

Schedule media to be viewed in Sakai

Last Modified on 05/06/2026 2:40 pm IDT

 This article is designated for all users.

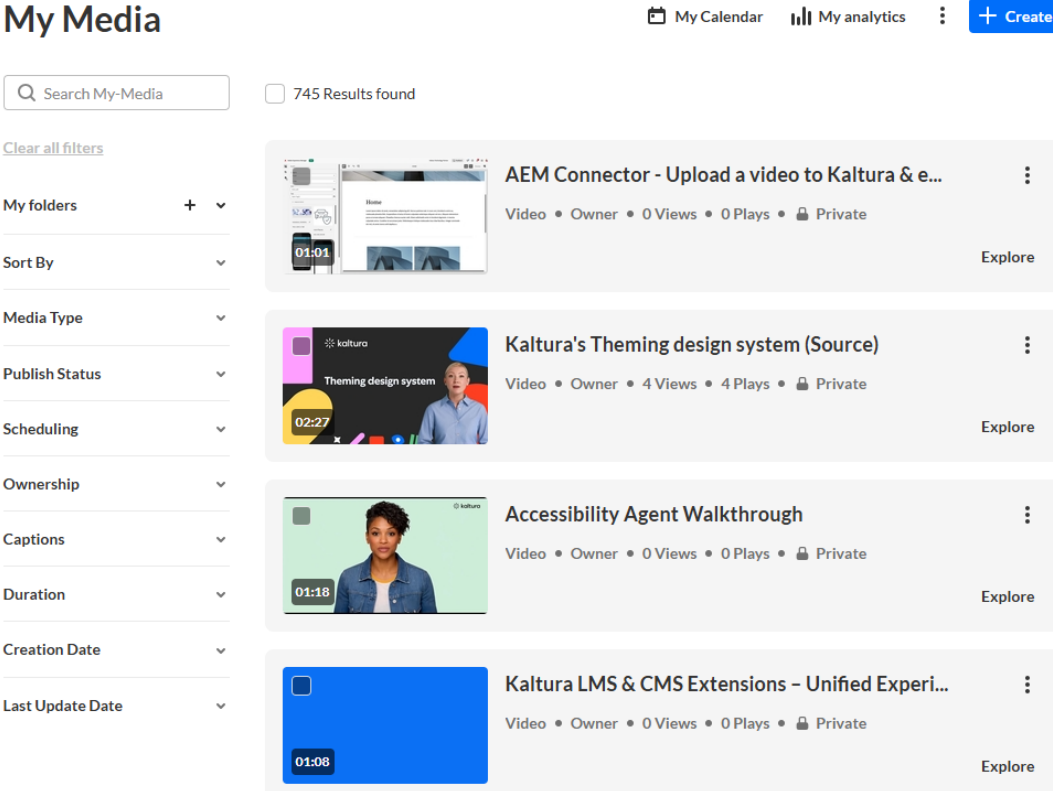

About

Scheduling media allows you to control when your content becomes viewable to your audience.

 This feature requires the [Scheduling module](#) to be enabled.

Access the Schedule settings

1. Go to your **My Media**.

Alternatively, you can access the edit page from the **media page** by clicking the **three-dot menu** and selecting **Edit**.

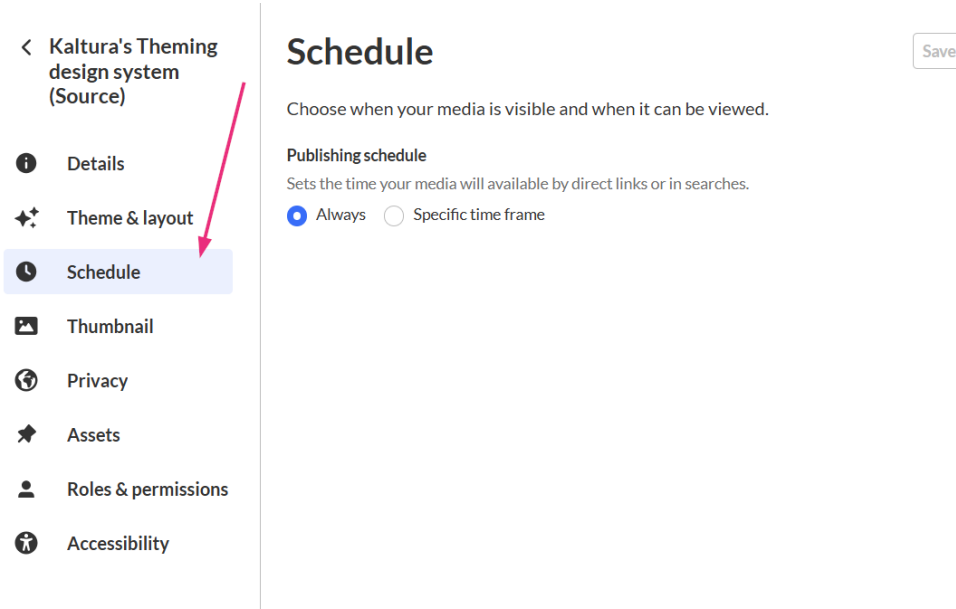

The image shows a video player interface. The video title is "Kaltura's Theming design system (Source)". The video content features the Kaltura logo and the text "Theming design system" over a background of colorful geometric shapes. A woman in a blue shirt is visible in the video frame. The video player controls are visible at the bottom, including a play button, progress bar, and volume controls. A three-dot menu icon is highlighted with a red box and a red arrow pointing to it.

The edit media page opens on the **Details** tab by default, with a left-hand navigation.

3. In the left navigation, select **Schedule**.

Set a schedule

1. Select **Specific Time Frame** to set the time range in which this media will be visible to users in published channels / galleries.
2. Complete the **Start time** and **End time** fields (date and hour).

Schedule

Save

Choose when your media is visible and when it can be viewed.

Publishing schedule

Sets the time your media will be available by direct links or in searches.

Always Specific time frame

Start time → **End time**

Time zone

3. Choose a **time zone** by clicking on the drop-down menu and choosing an option. You can also type in the search field to search for an option.
4. Click **Save**.

The media will be visible to you or other users between the scheduled start and end times. Only the media owner can see the entry in [My Media](#).

Find scheduled items

You can filter entries from different scheduling availabilities on the [My Media](#) page, as shown in the example below.

Explore

- **All Availabilities** - Includes all entries, regardless of their scheduling window.
- **Future Scheduling** - Entries with a start time in the future, visible in categories/channels when the time comes.
- **Past Scheduling** - Entries with a start time in the past, no longer visible in categories/channels.

- Scheduled media can be added to a playlist but won't appear until its start time.
- Scheduled unlisted media remains visible only to the owner until its start time.
- Scheduled media can be published but won't appear in the category/channel until its start time.
