

Create captions manually in Canvas - Theming

Last Modified on 04/08/2026 6:15 pm IDT

 This article is designated for all users.

About

Use the captions editor to manually create captions for your media.

Please note you can't manually add captions to a live webcast.

Access the closed captions editor

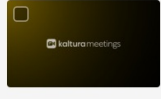

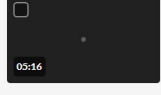

1. Go to your **My Media**.

My Media

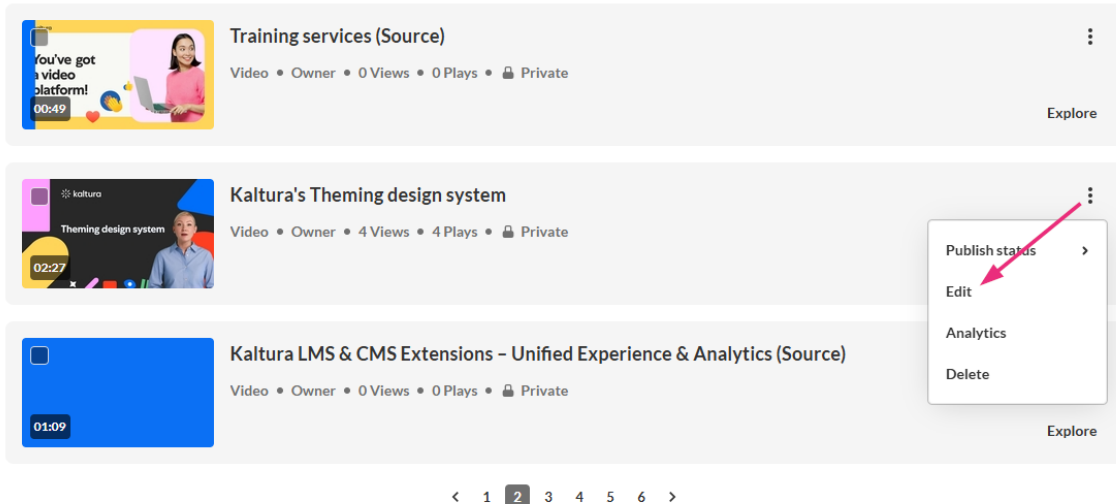

Search My-Media 92 Results found

To add another caption line, hover over an existing row and click **+ Add caption**.

The caption line duplicates. Update the text as needed.

3. Click **Save**.

You are asked to confirm captions accuracy.

Confirm captions Accuracy

Please update the accuracy rating to the best of your knowledge. Human-reviewed descriptions are typically **96-99% accurate**.

Check that:

- Sound cues and speaker tags are included
- Names and acronyms are correct
- Timing and readability are accurate

Accuracy  90%

Cancel

Save

4. Move the slider accordingly, then click **Save**.

Adjust timing

You may need to adjust caption timing to align with the video.

1. Click the timestamp field and enter the desired time.

If timestamps overlap, the system highlights the issue so you can correct it.

00:00:01,500

00:00:03,000

Today I want to show you our new design system.

The editor uses SMPTE time format: **hh:mm:ss,mmm** (hours, minutes, seconds, milliseconds), allowing precise timing control.

2. Click **Save**.

You are asked to confirm captions accuracy.

3. Move the slider accordingly, then click **Save**.

Add speakers

If you've got more than one speaker in the video, you can add speaker names to identify who is speaking.

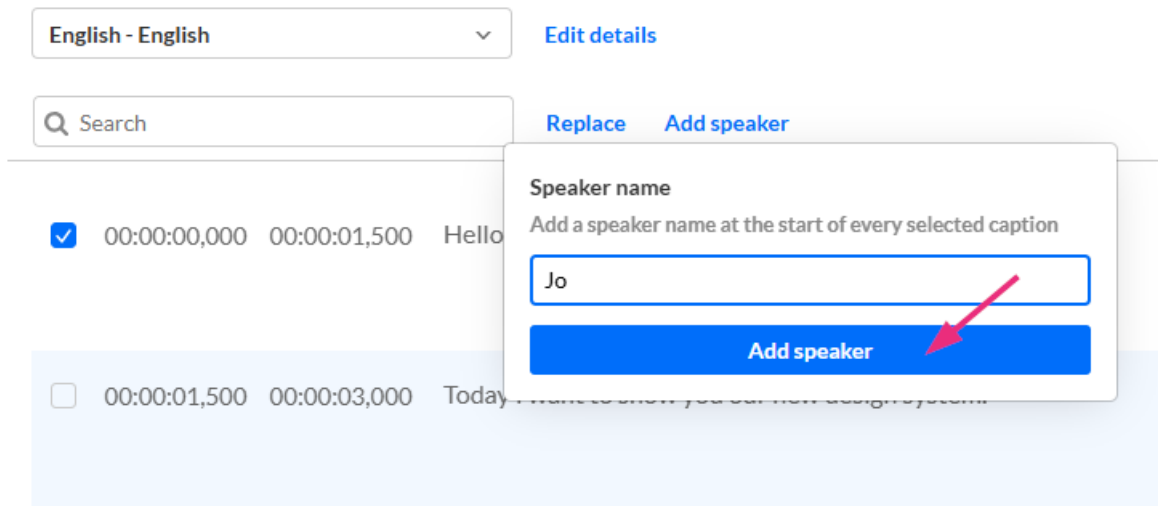

1. Click the checkbox next to the relevant caption line.

2. Click **Add Speaker** at the top.

The 'Speaker name' window opens.

3. Type in the name and click **Add Speaker**.

4. Click **Save**.

You are asked to confirm captions accuracy.
