

# Configure media page display and layout in Canvas – Theming

Last Modified on 04/05/2026 8:01 pm IDT

 This article is designated for all users.

## About

Use the **Theme & layout** tab to preview how the media appears in a player.

Some configuration options, such as selecting a player or controlling page elements, are not yet available.

## Who can use this

- Media owners
- Co-editors

## Access the Theme & layout tab

If you don't see your 'My Media' content or editing tabs, contact your administrator to ensure you have the required permissions.

1. Go to your **My Media**.

Alternatively, you can access the Details tab from the **media page** by clicking the **three dots** below the player and selecting **Edit**.

The edit media page opens on the **Details** tab by default, with a left-hand navigation.

3. In the left navigation, select **Theme & layout**.

## Theme & layout

Save

View and manage all supporting assets for your media.

Preview in player

The 'Theme & layout' tab displays.

This tab currently supports preview only. Additional configuration options will be introduced in a future release.

## Preview the media in the player

Use this section to preview how the media appears in the player.

- The preview reflects the current player configuration.
- Playback behavior follows the player's settings.
- The preview updates automatically.

If no player is available for the media type, the preview section isn't shown.
