

Create a video assignment in Moodle

Last Modified on 03/16/2026 12:25 pm IST

 This article is designated for faculty members.

About

You can create a video assignment in Moodle using the standard assignment activity and enabling Kaltura Media as a submission type.

This method allows students to submit videos from their **My Media** library or upload new media through Kaltura.

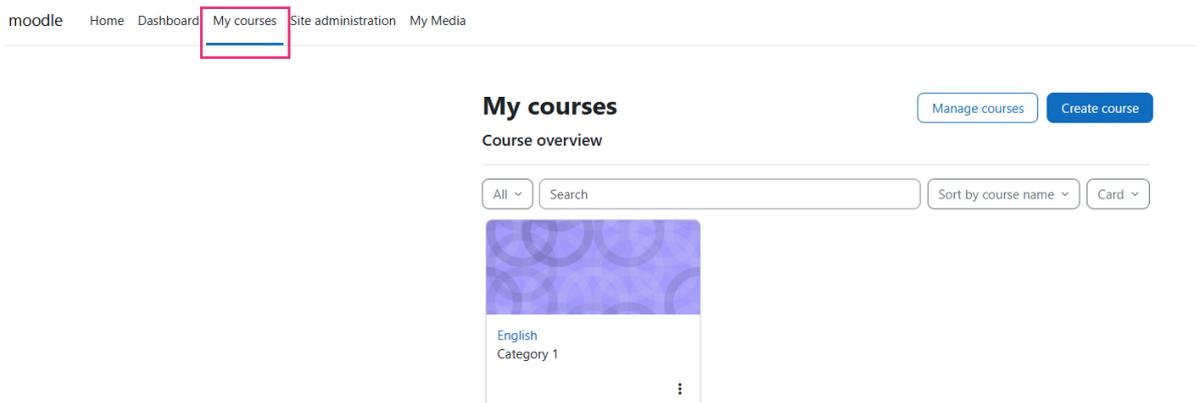

- This workflow uses Moodle's built-in assignment activity. If your course uses the legacy Kaltura Media Assignment activity, please see [Create a Kaltura Media Assignment](#) instead.
- For administrator setup instructions, see [Set up Kaltura's media assignment tool for Moodle](#).

Create an assignment

There are several ways to add an activity in Moodle depending on your course layout and configuration. The workflow shown in this article is provided for demonstration purposes only.

1. Open the **My courses** page.

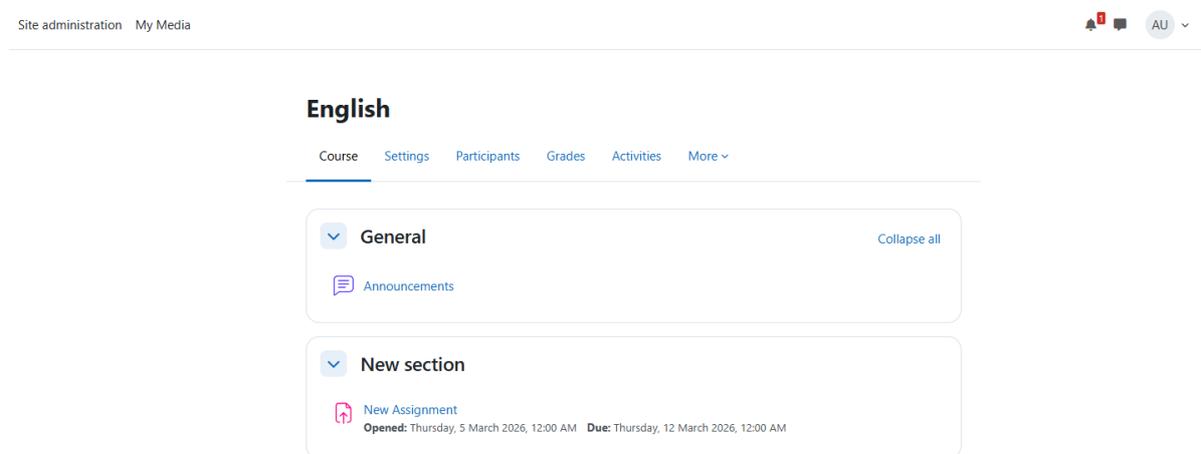

The screenshot shows the Moodle navigation menu at the top with 'My courses' highlighted in a red box. Below the menu, the 'My courses' page is displayed. It features a title 'My courses' and two buttons: 'Manage courses' and 'Create course'. Underneath, there is a 'Course overview' section with a search bar, a dropdown menu set to 'All', and a 'Sort by course name' dropdown. A single course card is visible, titled 'English Category 1' with a blue background image.

2. Click on the course where you want to create the assignment.

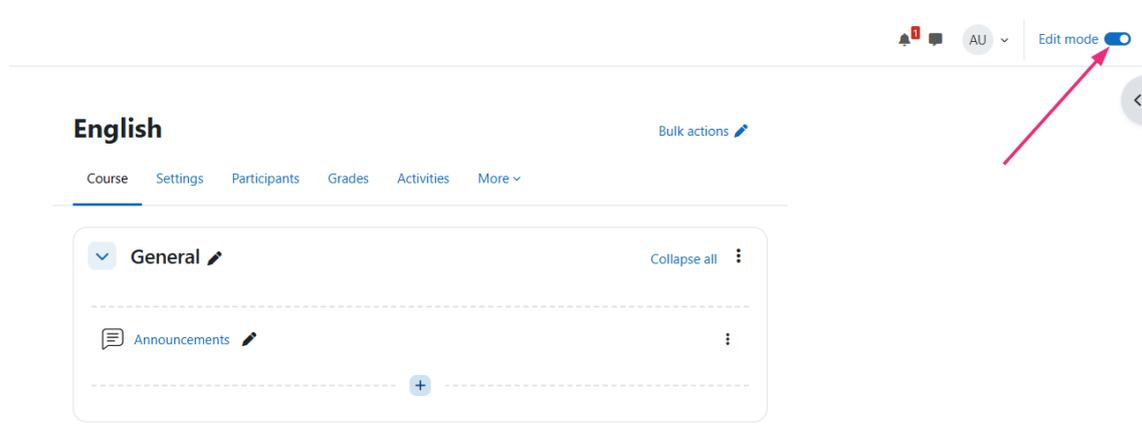

The course page displays.

 Your course page may look different from the example shown, depending on its structure (e.g., organized by topic, date, or other formats).

3. At the top right of the page, click **Edit mode** to enable it.

4. Locate the section where you want to add the assignment, click the **+** icon and select **+Add an activity or resource.**

7. Enter a name and description for the assignment.
8. Scroll down to the **Submission types** section and select the box next to **Kaltura media**.

If your administrator configured **Kaltura Media** as a default submission type, this option may already be selected.

New Video Assignment Due: Monday, 16 March 2026, 12:00 AM

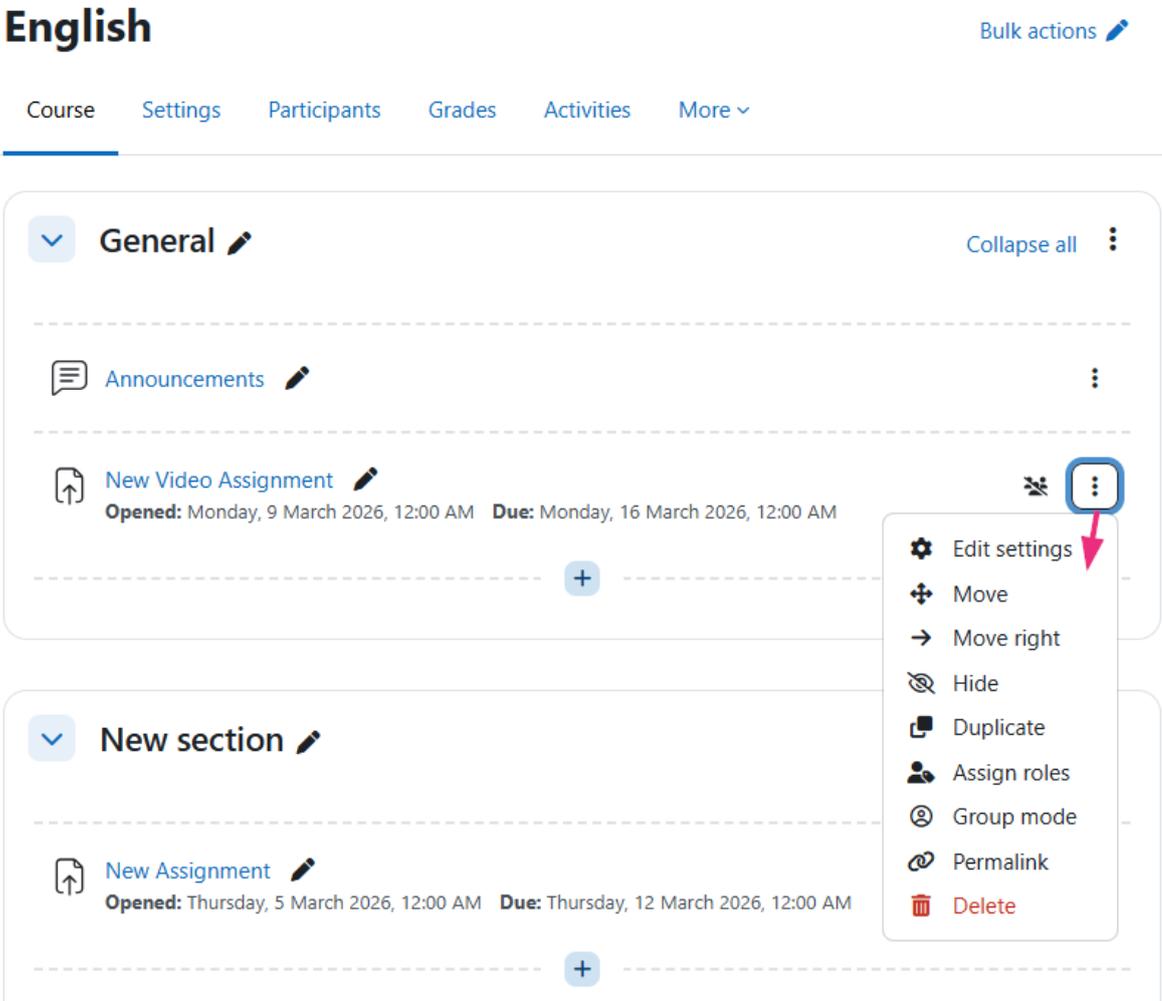

+

Now students can submit videos, and you can review and grade them based on your assignment settings. The submitted video will not appear in **My Media**.

Edit an existing media assignment

If you need to update the assignment after publishing:

1. Find the assignment on your course page.
2. Ensure Edit mode is on (see [step 3 above](#)).
3. Click the **three-dot menu** next to the assignment and select **Edit settings**.

The screenshot shows the 'English' course page with a navigation bar containing 'Course', 'Settings', 'Participants', 'Grades', 'Activities', and 'More'. Below the navigation bar, there are two main sections: 'General' and 'New section'. The 'General' section contains 'Announcements' and 'New Video Assignment'. The 'New Video Assignment' is selected, and its context menu is open, showing options: 'Edit settings', 'Move', 'Move right', 'Hide', 'Duplicate', 'Assign roles', 'Group mode', 'Permalink', and 'Delete'. A red arrow points to the 'Edit settings' option.

When you're done editing, click **Save and return to course**.

Review student submissions

After students submit their assignments, open the assignment in your course and access the **Submissions** page.

The Submissions page displays a table listing all student submissions. If a student submitted a Kaltura video, it appears in the **Kaltura media** column.
