

## Order alignment in Canvas - Theming

Last Modified on 04/08/2026 6:13 pm IDT

 This article is designated for all users.

### About

The **alignment** service (ordering captions based on a transcript file) synchronizes a provided transcript (.txt) with the audio or video content. This is useful for scripted videos, such as training content, where the speaker reads from prepared text.

Upload a transcript as a .txt file, and the system matches the text to the timing of the spoken words in the video. When the speaker closely follows the script, the result is highly accurate captions.

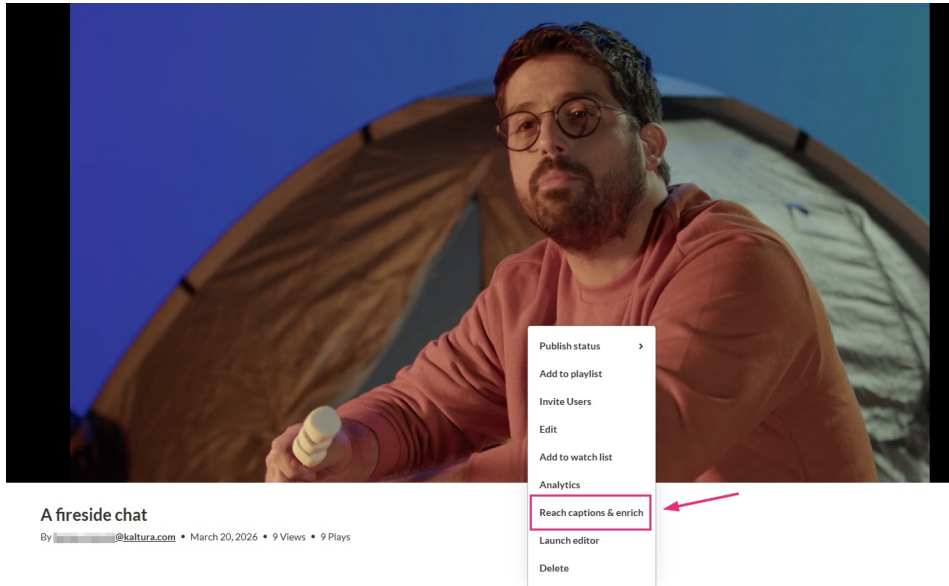

These instructions are for Theming users. If you don't have **Theming** enabled on your account, please see our article [Order alignment](#).

### Access the Captions & enrich service

1. Open the media page for the desired video, then click the **three dots** below the player.

2. From the menu options, select **Reach captions & enrich**.

The **Reach captions & enrich** window displays.

**Reach captions & enrich**

Order Captions

<b>Feature</b>	<b>Service type</b>
<input type="text" value="Captions"/>	<input type="text" value="Machine"/>
<b>Source media language</b>	<b>Turnaround time</b>
<input type="text" value="English"/>	<input type="text" value="30 minutes"/>

Close

## Order alignment

1. In the 'Reach captions & enrich' page, complete the fields as follows:
  - o **Feature** - Select **Alignment**.

### Reach captions & enrich

Order Captions

Feature  
 Captions

Service type  
 Machine

Alignment  
 Audio Description  
 Captions  
 Chaptering  
 Dubbing  
 Extended Audio Description  
 Translation

Turnaround time  
 30 minutes

Close **Order**

- o **Service type** - Select **Machine**.
  - o **Source Media Language** - Select the language from the drop-down menu.
2. Choose a txt file from the list of existing files (only one file can be selected) or click **Upload txt** to upload a new file.

### Reach captions & enrich

Order Captions

Feature  
 Alignment

Service type  
 Machine

Source media language  
 English

Choose an existing file or upload a new one

**Add a txt file** We support \*.txt file type

Close **Order**

The **Upload Attachment** window displays.

**TXT file**

 **Upload**

**Title**

**Cancel** **Save**

3. Upload your file and complete the **Title** field.
4. Click **Save**.

Your request is generated, and a success message displays. The system aligns the transcript with the video and generates a caption file (SRT or DFXP).
