About

In Content Hubs, galleries are created as **categories** in the Rich Media Content Management System.

Once created, galleries appear in the Content Hub navigation bar. You can manage whether galleries appear in navigation using the [Navigation module](#).

To create a gallery, see [Create categories in the Rich Media CMS](#). Categories created in the Rich Media CMS appear as galleries in Content Hub.

Although galleries are created in the Rich Media CMS, you can create **sub-galleries** directly in Content Hub. For more information, see [Create a sub-gallery](#).

If you don't have access to the Rich Media CMS, contact your administrator for help.
