About

The **Add to calendar** option lets you save session details to your preferred calendar.

These instructions apply to the **legacy Video Portal**. If you're using the new Video Portal with Theming, see the [Content Hubs category](#).

Add a session to your calendar

1. Go to the [media page](#) of the session.
2. Click **Add to Calendar**.

3. Choose one of the following options to download the invite to your preferred calendar:

- **Google calendar**
- **Outlook calendar**

If session details change, you can receive an updated calendar invite.
