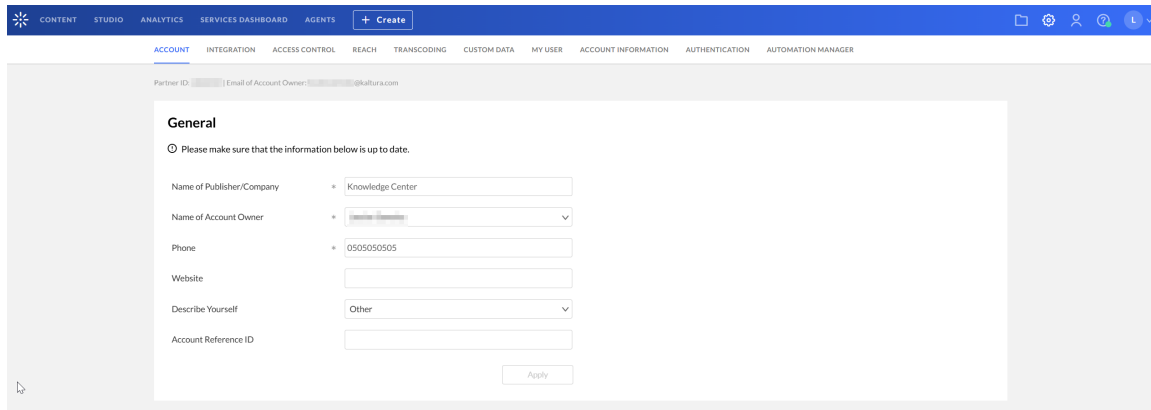

1. Log into your Rich Media CMS.
The **Entries** page displays by default.

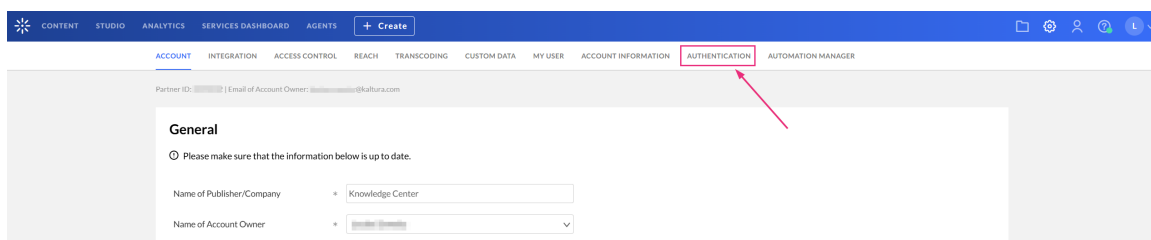

2. Click the **settings (gear) icon** at the top right of the page.

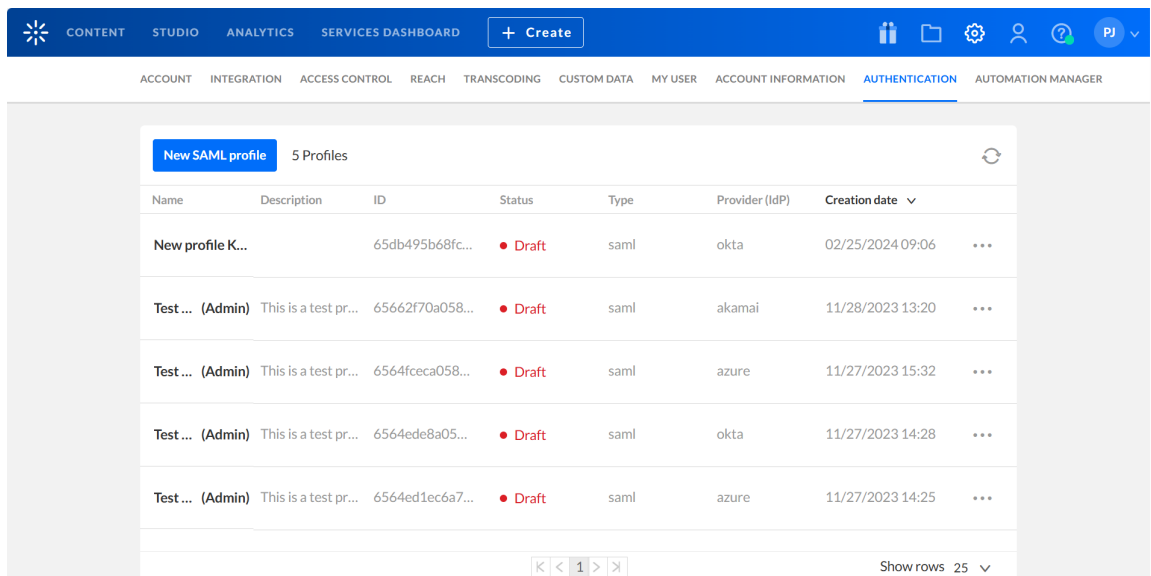

The 'Account' settings page displays.

3. Click the **Authentication** tab at the top right.

The 'SAML profiles' page displays.

If no profiles exist, the list is empty and reads "No Results".

View SAML profiles

The SAML profiles page displays all configured profiles. The following columns are displayed:

- **Name** – Profile name
- **Description** – Profile description

- **ID** – Automatically generated profile ID
- **Status** – Draft or Ready
- **Type** – Authentication type
- **Provider (IdP)** – Selected provider
- **Creation date** – Date created (sortable)

You can sort profiles by clicking the Creation date column.

Understanding *draft* and *ready* status

A profile can have one of the following statuses:

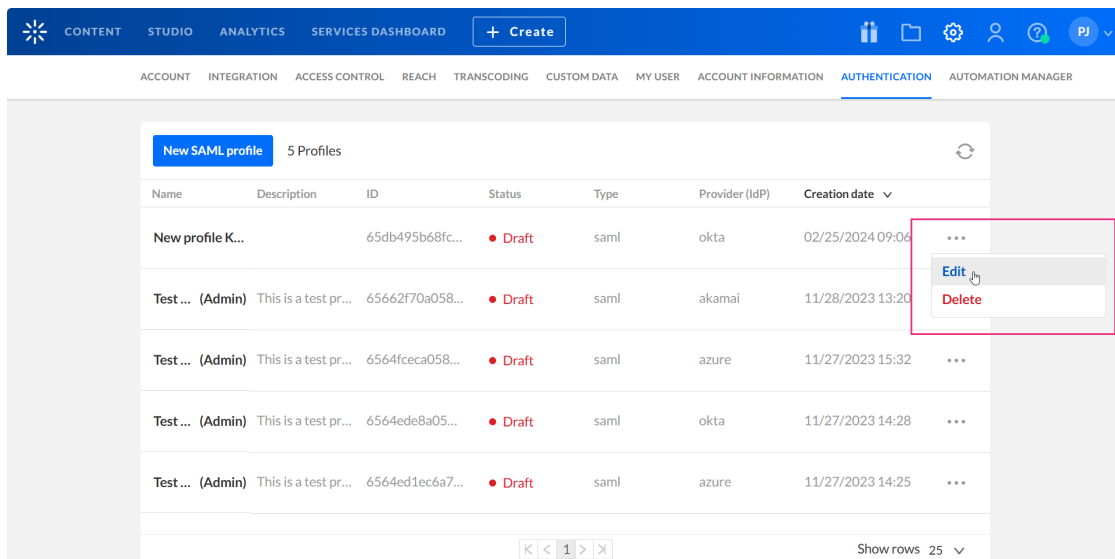

- *Draft* – One or more required fields are missing.
- *Ready* – All required fields are populated.

Required fields include:

- Name
- Entity ID
- Login URL
- IdP certificate
- Core_User_Email attribute mapping

Edit a SAML profile

1. Click the **three dots** to the right of the relevant SAML profile and select **Edit**.

The 'Edit profile' page displays.

Edit profile Cancel

For instructions on how to configure a new SSO profile visit our [SSO profile configuration guide](#)

A confirmation message displays asking you to confirm your action.

Delete profile

Are you sure you want to delete the selected profile?
"Test Profile C"

To confirm, type "Test Profile C" in the box below

2. To confirm, type the profile name in the Profile name field.

The name must be typed exactly as it is shown in the Rich Media CMS. Only then will the **Delete this profile** button be enabled.

3. Click **Delete this profile**. The profile is deleted from the Rich Media CMS.
