About

You can modify moderation settings through the player's Advanced Settings. This configuration is not exposed in the standard Player Studio interface.

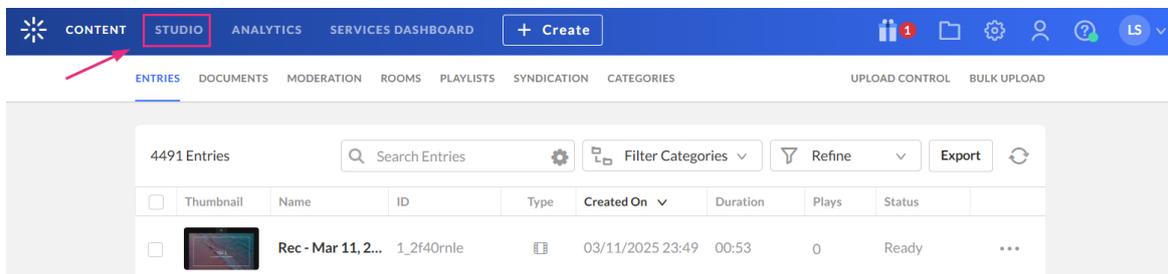

Use this setting to adjust how moderation behaves in the player.

 **Content moderation** must first be enabled in the player settings.

Access the advanced settings

VOD **AUDIO** **REELS**

1. Log in to your Rich Media CMS and click the **Studio** tab.

The **Player Studio** page displays.

2. Click the player you want to edit from the list (or use the search bar in the top right).

If you haven't created a player yet, check out our article [Create a player](#) for guidance.
