

Templatized Embed Code - User Guide

Last Modified on 03/05/2026 8:38 pm IST

 This article is designated for all users.

About

This guide will show you how to share video entries using a customized embed code.

This guide is for both Theming and non-Theming users.

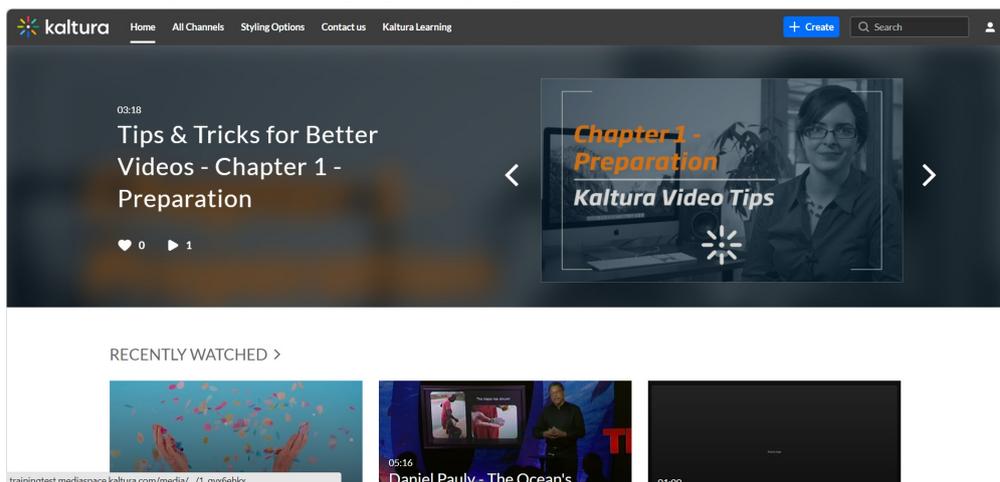

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Copy the customized embed code from video portal content

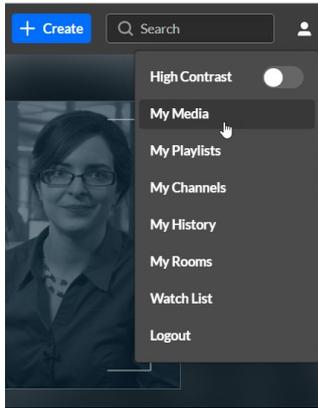

Theming users:

1. Log into your video portal. If you need help, follow the instructions in our article [Log into your video portal](#).

The video portal homepage displays.

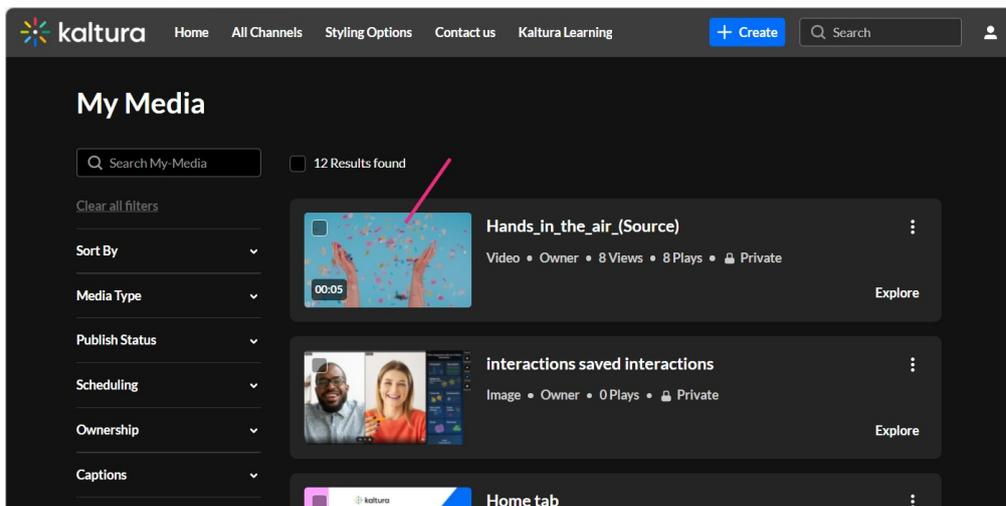

2. On the homepage of the video portal, choose **My Media** from the user drop-down menu.

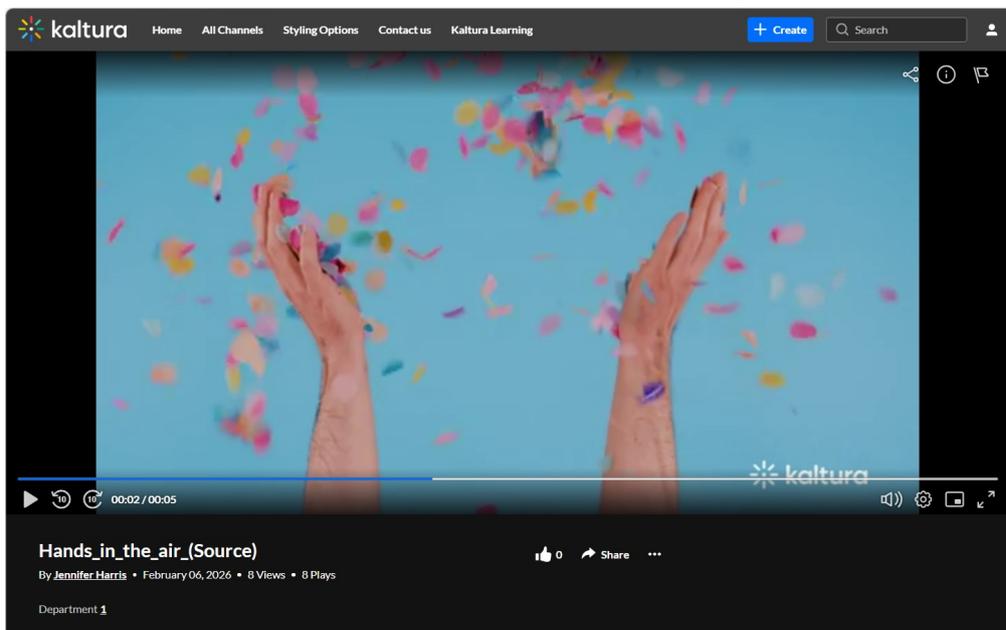

The **My Media** page displays.

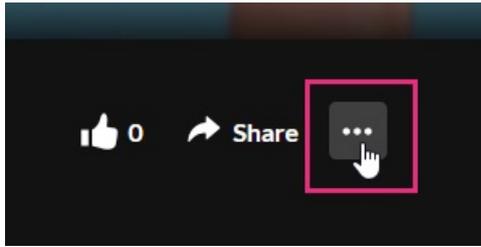

3. Click on the thumbnail or name of the desired media.

The entry page displays.

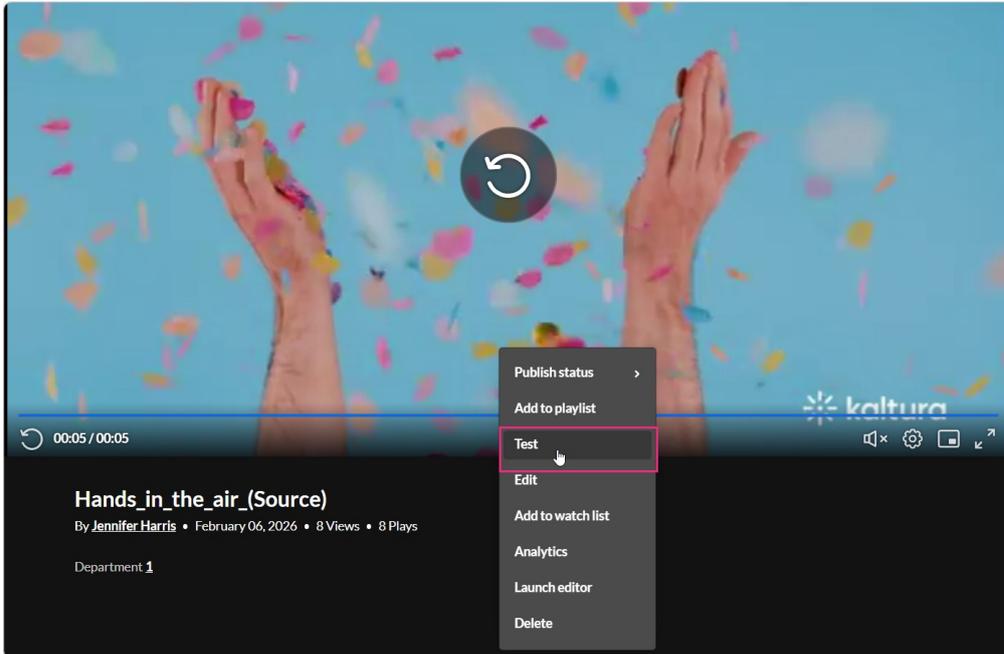

4. Below the media, click on the three-dot action button.

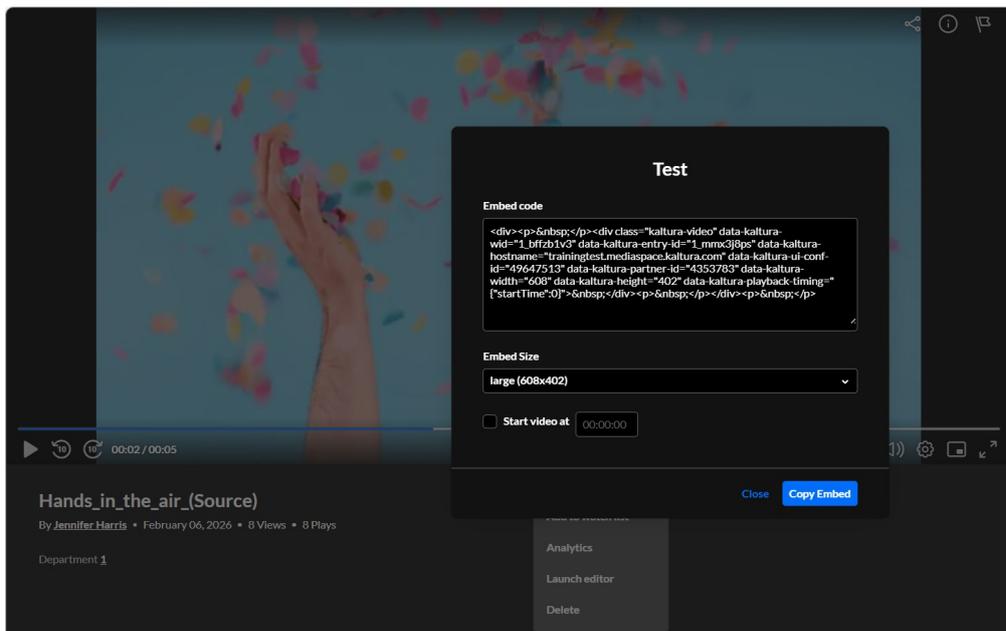

A pull-down list displays.

5. Choose the **Templatized Embed Code** tab (the tab's name is set by your administrator, but in our example below it's called "Test").

A new screen pops up.

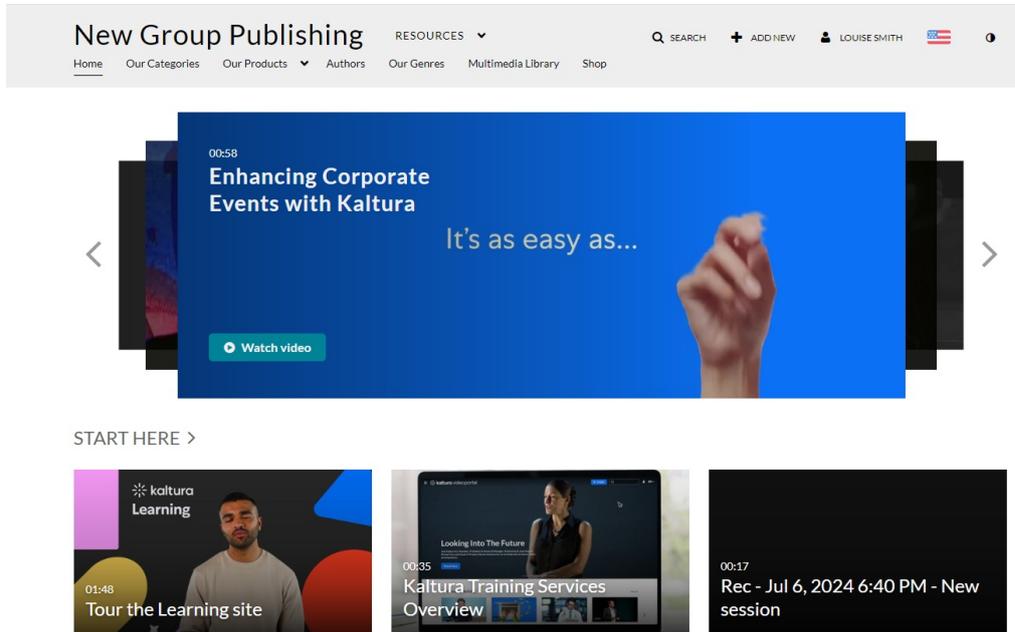

6. Choose the desired Embed Size, then click the **Copy Embed** button.

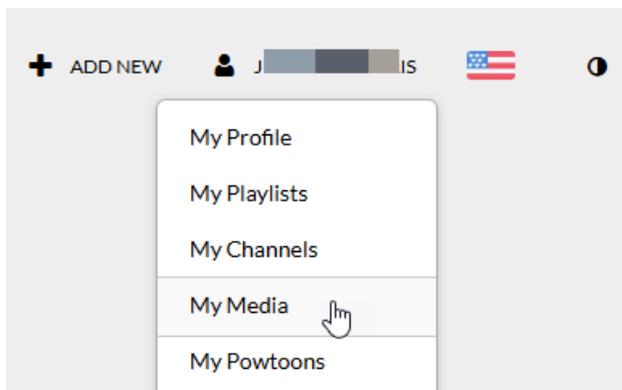

Non-Theming users:

1. Log into your video portal. If you need help, follow the instructions in our article [Log into your video portal](#).

The video portal homepage displays.

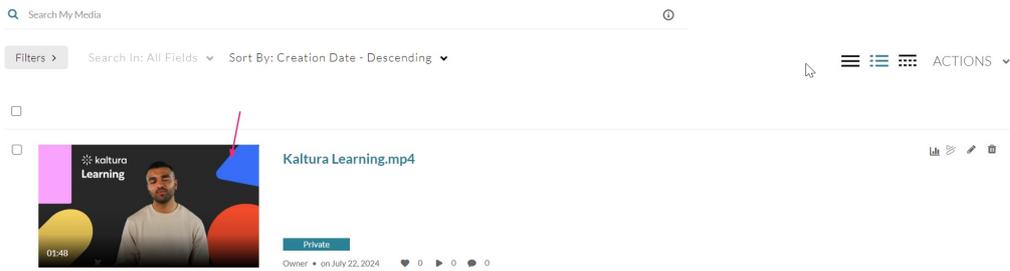

2. On the homepage of the video portal, choose **My Media** from the user drop-down menu.

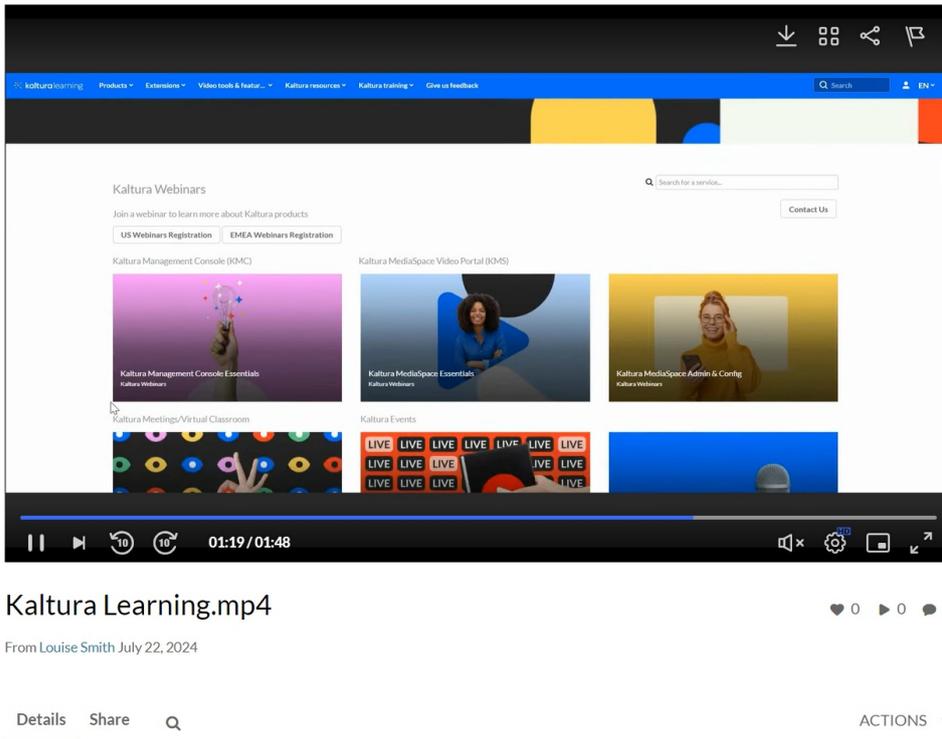

The **My Media** page displays.

3. Click on the thumbnail or name of the desired media.

My Media

The entry page displays.

4. Below the media, click on the **Share** tab, then click on the **Templatized Embed Code** tab (the tab's name is set by your administrator, but in our example below it's called "Test").
