About

You can preview and interact with your agentic avatar directly from the **Overview** tab while configuring it. Use the preview to test conversations and see how your agent responds without leaving the agent workspace.

Usage in the preview area does not consume interactions.

Interact with your agent

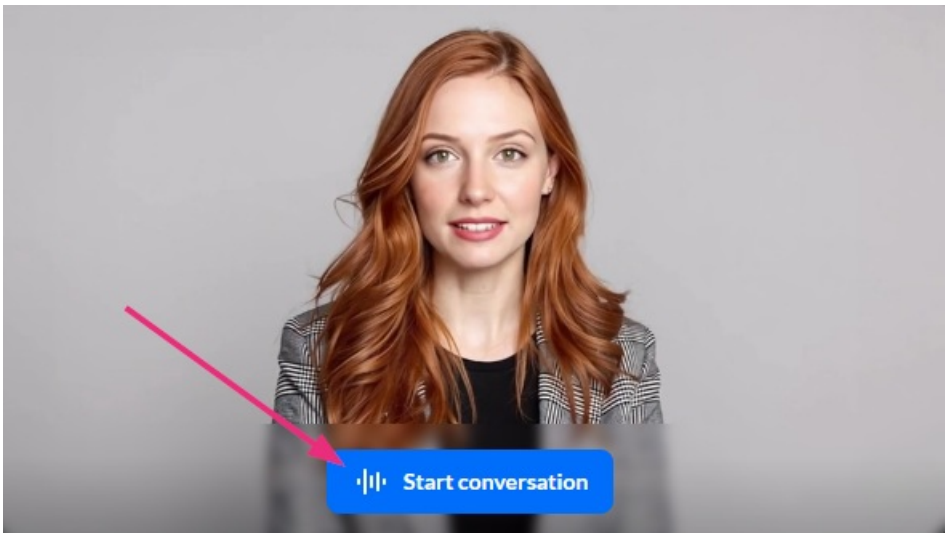

The 'Ask me anything' experience shows the following:

- An Agentic Avatar
- A **Start conversation** button
- The **Ask me anything** input field below

Start a conversation with the Agentic Avatar

To start a live conversation, click **Start conversation**.

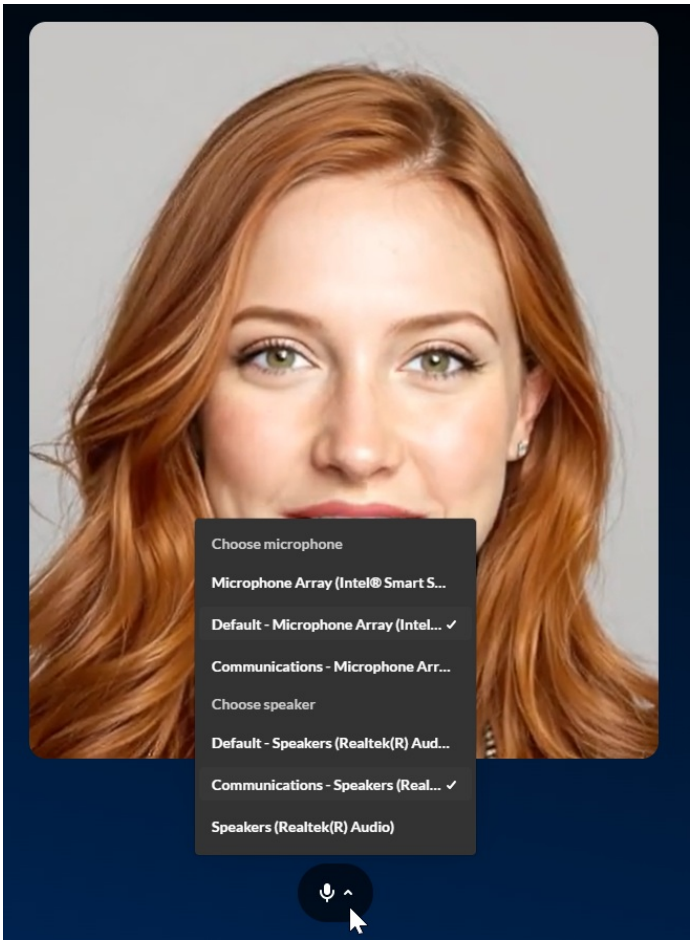

The first time you start a conversation, you're prompted to allow microphone access.

After allowing access, you can select your preferred microphone and speaker from the device selector on the microphone control.

The experience switches to a full-screen avatar view.

During the conversation

When the avatar loads, it greets you and introduces itself as an agent. If available, it can use basic profile information (e.g. your name) to personalize the conversation.

Speak naturally to the avatar and ask your question.

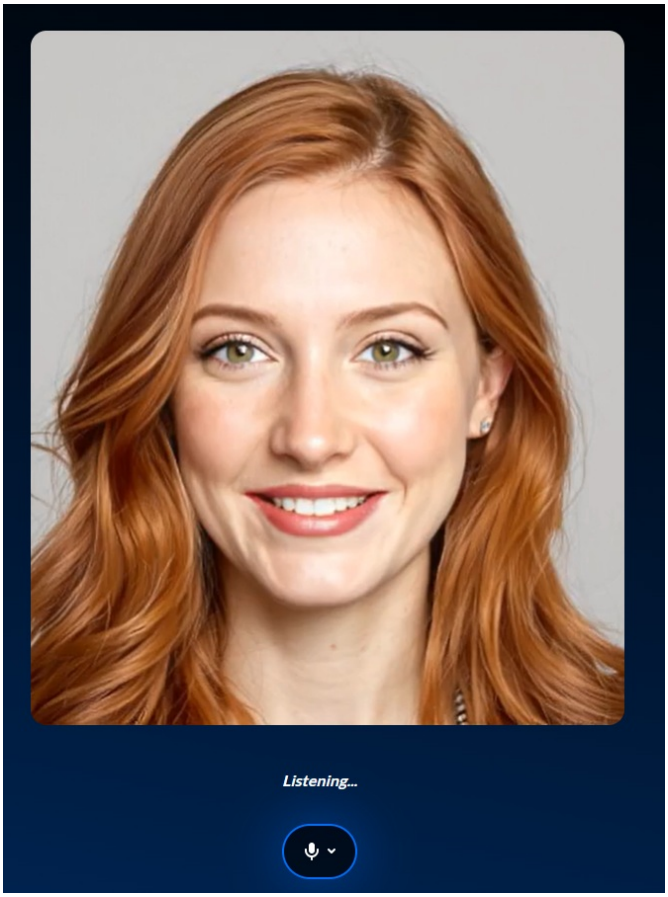

You can:

- Interrupt the avatar while it’s speaking
- End the conversation at any time

Microphone indicators

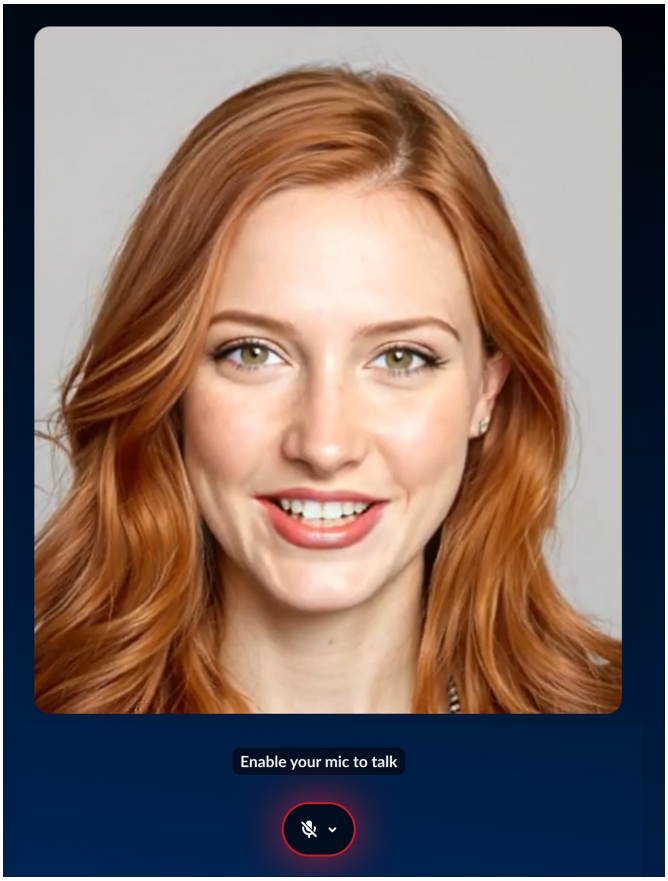

When your microphone is active and you’re speaking, a **blue** glow appears on the microphone button.

After you end the conversation

When you end a conversation, click **End** in the lower right corner to return to the main screen.

When you exit to the conversation, your conversation appears as a text transcript in the conversation panel.
