

# Upgrade your LMS Video to LMS Extensions: Quick guide

Last Modified on 05/21/2026 6:14 pm IDT

 This article is designated for administrators.

## About

This quick guide walks you through enabling the Theming-based **LMS Extensions** experience within your existing Kaltura LMS Video integration.

LMS Extensions is the new name for Kaltura’s redesigned LMS video experience. It introduces modern, Theming-based versions of LMS pages and workflows such as My Media, Media Gallery, Media Page, Upload, and Embed.

This guide explains how to activate the required Theming features and modules to enable these updated experiences within your LMS.

## Download the guide

The guide is available as a PDF for easy reference. You can view it online or download it to follow along while making changes in your site.
